TARIFF AS AN ISSUE.

Those who refuse to regard the tariff as an issue in the pending campaign, on the ground that the general average in the reduction of duties under the present law from those of the McKinley act is only about 8 or 9 per cent, take a very narrow and inadequate view of the matter.

A fair comparison of the two laws can be made only by reference to the changes from the dutiable to the free list and by the difference in duties on certain schedules which under the operation of the present law has proved damaging to American industries and labor.

The most serious complaint against the present tariff is that it placed wool on the free list and reduced the duties on woolen goods to the extent of the compensatory duties to cover the duty on wool. The effect of this has been very severe on the sheep and wool-growing industry, which under protection had become one of great value.

It is no apology for the present tariff, therefore, to say that its general average of duties is not greatly below that of the last republican tariff. It is to be judged by the injustice and injury it has done to some of our most important industries and the losses to both capital and labor under its operation.

THE POPULIST MANIFESTO.

The manifesto issued by the executive committee of the populist party is an adroit appeal for harmony, but it may be doubted whether it will have the desired effect of persuading the middle-of-the-road populists that it is their duty to sacrifice everything in the interest of the Chicago nominee for president.

AS TO FATHER NUGENT.

Populic organs are now engaged in the effort to discredit the wise and patriotic words of Archbishop Ireland which caution the people of the United States against the danger of turning the government over to a party bent upon its destruction.

WHERE THEY AGREE.

There are some points about which the free silver advocates are not in agreement. For instance, there is diversity of opinion among them as to what would be the effect of free coinage upon the value of silver.

FROM JEFFERSON TO BRYAN.

Twenty years ago everybody in the United States was for silver. Nobody was against it. Not to be a bimetallic man was to be a Christian, and I suspect that most bimetallic men knew quite as little about Christianity as they do now.

THE CHANGING PROCESS.

Wonders wrought by invention in all industries. If labor has been crucified in recent years, it is labor that has done it.

It was only May of last spring that Mr. Bryan printed in his paper this beautiful editorial commitment to Hoke Smith: "One by one the roses fall. Secretary Herbert was repudiated in Alabama, Secretary Morton was repudiated in Nebraska and now Postmaster General Wilson has been turned down in his own congressional district."

FUSION CONFUSION.

While the populic managers are taking so much credit to themselves for having effected fusion on the electoral tickets in a majority of the western and southern states, the populist must encounter serious difficulty in ascertaining just where his party is to derive any benefit.

The endorsement by the Commercial club of the proposed amendment to the constitution regulating public aid to schemes for internal improvement will do much toward awakening the interest of voters in this important question.

DEPARTMENT CLAIMS.

What pure bluffing the reputation boast of carrying the great states of the west are indicated by the impudent claim that they are to carry this state of New York.

SPAIN'S HOPELESS TASK.

To put down a handful of exposed islanders Spain has sent out three times as many troops as England did in 1857 to suppress her Indian mutiny and restore the loyalty of the island subjects.

GEORGIA'S "QUIET" ELECTION.

The recent election in Georgia, in which four men were murdered and a fifth was lynched, and which was spoken of by the newspapers of that state as having "passed off quietly," reminds one of the dispatch which appeared in a St. Louis newspaper in reconstruction days concerning a "killing" in Mississippi.

"SHIP IF MCKINLEY IS ELECTED."

A letter just received from a traveler for one of the great manufacturing concerns of this city encloses three large orders written under each of them: "Do not ship until you have the order of the McKinley ship at once; if Bryan is elected wait for further instructions."

SHOULD SILVER TRAVEL.

The farmer knows that wheat has depreciated since 1873, and the mine owner tells him that it is because silver has depreciated. Because many western farmers have accepted this fallacy as the truth silverites claim that they understand the currency question better than sound money men.

INDIA GOLD BECOMES THE GOVERNMENT'S.

Into gold and because the government has its gold reserves as the ultimate redemption fund of the greenback. Alas! he has and destroy the government's credit and ability to keep its silver and paper at par with gold and the silver basis will be upon us.

Somebody from up in Britte writes to the World-Herald to the effect that he saw a statement in that paper of September 2 that there are 30,000 Bohemian voters in Nebraska and that four-fifths of them will vote for Bryan.

THE ENDORSEMENT BY THE COMMERCIAL CLUB.

The endorsement by the Commercial club of the proposed amendment to the constitution regulating public aid to schemes for internal improvement will do much toward awakening the interest of voters in this important question.

ARCHBISHOP IRELAND'S LETTER.

Archbishop Ireland will still stand honest and patriotic in his opinion when serving the country as a chaplain in the union army. Chicago Journal (rep): Archbishop Ireland did not "blunder from the pulpit."

CHICAGO PLATFORM.

Chicago Post (rep): Speaking as an American citizen and moral guide rather than an ecclesiastical authority, Archbishop Ireland issued a note of warning against the political and social menace embodied in the reckless propaganda of the silver platform.

DETROIT FREE PRESS (DEM.).

The popular press of St. Paul commands the admiration and confidence of the people of the northwest to such a degree that no suspicion of self-interest or unworthy promptness can be attached to its utterances.

DETROIT FREE PRESS (DEM.).

A statement from such a highly respected source and submitted under such circumstances is bound to have the attention and exert a positive influence for the integrity of the nation, for social order, for the prosperity of the people, for the honor of America and the permanency of free institutions.

KANSAS CITY STAR (DEM.).

Archbishop Ireland's address on the political situation is one of the clearest and strongest statements made during the campaign, and it can hardly fail to carry great weight with the thousands of people in this country who look upon the archbishop as one of the big-brained patriots of the age.

CHICAGO TIMES-HERALD (REP.).

The pronouncement of Archbishop Ireland of St. Paul comes in the nature of a ringing answer to the question of the right of the church to challenge the right of the church to take sides on a question of national honor.
