Wheat Furnishes a Big Surprise and Closes Higher.

BEARISH NEWS EARLY THE FEATURE Later in the Session the Visible Supply Statement Proves a Sensation and Produces a Good

Market.

CHICAGO, Sept. 28 .- Wheat furnished a big surprise today, December closing 1%c higher, after an early decline of %c. The decrease in the world's visible supply was entirely unexpected and started a wild buying movement, resulting in the advance. Corn closed %c higher, oats 4c higher and provisions 5c lower to 5c higher.

The auggestion of the early news regarding wheat was that it would probably see lower prices at the close today than on Saturday. The action of the market during the first few minutes of the session justified such a conclusion, for December, which had closed on Saturday worth 661/4c, opened this morning at from 65%c to 65%c. The bearish early news was about as follows: Chicago receipts 252 cars, compared with 167 cars a year ago; Minneapolis and Duluth receipts 1,557 cars against 1,108 cars on Monday a week ago. Black Sea ports ship-ments for the week, 3,950,000 bu., suggesting a total of about \$000,000 bu, as having been put affoat for Europe from all points last week and foreign markets apparently quite ready to sympathize with any weakness that might crop up here. Advices from the northwest also continued to report the probability of increased farmers' deliveries and the Atlantic port clearances since Sat-urday were only equal in flour and wheat together to 200,000 bu. But in spite of al this, there was steady persistent buying by professionals, who are satisfied that prices have not yet recorded a high water mark. Under it the effect of the bearish news was soon overcome. December gradually advanc-ing to 66%c. Later in the session the vis-ible supply statement provided a sen-sation and a strong enough market to dispose of a good deal of the wheat bought earlier in the day to support it. It showed a decrease of 974,000 bu, instead of an increase of about 1,250,000 bu, instead of an in-crease of about 1,250,000 bu, as expected, and compared with an increase a year ago of 1,383,000 bu. That settled the matter for the day, so far as the extinguishment of the bearish feeling with which the local crowd started was concerned. A regular ficed of coreving orders poured in, and De comber was rushed up to 6% in a very short space of time. There was a weak spot later, December declining to 66%c, but heavy shor

buying soon shot prices upward again, De-cember closing firm at 65%.

Corn was weak early on account of the heavy receipts and the cold weather in the west, which, it was expected, would hasten the time of moving the new crop. Later, when wheat became steadier, the shorts took fright and began to clutch rather nervously for the limited offerings, causing a rise, considering the bearish figures for the day May opened 1/4c lower at 251/4c, declined to 25c and advanced to from 25% c to 25% c, clos

ing firm at 25%c.
Oats were rather quiet. The firmness which was displayed was influenced en-tirely through sympathy with wheat and corn. Prices closed about 1/2c better all around than Saturday's final quotations. May opened a shade lower at 19½c and advanced to 19½c, closed steady at from 19½c to 19½c. Commission houses appeared well supplied with selling orders at the opening and prices were lower for a while in consequence. All that was changed when wheat became very strong and that appeared the sole reason for an advance which followed. January pork closed 5c lower at \$7.10; January lard, 5c higher at \$4.15; January ribs, unchanged

at from \$3.52½ to \$3.55. Estimated receipts for Tuesday: Wheat 295 cars; corn, 1,000 cars; oats, 650 cars; hogs, 16,000 head.

The leading futures ranged as follows: Art cles. | Open. | High. | Low. | Closs.

STOCKS AND BONDS.

Bears Were Pairly Aggressive from the Opening of the Session.

NEW YORK, Sept. 28 -All the professionals were in favor of a reaction at the outset this

morning and the bears were also fairly ag-gressive. Itealizations were the order of the my on the part of weak holders. Business was on a declining ratio and the distribution was poor, St. Paul, Sugar and Burlington practically

on a declining ratio and the distribution was poor, St. Faul, Sugar and Eurlington practically constituting the market, although the fluctuations in other markets were wide. It was virtually conceiled that a large speculative corporation was being "gunned for." The market was fairly sulmated early in the day, but subsequently became sluggish. An easier money market contrasted with a firmer tendency in foreign exchange and predictions that the gold import movement had censed were met by London estimates of probable large chipments of the metal to this country this week. The chief influence upon prices, however, was exerted by unfavorable traffic returns.

