HALF THE LETTER AN APPEAL FOR UNION Candidate Urges Ills Diversified Fols lowers to Stand and Fight Together to Make Him President of the Country. ST. LOUIS, Oct. 3 .- On his arrival here Candidate Bryan gave out for publication the following letter of acceptance of the popwere represented by delegations ranging from 19. In the World of Whitring Wheels, ulist nomination for president: "Hon. William V. Allen, Chairman, and Others, Members of the Netification Committee of the People's Party: Gentlemen-The nomination of the people's party for the presidency of the United States has been tendered me in such a generous spirit, and upon such honorable terms, that I am able to accept the same without departing from and steel, 37 per cent on wool, and 12 per the platform adopted by the democratic naant on cotton. It might have been sup- tional conventional at Chicago. I fully appreciate the breadth of patriotism which has actuated the members of the people's

party, who, in order to consolidate the sen-Ition of the trade of the country, and I timent in favor of bimetallism have been annot see that it has greatly changed from willing to go outside of party lines and hat time to this, and certainly there is support as their candidate one already nominated by the democratic party and also by the silver party.

"I also appreciate the fact that while, during all the years since 1873, a large majorwork to a comparison of quotations in ity of the democratic party, and considerable this most important branch of manufac- minority of the republican party, have been consistent advocates of the free coinage of silver at the present ratio, yet ever since the organization of the people's party, its members have unanimously supported such coinage as the only means of restoring bimetallism. By persistently pointing out the disastrous effects of a gold standard, and protesting against each successive step toward financial bondage, the populists have exerted an important influence in awakening the public to a realization of the nation's peril.

TIME FOR ALL TO UNITE.

"In a time like this, when a great politcal party is attempting to surrender the right to legislate for ourselves upon the inancial question, and is seeking to bind the American people to a foreign monetary system, it behooves us, as lovers of our country and friends of American institutions, to lay aside for the present such difpublic debt, and the deficiency still conferences as may exist among us on minor tinues. Will any one say in the presence questions in order that our strength may be united in a supreme effort to wrest the government from the hands of those who imagine that the nation's finances are only revenue for the public treasury and pro- secure when controlled by a few financiers, and that national honor can only be maintained by servile acquiescence in any policy. however destructive to the interests of the people of the United States which foreign creditors, present or prospective, may desire to force upon us. It is a cause of congratulation that we have in this campaign not only the support of democrats, populists and republicans, who have all along believed in independent bimetallism, but also the active co-operation of those democrats and republicans, who, having heretofore waited for international bimetallism, now join with us, rather than trust the destinies of the nation in the hands of those who are holding out the delusive hope of foreign aid, while they labor secretly for the permanent establishment of the single gold standard. "While difficulties always arise in the settlement of the details of any plan of co-op eration between distinct political organizations, I am sure that the advocates of bimetallism are so intensely in earnest that they will be able to devise some means by which the free sllver vote may be concentrated upon one electoral ticket in each state. To secure this result, charity toward the opinions of others and liberality on the part of all is necessary, but honest and sincere friends who are working toward a common result always find it possible to agree upon just and equitable terms. The American people have proven equal to every emergency which has risen in the past, and I am confident that in the present emergency there will be no antagonism between the various regiments of the one great army, which is marching to repel an invasion more dangerous to our welfare than an army with banners.

FLORIDA ELECTION ON TUESDAY,

#### State Officers to Be Voted For and Also a House and Senate.

JACKSONVILLE, Fig., Oct. 3 .- The Florida state election will be held on Tuesday and governor and other state officers for four years, a house of representatives and half the senate for two years and in each county officers for two years are to be chosen. The candidates for governor are W. D. Bloxham of Tallahassee, democrat;

E. R. Gunby of Tampa, republican, and W. W. Weeks of Washington county, populist. A somewhat vigorous campaign has been made by the democrats, chiefly on national issues, and the election of their state ticket by a substantial majority is conceded. The legislature to be elected, including sixteen holdover senators, will choose a United States senator to succeed Wilkinson Call. As closely as can be estimated, the democratic legislative candidates and the present senators, 100 in all, stand about sixty to forty against Call's election. f.
