May Secure the Use of the Article as a Base for the Limestone, and May Use it for the Whole,

The city council held a long meeting yeserday morning, for the purpose of approving the award of the contract for macadamizing Lower Broadway to F. H. Guanella & Co. There were a number of citizens and property owners present, with a correspondwere filed against the narrowness of the track to be paved and kicks against the material to be used.

Colonel W. F. Baker, one of the county's representatives on the joint committee, was present, and opposed strongly the use of limestone. He declared that it was simply the repetition of an unwise experiment that had been proven a failure wherever He had favored the macadam scheme, but had opposed the use of lime-stone when his committee awarded the con-The petition in the suit of the Provident tract. A proposition that had been made by Savings and Loan association of Omaha & Grant Smelter company to against Henry D. Fullerton for \$1,458 has give the city free all the slag required for making a macedam street, from curb to work, if necessary, had struck blue very favorably, for he saw in it an opportunity to give employment to a large number of teamsters, whom, he believed, could be put to work hauling the slag across the river on the ice when the river froze over.

Officers of the motor company were also present to urge the use of slag and secure an ordinance they desired. The company was represented by President N. W. Wells, Guy C. Barton and George F. Wright. The proposition of the motor company to con-tribute \$1,000 toward paying the expense of work was discussed, and the officers in-formed the council that the money would be given upon condition that it be given upon condition that it would agree to pass an ordinance regulating the size of loads which may be hauled over the motor bridge and compelling heavily loaded teams to drive not faster than walk. It has been the custom for team-sters to put on loads of sometimes 8,000 ounds, and then drive at a trot across the langerous strains.

Des Moines Business Man Talks Buslness to Council Bluffs Voters. Hon, Sidney A. Foster of Des Moines addressed a crowd last evening that filled of the seats in the McKinley headquarters. Up to 10 o'clock, when the speech was nearly finished, the front and rear entrances

of the building were jammed by people anxious to force their way in.

President Harl of the McKinley club introduced the speaker. Mr. Foster is a practical business man of Des Moines with large amounts of capital invested and he spoke upon the political problems presented by the present campaign from the stand-point of a business man and a producer. The tariff question he dismissed with the remark that the free silver democrats, so far as it was concerned, had confessed judgment. That wing of the party is now trying to divert public attention by seeking to place the blame upon financial legislation enacted by the republican stateamen. The free silver democrats allege that they are ng number of protests and kicks. Protests fighting for a principle, but they are sadly

declared that every person who knows Mr. Bryan knews that what he is advocating is an experiment that no one can tell where it would end. "What would you think," said he, "of a doctor who had been treating a patient for four years and that patient ontinued to grow worse after he had tried on him every medicine known, and would then come again when the man was dying and declare that all that was needed to save him was another experiment?"

The currency question was disccused at length. "Gold and silver," he said, "never have been and never will be on a parity. One will continually bob ahead and the other lag behind. France changed the ratio of her gold and silver coinage 300 Circs in seventy years and nineteen times in the year. He thought it strange that it should take twenty-five years for Mr. Bryan and others to dinover and reveal to the people that a crime had been committed against the common people by the saver legislation. If silver was then went? legislation. If silver was then worth 3 cents more than gold, why was it the poor man's money? In 1872 Europe purchased over \$24,000,000 of American silver, and prior to that nearly all of the European nations were coining silver. In one year nearly all of them ceased to do so. The demand for silver for colnage purpose was destroyed and the price fell like any other commodity. This was the sole cause of the decline and the only true explanation of the alleged crime."

> BALTIMORE, Oct. 3 .- "Brother Joe" Corbett was the star in today's Temple Cup game and under his skillful generalship the Orioles took the second game of the series with quite as much ease as they did the game of yesterday. The crowd was again provokingly small, in a measure due, no doubt, to the threatening weather. Captain Tebeau was not able to play, and it is now said that his injuries are of such a nature as to preclude the possibility of his taking part in Monday's game, which, by the way, may not be played in Baltimore. The slim attendance here has so greatly discouraged the players that there is strong talk of playing the third game either in Pittsburg or Cincinnati, en route to Cleveland, and if base ball cranks of the For-est City do not turn out in greater numbers than they have in Baltimore, it is not unlikely that another of the games may be fought out on neutral grounds. Today's contest was one-sided to a degree that de-prived it of much of its interest, although t abounded in good plays.

