SILVER WEAK IN CONNECTICUT.

Town Elections Show Decided Gains for the Republican Cause. HARTFORD, Conn. Oct. 5.-Town elections were held all over the state today excepting at Hariford, New Haven, Bridgeport, Ansonia, Darby and Naugautuck, and the results show a decided gain in republican strength. and are bolleved to be an index to the election. Though the day's elections pre-sent many local issues which complicate the effort to arrive at an intelligent idea of the leading party's strength, in the few towns which had gold and silver democratic tickets the majority. The weather conditions were unfavorable, but the leaders of both parties hotel, where the party breakfasted. tion an estimate of the probable majority in Connecticut would be formed, and an effort was made in every town to get out the fullest possible vote.

COMING OVER TO SOUND MONEY.

Bryan Sentiment Rapidly Dying Out In Nebrusku.

Jacob Houck of this city has been out among the German voters of the state for the past month in the interest of the republican ticket. In a letter to Secretary Lunt of the county central committee he reports that the change of sentiment among the voters of the state continues in favor of sound money and protection. He says that the spontaneous outburst for Bryan is dying out and that the Bryan shouters are re-

gaining their senses.

Mr. Houck, said: "The silver people are growing desperate, and some of the mis-representations to which they resort in order to make votes for their candidates are ridiculous. One of them is to the effect that Major McKinley introduced the so-called 'Bennett law' in congress, and this has been largely circulated among the Germana to arouse their prejudice against the repub-lican candidate. As a matter of fact the 'Bennett law' was a purely local affair, which was first brought up in Wisconsin and then in Illinois, while Major McKinley was governor of Ohio, but this does no prevent the silver shouters from using it against McKinley.'

SILVERITES DEFENDING BROGLIN. Case Thrown Out by Reason of a

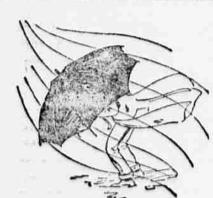

Technicality. Frank Broglin, the "tonsorial artist" and bruiser, who has been arrested and convicted of a number of petty offenses, and has served sentences on the chain gang and in the county jail, was discharged in police court yesterday morning on a complaint which accused him of stealing and selling a Seventh Ward Republican club uniform which he wore in the big Thurston demonstration and parade. Silverites Have Trouble with Papers. CITY, Oct. 5 .- (Special Telegram.) -The Eleventh congressional district is the only district of Iowa where the free silverites have found it impossible to support a daily paper to advocate their cause. Efforts have been made repeatedly during the campaign to establish a free silver daily paper in Sioux City, and a few weeks ago it was announced that the Weekly Forum, which bad just been started here, would be made a daily. first issue was to have been out today but J. L. Lewis announced that there no daily since they had found it would not be supported. The Sheldon Eagle has been supporting the Bryan ticket, but the daily edition was abandoned Saturday.

Another Marching Club Organized. The Thurston club has an associate in th Thurston Rifles Flambeau club, which will be a feature of any future demonstrations. The Rifles considered the idea of forming a marching club early in the campaign, but was given up. The street demonstration last week aroused the enthusiasm of the members, and during the afternoon pre-ceding the parade a club of forty-five men was organized and marched in the line. Since then the number has been increased. and they expect to nearly double their force before the next parade

Certain of Republican Success. United States Senator Warren of Wyoming returned from Chicago yesterday morn-While in that city he spent considerable time at the national head quarters of the republican party. He says he is more convinced than ever of the certainty of McKinley's election. The reports that are received at the national headquarters, he says, indicate that the central western states, about which some doubt has been felt, are as safe for sound money as any of the New England states.

SFEAKS TO A LARGE CROWD AT MEMPHIS

Democratic Numinee Assures His Bearers of the Success of the Free Silver Crusade in the Country.

MEMPHIS ONL 5 -- William J. Bryan argreater political battle which will be waged rived in Memphis this morning at 7:39 at the polls four weeks from tomorrow. The o'clock. The night's run from St. Louis extreme satisfaction with the result ex-pressed by Lieutenant Governor Cooke, the mittee of Memphians headed by Colonel John republican gubernatorial neminee, found a Overton, jr., chairman; G. T. Fitzhugh, republican gusernatoral bendition of the republican extension at headquarters of the republican state committee, where it was stated tonight that McKinley and Hobart would get upward of 30,000 majority at the November St. Louis.

Thousands of people were at the Poplar street station to witness the arrival of the democratic candidate. The famous Neely Zonaves were at the immediate entrance to the field the gold men were decidedly in the station and escorted Mr. Bryan and the Memphis committee to the Peabody

over of the distinguished visitor.
Mr. Bryan at 10 o'clock was escorted to the base ball park by the committee, thousand people were waiting and gave candidate a rousing reception. Mr. Bryan was introduced by Senator Harris, and spoke Mr. Chairman Ladies and Gentlemen

In Memphis it was something more than a year ago that his fight which is being waged now was begun; that is, it was in this city that those in favor of the gold standard met to begin the work of captur-ing the two great political parties, and it was here, a few days afterward, that the silver forces met to begin the organization of their campaign. (Applause.) There-fore, at this time, when the campaign has progressed so far that we are able to form some estimate of the result, I am glad t come again to the city which will be known in history because of the fight commenced

here. It was here that Secretary Carlisle came to address, not the democrats only but those of all parties who believed in maintaining the present financial system, and here began the organization to offset his influence, the organization which ex-tended through all the states and which was successful in controlling the policy of two great political parties. (Applause.) You will remember that when we met at that time there was a discussion as to the ways and means of consolidating the silvesentiment. Various plans were suggested and we met in that convention and decided to attempt, first to carry all the political parties to free colnage, and if we tailed in that, then to find some way to consolidate the vote of those in favor of free silver. (Applause.) I remember that I was i as to the means that might found, and I expressed doubt as to the

means, and yet my confidence as to the result I expressed by quoting from one of the Sunday school songs: "It may not be my way; it may not be thy way, but in His own way the Lord will provide. (Great applause. ALL CONCENTRATED IN HIM. "The work went on and we hav been ablto consolidate the sentiment of the people

this country, so far as the presidential candidate is concerned, on one person. am grateful to those who have been earne in conviction, earnest enough in their sire to restore the standard coinage of the constitution, to lay aside differences upon minor questions, until this great fight is won. I want to urge upon you, my friends, the importance of leaving no stone unturned leaving no effort unemployed to secure this result toward which we all aim. While I ierred upon me, not only by the nomination of my own party, but by the additional nomination of two other parties, (Applause.) I say to you here, my friends, that my interest in the cause of bimetallism is so deep that I would without a moment's hesitation resign my nomination in favor of any person in this country who can better carry this cause to victory. (Applause.) It is not time to listen to personal ambitions."

oice: "You are the Jackson of today.")
Mr. Bryan: "It is not a time to set personal interests above the personal good; it is not a time when we are to consider the emporary effect of this election upon party organization; it is a time when we are to consider the effect of the gold standard if erpetuated, not on party organization, not n this country, alone, but on all mankind."

My friends, I want to impress upon your ninds another thing; it is not only necessary that we shall elect a president and vice president in favor of free coinage, but it is cessary that there shall be a congress in favor of free coinage. (Applause.) The president can sign no bill until that bill caches the white house, and before any bill reaches the white house it must have received the endorsement of a majority of the members of the house of representatives

and a majority of the members of the senate. If there is a majority of one in either house against free coinnge, the president is powerless to restore bimetallism to the people. If you are in carnest for bi-metallism you must show that earnestness by doing anything necessary to be done, to elect congress, senate and president.
"Another reason why I find it pleasing to visit this city is that when more than a year ago we were seeking to secure the endorsement of free coinage by the demoeratic party before the national convention met I remember that in this city there was an editor who did yeoman service both with tongue and pen in the advancement of the cause. I say, my friends, in the preliminary campaign there were few, if any, in

this land who did better service in spreading the truth of bimetallism and making possible for that cause to be determined by the democratic party, as well as by the populist and silver parties, and therefore I am glad to come again into the district in which lives and is a candidate for congress, Mr. Carmack. (Great cheers and rolonged applause.) PLEA FOR PARTY REGULARITY. "My friends, I am not here to interfere in your state campaign or local politics, but I am here to increase the enthusiasm, if I

can, until the men who stand in the way of vention ever held before, to these my nominot feel the interest that I do in this cam-paign if all I had to commend me was party regularity. (Applause.) I appeal to you on higher grounds than that I have a stronger claim upon your support than can be given by the regularity of a convention. I stand by the right of the American people to have a financial sys-tem of their own (great applause) and em of their own (great applause), and therefore my candidacy appeals to every American cilizen who believes in the right of the people of this country to govern them-selves, regardless of the aid or consent of any other nation on earth. (Cheers.) am not appealing to any sentiments hos-ile to foreigners, but I say to you, my friends, that a nation does not deserve to be called a nation which will accept a financial policy 'ready made' from some

The gold standard gives us a rising dolar and a rising dollar means bondage, distress and misery to those who profess thus to form the basis of all civilization and who are the strength and bulwark of every government. know it is not an honest dollar dred people gathered about the station to those who love that dollar see him off, ind when he made his way to love it because it is the his car, he was repeatedly cheered. The dishonest dollar the world has seen and the more dishonest it ever becomes the greater is their affection for it.
What is an honest dollar? An honest dollar would be a dellar of which the purchasing power would be stable; a dollar which rises in purchasing power is as dis-houst as one which falls in purchasing power. And that proposition is recognized as true by all except those few who re-sard nothing as honest which does not add to their pocket, and nothing as dis-hourst that treats every person as well as it does thomselves. Stability in the as it does thomselves. Stability in the value of a dollar is the important thing, and the only way that you can secure a stable dollar is to secure a dollar of which there will be enough to keep pace with population and industry. (Applause.) GOLD IS A BAD METAL.

