Meeting of Presidents of Western Railroads Adjourned Without Accomplishing the Object that Called Them Together.

The meeting of the presidents of various western roads in Chicago for the avowed purpose of putting a stop to the reductions in freight rates that have been most constant for a week past and for reaching an amicable agreement that should be adhered to by the different lines, has adjourned without transacting the business for which it was called together.

At any rate the work of patching up matters has been turned over to the general freight agents. Freight Traffic Manager Munroe of the Union Pacific went to Chicago Thursday evening, presumably to attend this conference.

MADE MONEY HANDLING FRUIT.

California Shippers a Bonanza for the Union Pacific. For the past four months the Union Pacific has done a large business in the transportation of green fruit from California to the east.

SOUTHERN FRAUDCRATS COMBINE

True Character of Bryan's Principal Supporters in the South.

EXTRA BIG

This morning we put in stock two new suits for boys which are big values—extra big. You save a clean dollar on each suit by reason of their not being on hand four weeks ago when they were due, and on top of that you save the difference between "The Nebraska" regular price and the irregular price of places where they have a pen chant for conjuring with odd cents.

Suit No. 1 is an all wool chevrot of a dark bluish gray in pin check pattern and was intended to sell for three dollars, but you may have it for two dollars now, and Suit No. 2 is a heavy Scotch tweed suit in a reddish brown plaid effect which we have marked \$3.50 instead of \$4.50 on account of its arriving too late.

We have each of these suits in sizes from 4 to 14 years. We have only a hundred of each suit. We don't know how long they will last, but we do know that they won't last long if the people who come to see them take a look around before they come in.

You may see as good suits marked \$3.00 and \$5.00, but you won't see any better suits marked \$2.97 or \$4.98. Of that we are sure.

Our Fall Catalogues are getting scarce. Your name please.

Money in Sight to Furnish Consumers for Nebraska's Corn Crop.

Big Packers Come to Their Rescue. Action Which Means Much to Nebraska Just at This Time When Others Have Refused Accommodation.

For some time it has been apparent that the big packers were becoming alarmed at the prospects of securing a supply of good corned cattle the coming season.

This would seem strange, when it is known that throughout the great corn belt the greatest crop of corn ever known in the country had been raised.

Neither was there any lack of stock cattle. The trouble has been that moneyed men who have in the past made a business of furnishing money to stock feeders, or in common parlance, handled stock paper, have become alarmed over the free silver agitation and the threatened unsettling of business and refused to put out any money until the issues of the pending campaign were settled.

That there was plenty of money has never been denied and it has also been admitted that stock paper has always been considered one of the safest of investments, but under existing conditions the services of such packers engaged in this business refused to put out any money for any purpose.

Some of the largest interests in that line have combined and formed a company, with headquarters at Omaha, with a capital of \$1,000,000 to engage in the business of loaning money to stockmen.

They have faith enough in the result of the pending contest not to put out any money until the issues of the pending campaign were settled.

THE PHENOMENAL SUCCESS OF THE ROUND OAK

Is due entirely to its faultless design—its perfect fittings and the first quality of the material used. The Round Oak

is equally suitable for hard or soft coal—but it burns no more tons of soft coal than the ordinary base burner does hard—It's a great saver of coal and a great heater—you all know it's so—
