Although Rising City is in one of the strongholds of Nebraska populism a large audience assembled to hear the speaker. The town hall was packed and a great many of the voters in the audience were farmers who had driven into town to hear the issues of the present campaign discussed.

Rosewater presented the cause of attempt on his part to mystify his audience by the presentation of a mass of technical information. He told the voters of the ev effects of a debased currency, refuted the assertions of the free silver advocates that the farmers needed cheap money, and deperibed the evil effects which would surely follow the adoption of a financial system that would place the United States at a disadvantage with the other great commercial nations of the world.

Mr. Rosewater held his audience to the end of his address. He answered clearly and directly the few questions put to him. The republicans of this part of Butler county feel confident that last night's meeting will materially strengthen them on elec-

The people took a great interest in the remarks, applauding the speaker, especially when reference was made to Major McKinley. The speaker made sound remarks on the money question, and dwelt considerably on the tariff, which seemed to be telling hits at the popocrats. LINCOLN, Oct. 3 .- (Special.) - The excise board held a brief but entertaining session in Mayor Graham's office this morning, in the course of which Police Matron Gallagher was superseded by Mrs. Thomas. It was decided to lay off the various members of the police force for one week each, during the coming ten months, and to apply this rebate in salaries to the payment of the \$25 per month stipend of the matron. In addition to this novel scheme for creating a sinking fund, the board with great originality, decided that It could save something out of the \$100 appropriation made for repairs on the patrol wagon, as other section of the state, the lowest in that section being 20.