It abounded in good plays.

The teams batted in this order: Baltimore—McGraw, third base; Keeler, right field; Jennings, shortstop; Kelly, left field; Doyle, first base; Reitz, second base, Brodle, center field; Robinson, catcher; Corbett, pitcher. Cleveland-Burkett, left field; Mc-Kean, shortstop; Childs, second base; Mc-Alcer, center field; O'Connor, first base; Zimmer, catcher: McGarr, third base; Blake, right field; Wallace, pitcher. MUGSY HITS SAFE.

First inning: Battimore, 4; Cleveland, 0. McGraw opened for the Baltimores with a drive to McKean, who stopped the ball, but threw poorly and Mac went to second. Keeler drove a beautiful one to center, on which which "Mugsy" walked home. Jennings was hit. Keeler scored on Kelly's single to center and on McAleer's error Kelly went on to second. Doyle beat out a "chopped" ball to McKean and Jennings scored. Reitz flied to Childs. A foul to O'Connor disposed of Brodie and on the play Kelly stole home. Doyle was out. Zimmer to Childs, trying to steal second. Four runs. A ball hit by Burkett down first base line was called foul by Emslie and the Spiders kicked vigorously. He finally put an ugly bounder over Reitz's head for a single, McKean's grounder to Jennings forced Burkett. Childs grounder to Jennings forced Burkett. Childs was given his base. A MOTHER'S LETTER.

How the Home Treatment is a Blessing to Distant Patients. Mrs. L. P. Saylor, Breckenridge, Colo., writes as follows to Drs. Copeland & Shepard, under date of Septeme

Lorene Savior, Breckenridge, Colo. "I write to tell you how nicely my little girl Lorene is doing under your treatment. Her came was a very bad one, indeed, as she had suffered for years with chronic catarrh, thin blood and nervous debility. Before putting her under your care 1 had spent over two hundred dollars for all kinds of medical treatment, but with no benefit whatever. I was truly heartsick when I wrote to you far blanks with which to begin a course by mail. The catarrhal inflammation closed the air passages so that she could hardly breathe at all while sleeping, her nose being tightly closed. She would have smothered if you had shut her mouth. Her lips were discolored and gums inflamed, and she was weak and puny. "She has been under your care only a few weeks and every one remarks what a change there is in her looks. She is gain-ing in strength and color and her whole system is undergoing a remarkable change toward health. In fact she is nearly cured already. I am indeed thankful for the remarkable effect of the Home Treatment in saving my child."

President Johnson called a meeting of the managers in Milwaukce for this morning Manning and Comisky could not attend for the reason that they could not possibly reach Milwaukee in time. G. D. Vanderbeck arrived here last evening and with Procident Johnson held a private center-ence in the office of Attorney Killitea. They mapped out their plan of action, which to be to vigorously oppose Brush and Go league. Messrs, Johnson and Killilea were appointed a committee to go to New York and plead their case before the board. They left at 4 o'clock this afternoon for Chicago and after a conference with Jim Hart of the Chicago club they will start for New York and reach there in time to attend York and reach there in time

It should senting the Omaha Cricket club. It should be stated, somewhat in justification of the result, that the senator figured on having a small army of twenty-two followers, but at the last moment could only muster acceptance when the poll was taken. This certainly handicapped the senatorial con-tingent inasmuch as at least two of their best men were absent, making them short on bowlers.

Rev. Liwyd said to the senator he would do better next time, and the senator himself just made a four and a two, and then bowed to Taylor's superfority. Colvin made two and also samuel Mr. Taylor. The others did not score, but Mr. Potter retired in a very comforting frame of mind, inasmuch as neither Taylor nor George Vaughan could bowl him.

The innings closed for thirty-nine or fifty-one in the minority.

Taylor carried off the laurels for his side in handling the ball, taking no less than seven wickets for fifteen runs, while theorie Vaughan had four vickets for six runs. Score:
