Charter revision is one of the issues of the present campaign. The charter amendments of two years ago were so doctored and mutilated in the legislature that the governor had no other course than to veto them. Bryanite Organ Wants to Boom the The Macor (Gr.) Telegraph, a newspaper supporting Frail points to the decline in the price of circ, recalls the assertion of Bryan that frail coinage would double the price of the motal and then remarks:

"The Telegraph finds in these facts more cause for fearing that Mr. Bryan will not be elected than in almost anything else in the political situation. It is perfectly apparent that the world does not agree with Mr. Bryan as to the effect of free coinage or else it is perfectly confident that he will not be elected."

Those who agree with Mr. Bryan and expect that he will be elected, the Telegraph goes on to say, "must be under a very strong temptation to buy sliver, yethey all keep carefully out of the bullion market." It suggests that it "would be good policy" for "the wealthy men" who are supporting Mr. Bryan to "go extendvely into the silver market." raise the hat they "are cutirely earnest in their professions."