"The gold dollar is had, not because the quality of the metal is not good, but becuse quantity is as essential in money as You may show me a particular and of food which is excellent in quality. out if there is not enough of it to sustain ife I will never call it good food. (Ap-lause.) They say the gold dollar is a good follar; that it gives us good money. friends, we want money good, but how good? Just good enough; not too good, my friends. I am not afraid that when all the gold available for coinage and all the silver available for coinage is poured into the money volume of the world there be more than enough to form a safe and sound basis for safe and sound commercial transactions. (Applause.) Our opponents say we want sound money. What would you think of a earpenter who tried to build a house upon an invisible foundation? And yet they want to build up the commercial

transactions of this country upon a little lump of gold, regardless of the fact that foreigners hold a string to the gold and can jerk out the foundation of our commerce. (Applause.) You ask us how we are going to bring silver back into use. I tell you you cannot do it by electing people o office who want it driven out of use Money is a creature of law and laws are made by the people.
"The minority plank in the Chicago plat-

form was so much like the republican plank that you could not tell the difference between them with a magnifying glass. The republican platform pledged the republican party to maintain the gold standard until could get international bimetallism and the minority plank in the democratic platform opposed free coinage for fear it would interfere with getting international bimetallism. The majority rules and you have an issue this year between those who want to continue the gold standard and those who want to abandon it.

"Our opponents tell us that our dollar will be a cheap one. We tell them that they never called the silver dollar a cheap dollar until it was demonstized. We lusis that legislation can undo what legislation did. We insist that the opening of our minus will create a demand which the closing of or mints destroyed, and that that demand or silver will raise the price of silver bul lion to \$1.29 anywhere in the world. (Ap-plause.) But you say it will be as hard to get a silver dollar as it is now under the gold standard. You overlook the first prin-ciple that must be understood in studying the money question. Gold has gone up be cause you destroyed its competitor. Restore its competitor and let silver be used on equal terms, and by increasing the volume of standard money, you lessen the strain on gold and reduce the purchasing power of an unce of gold throughout the world. (Great applause.) The silver dollar and the gold ollar will be worth the same whether in the form of coin or in the form of melted bul-lion, but it will be easier to get either when you have the chance to get both than it is now when you have to light for one. The presperity of your great cities depends upon the prosperity of the farmers and planters of this country. Down goes the value of otten when you drive up the value of gold Talk about one dollar that is good as any dollar in the world. You want cotton at least brought to be as good as it used to be before gold got out of reach. call themselves patriots while they bow t oreign dictation.
"Now, my friends, just a word more. ask you not to be dismayed at the force arrayed against us. If you think that you are called abusive names, just remember that in all the ages past those who have arrayed themselves against intense priviarrayed leges have been abused by those who, not being able to meet their arguments, have attempted to drive them from the field by cursing and swearing at them and an plying abusive epithets to them. (Applause) Not a man in this campaign who advocate free coinage has been more bitterly assailed than Jefferson was when he started out to organize the democratic party. (Applause). Not a man in this campaign has been more bitterly assailed than Jackson was when he was fighting the same kind of combinatio which we are fighting today. The battle of democracy today is the battle that democracy has ever fought. It is the cause of the cople, the cause of the great masses of the cople arrayed against those who seek spe cial privileges and who attempt to fasten their hold upon the government perpetually by contributing an enormous campaign fund with the hope of gaining back mor-after the election than they spent to securthe election. (Great appliause). Against a corruption fund unparalleled in the history of this country we simply oppose a people, defenseless, except for that defense which every citizen has when he is fighting in the cause of truth and justice; when a person relies most upon the justice of his cause h then stronger than he is ever at any other

"We have also to face intimidation. But my friends, we have always had to face intimidation. Those whom we fight today can, that the men who stand in the way of complete success will be branded as enemies. To those who believe in regularity, all times. But in this country we find my nomination appeals: to those democrats who are willing to trust the judgment of as they become more and more to realize the majority of the democratic party more the justice of free government and lib-freely expressed than in any democratic con- erty, the attempt to intimidate simply reacts, and men who were not aroused before nation appeals. INTERRUPTS COCKRAN AT ST. LOUIS.

