Wheat Reaches the Best Quotation of the Year.

DECEMBER TOUCHES SEVENTY CENTS

That Cerent Starts with a Jump of One and One-Fourth Cents Per Bushel at Chicago.

CHICAGO, Oct. 13 .- Wheat today sold at the best price of the year; December touching 70%c at one time. To the surprising strength shown by the Liverpool market was due most of the advance. Heavy realizing created a reaction later, but the De-cember option scored a 1'se advance; corn and oats both shared in the prosperity, and advanced Sic cach.

Provisions were the only commodities to decline, pork, lard and ribs showing reduc-

tions of from The to be.

Wheat started with a jump of about the per bu., much to the disgust of many of the bulls, who had sold their rong wheat yes terday. The sudden advance was principally because of the strength with which the Liverpool market started. Both wheat and because of the strength with which the Liverpool market started. Both wheat and corn in Loverpool opened at 1d advance upon yesterday's closing prices. This rise indicated independent reasons for higher prices which was partially explained by a cablegram, saying it was due to speculation. To the news of yesterday, to, was due part of the strength. With an acknowledged shrinkage in our own crop of nearly 60,900,000 hu. from last year, an admitted shrinkage in Russia of 57,000,000 bu, and over 20,000,000 hu. It am Argentine, with the news of disaster to the wheat crops of India and Australia, there is no longer room for reasonable doubt that America will be called upon for larger contributions than usual to the world's supply with the ability to respond less than usual. The range of prices at the opening was a wide one. December sold at from 70%c to 70%c. The closing price yesterday was from 39c to 50%c. The flures given marked almost the entire range of the forenoon's fluctuations, the only exception being a dip to 70%c, the culminating point of a gradual reaction which set in after the opening splurge, but that was fellowed by a second rise to 70%c, the culminating point of a gradual reaction which set in after the opening splurge, but that was fellowed by a second rise to 70%c, before 12 o'clock. The principal bearish factor was again the heaviness of the domestic receipts. Chicago got 347 cars and Minneapolis and Duluth together, 1,423 cars and mineapolis and buluth together, 1,423 cars and mineapolis In Loverpool opened at 1d advance

a considerable and sudden advance to hold. The advance in take freights allso helped to address the advance. The undercurrent, however, was bullish all day. May opened irregular and about %c higher at from 28%c to 28%c, advanced to 28%c and declined to 28%c, where it closed.

Outs opened firm, grew very strong and advanced considerably in prices. For a time the strength was held, but when wheat reacted outs did likewise, but only slightly and the market closed with but a portion of the advance lost. Demand was very good, shorts especially being active buyers. May opened about %c higher at from 20%c to 20%c, advanced to 21%c, and closed steady at 21c.

Provisious opened with a strong bullish

Bready at 21c.

Provisious opened with a strong bullish feeling, due to the stronger hog market and the firmness develope in grain and prices advanced rapidly, but enormous offerings by packers and ex-English houses caused a decided reaction and the close was at slightly lower prices. January pork closed 5c lower at \$3.10. January lard 5c lower at \$4.6745. January ribs, 2½c lower at \$4.0745.

Estimated receipts Wednesday: Wheat, 270 cars; corn, 865 cars; oats, 390 cars; hogs. 270 cars; corn, 865 cars; oats, 390 cars; hogs,

STOCKS AND BONDS. Speculation Sentiment Went Around

to the Bull Side Yesterday. NEW YORK, Oct. 12.—Speculative sentime ent around to the bull side today. The volum of business, however, was not particularly larg or the distribution of dealings improved. A. or the distribution of dealings improved. At tivity again centered in a few of the strongl cliqued shares, with Tobacco the star performs on manipulation against the shorts. News of the completion of the formightly settlement of the London Stock exchange without friction was

the London Stock exchange without friction was coupled previous to the local opening with can bled advices of higher prices for American securities. Reports of greater confidence as to the general business and financial outlook and of a further sharp advance in the prices of our cereal and other food products, together with a continued increasing export inquiry, exerted strong in fluence in shaping prices. Nevertheless, buying other than by professionals was the exception of the announcement was also made of a further engagement of about 1800,000 in gold for import to this country, although experts figured that the advance yesterday to 2% per cent in Londor discount rate precluded imports on a regular exchange basis at above 14.83% for actual demans sterling.

discount rate precluded imports on a regular exchange basis at above 14.82% for actual demand sterling.

The exchange market was slightly easier today, actual demand being offered in some instances at \$4.84 net. Bankers generally are disposed to put out time money for other than periods of nine months and beyond one year, while borrowers are more concerned regarding short time accommodations. There is some comment over the extremely light return flow of funds to this city that were forwarded earlier for crop moving purposes. Commercial paper of the very hest quality is in increased supply at 8 per cent, with a very light demand. Improvements in the forenoon share prices were very pronounced. Tobacco moved up 5% per cent to 75%. The rise was attributed to operations of belated short interests. Other advances in the industrials extended to 2% per cent in Chicago Gas, and in the less active group on to 1½ per cent. In the railways the gains ranged up to 1% in Rock Island. Profit-taking around 1 o'clock caused a setbuck, in which Sugar and Manhattan were the chief sufferers. The decline was of brief duration. Renewed strength developed generally in the final hour, the best figures of the day being recorded. The gains among the usually inactive shares were numerous, including St. Paul preferred, which sold at 121, and Rubber preferred at 63%, as compared with respective closing bids yesterday of 120 and 63. The closing was strong at the best figures and showing net gains of from 1 to 3 points. The hood market moved upward in sympathy with stocks, and in many instances the gains were material. The greatest advance and activity were in the Achison and Reading issues, which averaged a point. The sales were 685,000 shares. Governments were quiet but higher on purchases of \$5,600.

The Evening Post's London financial cablegram says: The stock market opened duil today and then railied generally, and considerably on lighter contanges and an easier arrangement of the effect in this settlement than had been looked for. The i

exports, indicating a strong probability of a rise in the bank rate.

The general belief here is that large amounts of gold will return from America after the election. Americans were good from start to finish. There was a substantial recovery in other markets. Brazil being the principal feature. The Paris bourse was much better on the rise in London. The future of the bourse there mainly depends on Spanish finance. It is hoped there that no further Russian loan may be issued just yet. The Berlin market was steadier.
