Posts for the electric light towers owned by the city were received yesterday and distributed. The city council made a de-termined effort to force the electric lightcompany to defray the cost of puttin these new guy wire posts to prevent th lowers falling down, but the company stead fastly refused to do so on the ground that the towers belonged to the city and the mere fact that the company used them did of earry with it the obligation to keep them in repair. The matter has been in pute since last spring, when the Eighth street tower fell, and as the three towers nwned by the city were likely to share the same fate the council ordered the repairs to be made and will endeavor to compel the lighting company to pay the bill.

BELIEVED TO BE WORK OF ANARCHISTS

Brother of the Dead Man Has a Theory Based on an Experience with a "Seedy-Looking Individual."

NEW YORK, Oct. 21.-Mamlin J. Andrus, secretary of the Arlington Chemical works, located in Palisade avenue, Yonkers, was instantly killed this morning by a dynamite bomb which the police think was placed there for the purpose of destroying life and property. There is a deep air of mystery about the entire affair, and one particularly sensational rumor is affoat.

The body of the victim was frightfully mangled by the explosion, and death must have come instantly. Hamlin Andrus was a man of wealth, and lived in Yonkers in ing, and they went to the factory together. As was his custom, the young man opened the safe and got out the books, after which young Andrus went from the office into the factory. The office is a one-story structure, and stands detached from the factory The room used by Andrus in the office building, was separated by a thin board partition from the part occupied by the clerks of the concern, it was a few minutes after 8 o'clock, when the explosion occurred. It shook the factory building and was accompanied by the sound of crashing glass, and a volume of smoke. A wild rush was made by the factory employes to office. They were headed by young drus. He found the floor of that portion Andrus. occupied by his father covered with glass mortar and broken furniture. In one corner of the room he saw the mangled body of his father, partially covered with debris. It was in a terribly mangled condition. Embedded in the flesh of the dead man found several pieces of cast iron. Other pieces corresponding to these, were found in the room. They were carefully placed in the room. together, and, although all the pieces were not found, there was enough of them to show that the bomb or machine was a piec of cast iron pipe, about six inches in length by one and one-half in diameter. tened to either end of this piece of pipe was a cap, which was screwed on. and smoke indicated that the explosive was either dynamite or giant powder.

Information of a startling character was received by the police which may aid in the solution of the mystery. It was to the strations. Wreek of the First National at Cedar Falls to Be Revived. CEDAR KAPIDS, Ia., Oct. 21.—(Special.)— The failure of the big bank of Fields brothers at Cedar Falls over two years ago, by

which so many people lost everything they had, is to be brought into prominence again, for in December Charles J. Fields, indicted by the Blackhawk county grand jury, will have his trial in the district court at Water loo on a charge of fraudulent banking. There were several indictments against

William Fields and his brother, C. J. Fields the present defendant, which grew out of the failure of their bank, the First Nationa at Cedar Falls. The cases were taken into Buchanan county on a change of venue William Fields was tried last May, con-victed and sentenced to one year in the penitentiary. No part of the sentence has been served, the defendant being out on ball pending an appeal to the supreme court. The case against C. J. Fields is exactly simi lar in all respects to the one which resulted in the conviction of his brother. The charge of obtaining money under fals:

pretenses, preferred by Rev. John Bowman of Cedar Falls, and on which an indictmen had been returned, has been dismissed a the request of the prosecuting witness. Rev Mr. Bowman lost several thousand dollars by the failure of the bank, most of which was loaned to members of the firm on their personal note. But there was an amount of \$500 secured just before the failure of the bank, and it was on this proceeding that the action was commenced.