The opening was stronger or higher London quotations, moderate purchases for foreign account and reported additional gold arrivals. A raid on Sugar stock based upon an important reduction in the refined trade of the product and realizing in Manhattan were the Initial features of the dealings and the general list was soon sympathetically affected. The declines were specially severe in the grangers on the heavy decrease in St. Paul's net figures for August and estimates of a poor showing by the Burlington. The stock fell 1½ per cent and listington receded to 635,. The other extreme decreases extended to 1½ per cent in Sugar and Manhattan. In the usually inactive stocks Wheeling & Lake Eric preferred was conspicuous for some rapid changes in the early trading and the final trading recorded a gain of 2 per cent. Illinois steel was influenced by realizations and broke 1½ points. The market lapsed into duitness in the afternoon session and but few changes of consequence occurred in values. The tendency was downward, however, until the last half hour, when covering stimulated a fractional rally. The closting was steady at general sharp losses. Raliroad bonds were \$1,225,000. Government bonds continued strong on an investment inquiry. The sales were \$1,225,000. Government bonds continued strong on an investment inquiry. The sales were \$1,225,000. Government bonds conti well strong on an investment inquiry. The sales were \$2,000.

The Evening Post's London financial cable-gram says: Bright weather has proved a restorative to the stock markets, which were distinctly better today. Contangoes, of course, were stiffer, Americans commanding fully 4 per cent. The account was easily arranged and a general improvement in prices followed. Americans were especially firm, although the close was appreciably below the best. There was considerable buying of low priced shares and enoud-class bonds. At the close today the London money market was easier in tendency, generally at 2½ per cent. The fact that the lank of Germany did not raise its discount rate today as expected helped to weaken the London market and as also did the decline in the market price for bar gold to 75 lekkd per ounce, Money may perhaps be lower for a few days, but it is now believed that the worst of the rise is over for the time. The Farls bourse was wesk and the Berlin market steady.

COURTS AGAIN GRINDING AWAY. Owing to the Absence of the Jury Little Business Being Done. The September term of the district court opened yesterday, but the usual bustle and activity attendant upon the first day of a term was conspicuous by its absence, owing

to the fact that no jury cases will be taken up until after election. The judges in all of the jury courts were present, but nothing was done by any of them except to pass apon motions. In the criminal court Judge Baker heard several answers in garnishee cases and gave notice that on Saturday he would take up criminal cases in which the accused parties desired to plead guilty. George Sweeney, the South Omaha man, convicted of jury bribing in the Bolln case, was on hand to receive his sen-tence which had been suspended during warm weather owing to the condition of Sweeney's health. He was ordered to appear Saturday next for sentence.

In the equity courts Judge Keysor passed on a large number of motions which had been argued at the last term and Judge Powell handed down a number of decisions in cases of various degrees of importance. The city of Omaha was victorious yester-day morning in a case which has been contested with more or less activity in the district court for over ten years. The case was entitled Louisa Boyd against the City Omaha, and involved the possession of the north half of the lot at the northeast corner of Ninth and Howard streets. The city has claimed the title to this property, but its claim has been contested by Mrs. Boyd and Mrs. Elizabeth Whiteside, both of whom claimed title from a former pretended owner and also by right of possession. The case has dragged through the court for over ten years in one form or another, with the claim. ants holding possession in spite of all efforts of the city to dislodge them.

The case, which was decided in favor of the city by Judge Powell yesterday morning, was one in which Mrs. Boyd sought an in-junction to restrain the city from ejecting her from the premises. This was tried at the last term of court, the plaintiff setting up the claim that she had been in open and undisturbed possession for over ten years, and also that she had acquired title by purchase from the rightful owner many years ago. The city contested both points and the decision of the court sustained the po-

sition of the city. City Attorney Connell stated, after leaving the court room, that he would at once instruct the sheriff, under writ of ejectment issued by the court, to remove the claimants from the houses, and would also instruct the building inspector to at once tear down the two old houses which have long been landmarks. Mr. Connell also said that this action would be followed by immediately requiring all parties occupying property be-longing to the city, except those holding leases or deeds from the city, to at once vacate such property. The city now holds leases with about seventy-five parties, who have for years been occupying vacant lots or parts of the streets or alleys of the city. These leases have been entered into within the past three years and give the city the right to take possession of the property at any time. The proposed action on the part of the legal department of the city refers only to those parties who do not hold leases deeds to parts of the public domain occupied by them.