Mob of a Hundred Silverites Assails the Speaker with Questions. ST. LOUIS, Oct. 5 .- An immense crowd of people assembled at the auditorium here tonight to listen to Hon. Bourke Cochran speak upon the money question. So frequently was he interrupted, however, by askers of questions, that the effect of his speech was almost spoiled. There appeared o be a prearranged plan upon the part of the questioners, and there were at least 100 of them. On several occasions portions of the crowd took exceptions to certain as sertions made by Mr. Cochran, and became quite boisterous. The disorder increased as he progressed, so that many people left the hall. The officials of the Gold Standard Democ<del>t</del>atic club, under whose auspices Mr. Cochran was brought here, are highly indignant over the outrage.

OMAHA, Oct. 2.—Editor of the World-Herald: On September 28 there appeared n your columns a communication ning thus: "The generals who failed to do the fighting are coming west on a special train of Pullman cars in the interest of Wall street, etc., etc., This communication was signed "A Veteran, Seventeenth Massachusetts Infantry" Now, if any such "vet eran" exists (which I doubt), and if he really comes from Massachusetts (which is highly improbable), all I can say is that he is a pretty poor specimen of a Massachusetts man and of a human being! He is either ignorant, or hopeful that others may be ignorant, of the long and tremendous war records of thege brilliant fighters. Party or no party, a man—let alone a soldier—who would cast such an unwarranted slur as that upon the brave German Sigel (please spell his name right this time!) or on General Howard, who left his arm on the field of Fair Oaks, or on General Sickles, who lost his leg at Gettysburg, or on Corporal Tan-ner, who sacrificed both legs to the cause of his country; not to speak of Omaha's own General Manderson, who bears about with him a rebel bullet to this day—a "veteran" of this sort, I say, ought to be drummed out of town, whether he be goldbug or lunat—silverite, I mean.

What a different spirit is shown in the letter to the World-Herald of September 30 by a genuine "old soldier," who, not being a sneak, signed his name—L. C. Floyd of West Virginia—and beginning with a warm and patriotic tribute to his old commander, General Franz Sigel. most forgive his political views for the sake of his manliness.)

LOCAL BREVITIES.

Willie Klossouski, a 16-year-old boy of Dixon, III., is being hunted by a "heart-broken" mother. The lad set out on August with a companion, Frank Rhodes lore the vast domain of this country and has not been heard from since. The police court and police station at-taches are complaining of the lack of steam

heat during the cold days which have prevailed so far this fall. The management of the building has refused to turn on the teat until the city pays the back rent for the quarters. A warrant, charging him with concealing rtolon property, has been filed against John Krejel, the father of one of the boys who was arrested last week for robbing Union

Pacific cars. A quantity of stolen goods were found in the Krejci residence near Fourth and Martha streets. David Burger, who was arrested in South Omaha several days ago for a burglary committed in Wooster, O., has signified his willingness to return to that point without requisition papers. He admits the crime, which was committed more than a year ago. I'wo of his partners are serving terms in

Gladness Comes With a better understanding of the

transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant effortsrightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, prompt-ly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its bene-ficial effects, to note when you purchase, that you have the genuine artiele, which is manufactured by the Cali-fornia Fig Syrap Co. only and sold by all reputable druggists. If in the enjoyment of good health,

and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

Oct. 5.—General Brooks and his officers have practically decided to pitched battle, which is expected today or make provision for defending the endanggered mines by placing cannon on Carbonare hill, which commands most of them. The next object of attack, if further attacks be made, is pretty well understood to be the great pumping plant of the Maid of Erin mine, which drains the Mahala, Emmet and Marian mines, which are now resuming work, as well as many others. The pumps belong to Smith & Menatt, and their expenses are borne by the three other mines named. If these pumps were crip-pled, the ruin of the mines by water would reduce the normal production of the camp

A woman's noblest work is helping a baby into life and health. She is committing a world. It is a crime because it is wholly world. It is a crime because it is wholly within her power to make the baby strong and healthy. She can do it by the proper preparation—by taking proper care of herself during the period of gestation. Many babies die early, or at birth, or are sickly all their lives because of their mothers' ignorance or neglect. Neither is excusable.

Every woman may be strong and well, and so insure the health of her baby. If and so insure the health of her baby. If she will take Dr. Pierce's Favorite Prescrip-tion during the period of gestation, she will find that she will have none of the discom-forts incident to this condition, and that parturition will be free from danger, and comparatively free from suffering. This medicine is the greatest remedy in the world for all the forms of weakness or disease peculiar to women. It is the only medicine of its kind prepared by a regu-larly graduated, experienced and skilled specialist in the treatment of diseases of women. It is the only medicine in the women. It is the only medicine in the world that will make the coming of bahy safe and easy. You can get it at the drug stores. If you want to know all about it, address Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Sur-

physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y.
