General Manderson Talks of the Political Situation as He Found it on a Recent Trip Enst\_No Life in Democratic Campaign.

Yesterday, in speaking of the political sitnation and the outlook, General Manderson

"I was in Chicago for three days, and while there, as the result of inquiries made of persons from many sections of the state I became satisfied that Illinois would cast its vote for McKinley by a very large ma jority. The uniform testimony was that con servatiem had overcome radicalism in political sentiment, and the throwing off of all disguise by Mr. Bryan in his hot chase for the gratification of his political ambition was having its effect. The people are no longer deceived by the false issue of free coinage and are realizing what Bryanism and Altgeldiam really means—the destruction of material interests and the taking of a

path that leads to national disaster. "Yes, I called at the headquarters of the national committees of both parties. I found Senator Jones of Arkansos and Representa-tive Richardson of Tennessee in a handsome Builte of rooms on the parlor floor of the Auditorium annex, guiding the political for-tunes of Bryan and Sewall, or Watson, as the case may be, and handling the destinies of the demo-popocratic party. They are pleasant gentlemen and old-time friends, and pleasant gentlemen and old-time friends, and then I pitted them in their lonesomeness. A reliable friend at Washington has sent me the estimate of the branch of the democratic Bryan committee that up to a tew days ago held place at Washington. The estimate was not unde for public consump-tion, but is the cold-blooded figuring of those

in charge, who are looking for the places where Mr. Bryan can make votes. "The statement is most interesting and shows how hopeless the cause of Bryanism is when you get under the upper crust of braggadocio in the effort to sustain a lost cause. Here is the estimate, and as you read it you will not wonder that the Wash ington branch headquarters concluded to