JOHN GRANT GETS THE CONTRACT. Injunction Sought by Barber Asphalt

Paving Company Denied. Judge Powell yesterday morning denied the injunction sought by C. E. Squires to restrain the city from entering into a contract with John Grant for the repairing of asphalt paved streets. In June of the present year the Board of

Public Works received bids for the repairing of asphalt paved etreets and on the 26th of that month a contract covering forty expanding districts was entered into with John Grant at prices tanging from 98 cents to \$1.19 per square yard for repairs actually made, the price yarying according to the class of pavement. This contract was after-wards approved by the city council and sent to the mayor, but before it was signed a restraining order was obtained from Judge Powell on the application of Squires on rep-resentation that the specifications on which bids had been invited prevented a bid for what is known as lisurface repairing," a method involving the use of machines pateneted and owned exclusively by the Barber Asphalt Paving company, and on the further ground that the bid of Grant was not the lowest. The case was heard during the closing days of the last term of court. Grant's contract covers a period of five years and includes about forty paving districts having an aggregate surface of about 200,000 square yards. These districts do not include any which are covered by the contract with the Barber Asphalt Paving company by which the latter receives 5 cents per square yard per year for keeping the streets in repair, regardless of the number of yards actually repaired. It is reported that Mr. Squires intends to carry the case to a higher court.

Find the Burlington Guilty. At yesterday afternoon's meeting of the local Passenger association the case of the was called and tried. After a pro-longed discussion the case was decided against the latter road, and it was ordered to pay a fine equal to its share of the tickets sold by a local broker and reading from Omaba to San Francisco via the Burling-ton, the Colorado Midland and the Southern Pacific roads. Union Pacifis against the B. & M.

2.576 1.825 CATTLE-The week opened with 2,806 head of fresh cattle in sight, as against 4,191 on Monday

fresh cattle in sight, as against 4,191 on Monday a week ago. The most of the cattle here were westerns and Texas.

Good beef cattle were in very light supply and met with quite ready sale at steady prices. One load of 1,251-pound steers sold at 44 and another little bunch brought \$4.30. Some Texas steers sold at \$2.50 and \$2.85. The demand for good killing cattle at this point continues considerably in excess of the supply. The grass cattle arriving are few of them good chough for the killers and the packers have hard work to get enough suitable cattle to supply the demand for meats.

get enough suitable cattle to supply the demand for meats.

About a dezen loads of cows and helfers were offered and met with ready sale at fully steady prices. One bunch of four or five loads of western helfers sold at \$2.89.

Feeders and stockers were in good demand and sold freely at strong prices. The rumor that representatives of Armour & Co, were at the yards and that arrangements were being made to loan money on cattle paper caused much satisfaction among operators generally. Representative sales: BEEF STEERS.

2	HOGS-The re	ceipts	of hogs were 1,6	65,	ns

HOGS—The receipts of hogs were 1,655, as against 1,517 a week ago, a very fair run for the first day of the week.

The market as a whole did not show much change from Saturday, as regards values, the average of the sales being almost identically the same. same.

The opening was a little slow and weak, while the close was a little stronger. The general market was to all practical intents steady.

Heavy hogs sold as low as \$2.50 and up to \$2.50, while the mixed and medium weights brought \$2.50gra.00 Targely. A few lightish loads averaging 197 to 235 lbs. brought \$1.10. Representative sales:

CHICAGO LIVE STOCK.

Few Prime Lines Were Steady, but

the General Was Low.
CHICAGO, Sept. 28.—In cattle the few
prime beeves that were shown sold at steady prime beeves that were shown sold at steady prices, but the general market was slow at an average decline of 10c. Sales were on a basis of from \$2.25 to \$3.50 for common to native steers, with rates largely at from \$4.00 to \$4.75. The stocker and feeder trade was again good, but lower under much larger offerings, choice feeding cattle alone showing strenath. Native butchering and canning stock were weaker, but calves were steady. Western range averaged a dime lower, with sales largely at from \$2.90 to \$3.50.

caives were steady. Western range averaged a dime lower, with sales largely at from \$2.90 to \$1.50.

Prices for hogs ruled strong. Sales were made of common to prime droves at from \$2.50 to \$1.55, choice medium and light weights selling close together. Sales were largely at from \$2.50 to \$1.65, choice medium and light weights selling close together. Sales were largely at from \$2.50 to \$1.55 and light solid largely at from \$1.25 to \$1.35 and light solid largely at from \$1.25 to \$1.45.

Good to choice flocks were steady, but sheep were too plentiful and sold slowly at a further decline in numerous instances of 16c. Common to prime western sheep were salable at from \$1.50 to \$1.90 and lambs sold anywhere from \$1.50 to \$1.90 and lambs sold anywhere from \$1.55 to the poorest up to \$4.50 for fancy lots. Native export sheep were scarce and steady at from \$2.90 to \$1.55.
