Pickpockets Very Crude.

When Buffalo Bill's show parade was in progress yesterday two crude pickpockets were working the crowds on Middle Broadway. One was a half-breed Indian and the other was a wild looking cowboy. In front of Leutzinger's bakery they relieved Mrs. Oscar Younkerman of her pocket book. Leutzinger and his wife and daughter saw the theft committed and immediately reported the fact at the police station. Officers Ward and Anderson were sent after the fellows. The Leutzingers pointed them out and both were landed in the station after a little trouble. The police made no progress on the case yesterday. It is becoming to be a prevailing opinion among the police that the murderer will be able to conceal his identity until the judgment day. The theory entertained by Chief of Police Canning is the one held by the other members of the force who have been detailed on the case. "I do not believe the murderer will ever be discovered," said he. "He has concealed everything connected with the crime ex-cept the bloody corpse. The more I think cept the bloody corpse. The more I think over it and investigate the more am I convinced that the murder was committed by a man whom the woman had driven to the point of desperation. She was a blackmailer, and she had perhaps found some victim who was unable to satisfy her demands for money and would rather commit murder than to have her ruin his reputation. Thousand People Delighted and Astonished by the Wild West. Over 10,000 people witnessed the great park yesterday afternoon and evening. The afternoon proved an ideal October day and great crowds came in from all the surrounding towns. Not a few came from onditions that the weather man had prorided. Buffalo Bill was, of course, the contral figure in the great panorama of horse-men and congress of rough riders. From overture to salute the performance was cheered and enjoyed by both young and old. Many recalled the performance of thirteen years ago, when Buffalo Bill started on his first tour, Omaha being his first stand and

The American Indian, the wild riding Cossack, the immovable cowboy fast to the back of the bucking broncho, the Mexicans, the Arab horsemen and the South American gauchos were all there and gave some exhibitions of rough riding that the beautiful

stretch of country about Union park has never before furnished a background for. The attack on the Deadwood mail coach by Indians was a realistic portrayal of the fast fading frontier aspect of the civilization of this country. From a purely historical standpoint the entire performance has a value that can hardly be overestimated. Buffalo Bill himself was loudly cheered then he rode into the field to give an exhibition of the marvelous skill that gave him the reputation of being a dead shot thirty years ago. Besides his ability at off-hand shooting, Johnnie stood on his head and broke glass balls, and then to show how easy it it, when you know how, laid flat on his back and broke a dozen balls without missing a shot.

That this will not be the only result I am as certain as that that will be one of them. Everything looks right for a big republican victory. I find that the people, especially the farmers, are interested in learning something about the tariff, and while I do not talk that altogether, still I have been talking to the farmers some, and I find that they listen very intently, although I'm a sort of a dry talker, you know."

Important Point In Loan and Building

Judge Smith has handed down a decision 'Wild West" show at the Union Driving in the case of the Central Building and Loan association against E. H. Smith that involves an important point on the premiums paid by the borrowing members. The loan in question was made May 28 for \$2,000 Omaha in order not to miss the excellent, and was to hear 5 per cent interest and a premlum of 6 per cent was also to be paid for the making of the loan. The interest was to be \$7.20 less each year. A mortgage on two lots in Wright's addition was given as security. Payments were made up to January 1, 1895, when they ceased, the de fendant selling the premises to James G.

Morrill.

The deferse contended that the rate of interest was usurious and that the 6 per cent premium was not charged in order for the borrower to obtain a precedence in making the loan. George Quincy, manager of the company, testified that the premium was charged to swell the interest and was a fixed rate in all cases. The loans of the company were made in order of application and no preference was given for the pre-

The plaintiffs contended that the usury law did not apply to this case, as it was a contract between mutual investors and the interest was to be shared by them when the stock of the company matured. The second claim advanced by the plaintiffs was that the premium amounted to a future, contingent and uncertain discount on the value

to be paid for the stock.

In deciding the case Judge Smith gave the plaintiff judgment for \$1,063.59 of the \$1,910 asked for and entered judgment in favor of the permanent school fund for \$463. In summing up the case Judge Smith states that the law at the time of the contract pro-vided that building and loan companies shall be authorized to levy, assess and collect from their members such sums of money by rates of stated dues, fines and nterest on loans advanced and premiums bid by the members for the right of precedence in taking loans as the corporations by their by-laws shall adopt. This the plainting had failed to do as regards the premiums according to the testimony of Mr. Quincy. the manager. In addition the court states that if the loan had been made since July 1. 1896, when the new law went into effect the agreement as to the premium to be paid would not have been usurious.

NEW YORK, Oct. 9.—Seated in General Osborne's office at the republican national headquarters today, Vice Presidential Candidate Hobart listened to the shouts and upor of enthusiasm attending the great re publican parade in Chicago today. A mammoth receiver, placed in the front of the Great Northern hotel in Chicago, caught the cheering and the music of the bands, and they were thence transmitted by means of a special wire to Major McKinley's home in Canton and to republican national head-quarters. As Mr. Hobart sat with his ear the receiver he said he could hear the tumult coming from the parade as plainly as if it were only a block away. Many others "listened to the parade" and Mr. Ho-bart seemed delighted at having his own name cheered 1,000 miles away.

UNKNOWN MAN PERISHES IN THE FLAMES

Adjoining Cities Respond to Appeals for Ald, but Pail to Render Much Help in Time to Avoid Disaster.

CORNING, Ia., Oct. 9.-(Special Telegram.)-Two of Corning's best business blocks were entirely wiped out by fire this morning. The fire originated in the H. J. Reynolds' elevator. The flames made quick work of this and spread to two box cars in the Burlington yards. When one of the cars was almost consumed, it was discovered that an unknown man had either perished in the flames, or had been murdered and placed there by tramps.

The city fire department was unable to extinguish the fire, as the boiler at the water works station was not in shape for work and was undergoing repairs. When the elevator was burned and the burning mass was well under control, most of the citizens repaired to their homes, but were mmediately called out again, as a strong wind had arisen and another conflagration started in A. M. Beymer's hardware store. This fire spread so rapidly that in less than two hours two of the best blocks were in ruins, and \$200,000 worth of property had

Deen swept away,
The loss fails heaviest of A. B. Turner, who loses \$54,000. The theory prevalent, as to the origin, is that tramps fired the elevator to give them an opportunity to pillage the residence properties. Several residences were entered.

Another is that it was started to cover the crime of murdering the unknown man. Everything here is in a terribly chaotic state. The militia is patrolling the town. The fire companies, with chemical engines, from Clarinda and Creston, arrived too late to save any of the buildings. However, they gave valuable aid in checking the further progress of the fire. Among the business houses and contents

destroyed were: Reynolds' grain elevator, loss \$20,000; Snavely's furniture store, total loss; Downing's restaurant; a meat market; a one-story double brick building occupied by Harris & Westrodge, hardware; Blotkey, a branch store of Blotkey of Creston; J.
