

THE OMAHA DAILY BEE

PUBLISHED EVERY MORNING

TERMS OF SUBSCRIPTION: Daily (Without Sunday) One Year, \$3.00; Daily (With Sunday) One Year, \$3.50; Three Months, \$1.00; Six Months, \$1.75; Single Copies, 5 Cents.

ADVERTISING: All communications relating to news and editorial matter should be addressed to the Editor. Business letters should be addressed to the Business Manager.

STATEMENT OF CIRCULATION: For the month ending August 31, 1896. Total circulation, 10,000.

THE FARMER'S INTERESTS

A large delegation of Pennsylvania farmers visited Major McKinley on Tuesday and pledged him their support. In the address of their spokesman were some significant utterances which farmers everywhere would do well to seriously consider.

It is to be presumed that every intelligent farmer understands that the principal demand for his products comes from the wage workers, who constitute by far the largest body of consumers. It is therefore of the first importance to the farmer that the purchasing power of this numerous element shall not be in anywise reduced.

Senator Jones of Arkansas was an original Bland man in the Chicago convention. That is why it has taken so long for him to work up a real enthusiasm for Bryan.

No boodle men on the legislative ticket. The Republicans of Douglas county cannot afford to sacrifice the national and state tickets in defending men with questionable records.

Judging from his long, lingering illness, that "sick man of Europe" must have excellent medical attendance, or Turkey would long ago have made its exit from the autonomic states on the continent.

Mr. Cowman may have been gallant enough to forget the unnecessary disturbance of his Omaha address by the Bryan hoodlums, but that does not blot out the fact of a reconvened arrangement on the part of the local silverites to break up the meeting.

Mr. Kitchin has needlessly rushed into print, as he will presently discover. There was no necessity of his writing personal letters to the editor of The Bee and publishing them in another paper. Common decency would have suggested that he wait a reasonable time for his answer, if he really wanted an answer.

Even the silver democrats are getting tired of some of the extreme silver men. When such a good Bryan paper as the St. Louis Republic remarks editorially that "Tillman has learned that a political freak never lasts long in this country," there is a bare possibility that the repudiators may finally be repudiated in their own camp.

MAINE'S THUNDERING VOICE

Acheson Globe (rep.): Vermont was a state, as was Arkansas, but glorious old Maine was to be a whole haddock. Indianapolis News (dem.): It appears that Mr. Bryan was in keeping out of Maine. The majority will be big enough without a few thousand more votes which his speeches might bring.

Chicago Record (ind.): The point of interest concerning the outcome in Maine now is, what will be the effect on Sewall? Shrewd politicians predict that the crushing defeat means his retirement from the democratic ticket in order to make room for Watson.

Chicago Times-Herald (rep.): Mr. Sewall's state has told what it thinks of the ticket of which he is a part. The result has crushed the last hope of the repudiators and shows how futile is the cheap money appeal to the independent workmen in field, shipyard, shop or factory.

Minneapolis Journal (rep.): It is plain enough that the people of the country are not in a hurry to get the silver dollar. The poll in order to administer to the Bryan-Algeid-Tillman outfit the rebuke they deserve. Maine polled the largest republican vote in the country.

Globe-Democrat (rep.): Maine's majority was not a very republican one, nor was Vermont's. Thousands of honest money democrats in both states voted the republican ticket to make the overthrow of the repudiators and the mobocrats complete.

Chicago Tribune (rep.): The Maine victory is a straw of large dimensions indicating the general feeling of the country. It shows that there is no silver craze in that state, and that when the attempt was made to infect the Maine farmers with the disease in their midst and overthrow the popular party, it failed.

Chicago Chronicle: The average rate of wages in the United States has been higher for the last twenty years than for any period in history. During that time the payments have been made under the gold standard.

Chicago Chronicle: The general rate of wages in all the principal employments is as high as it was in greenback times, when paper money was worth from 40 to 80 cents on the dollar in gold. In many branches of labor the rate of wages is higher now in gold than it was in depreciated greenbacks.

Chicago Chronicle: Every farmer knows that by increasing the production of wheat or corn or potatoes in excess of the public demand the price of the commodity is lowered. Every manufacturer is careful that the output of his factory in each line of goods is regulated by the requirements of the market.

Chicago Chronicle: Every farmer knows that by increasing the production of wheat or corn or potatoes in excess of the public demand the price of the commodity is lowered. Every manufacturer is careful that the output of his factory in each line of goods is regulated by the requirements of the market.

THE TURKISH MIDDLE

What seemed a few days ago to be an aggressive movement on the part of England against Turkey now appears to have had little real significance. At any rate nothing more has been done and manifestations of dissatisfaction by the other powers, as reflected in the European press, suggests the probability that nothing further will be done at present.

The suggestion of a London paper, that the United States might be induced to enter into an alliance with England and Italy to compel the Turkish government to respect the British demands, is of course absurd. That would be utterly opposed to our settled policy and if it could be supposed that England would invite such an alliance it would receive no consideration from this government.

THE RIGHT OF CONTRACT

In one of his Kentucky speeches Mr. Bryan said that the free silver man intends "that the silver dollar shall be just what it is today with an addition, and that is that whereas today you can contract against the silver dollar you propose when we restore bimetalism to prohibit any future contracts for any particular kind of money, because that is permitting the citizen to demoralize by contract what our government makes money by law."

Chicago Chronicle: Every farmer knows that by increasing the production of wheat or corn or potatoes in excess of the public demand the price of the commodity is lowered. Every manufacturer is careful that the output of his factory in each line of goods is regulated by the requirements of the market.

THE SENATORIAL PART OF IT

The election of Mr. Bryan would mean the election of a man who would be an untold rather volatile and flighty young man, who has not been a marked success hitherto as either lawyer, editor or politician, though he has never failed in any of his ventures in the latter line. It would be an experiment of course, as nearly all elections are to some extent. The country could possibly get along with Mr. Bryan as president. The president does not control the money.

who had never been in the United States, but who had studied our history and acquired a love for our institutions, died in 1829, leaving a will by which he bequeathed to the United States government \$100,000, or \$900,000, to found an institution dedicated to the increase of human knowledge. The money was received by the United States. A plan for its investment was formed by which it was to be loaned to the state offering the highest rate of interest. Arkansas was the highest bidder and received the cash.

Chicago Record: "Don't you think there should be music in every home? By all means, what I object to is music next door." Chicago Tribune: "It always depresses me dreadfully to meet a bicycle scorcher."

Chicago Post: "Does he offer any proof of affection? He has a very matter-of-fact statement without any intimation that a 'crime' was perpetrated in 1873. The two prime duties of a historian are to know the truth and to tell it as he finds it."

HIS DAY IS ABOUT OVER

and cooler times are at hand, for which every one with a memory of the torrid summer rejoices.

And fall styles in clothing are ready, if you know where to look for them. Clothes, more clothes, you can find at almost any store, but there is only one best place where style is as much a consideration as the cloth itself.

We want to clothe the man who used to think he must have everything cut to his order. We would like to show him his error and put money in his pocket at the same time.

For the man who knows our kind of clothing, it is only necessary to remind him that our Fall Stocks are ready for his inspection.

BROWNING, KING & CO., S. W. Cor. 15th and Douglas Sts.
