A first rate way of avoiding any possible disturbance in Omaha on the night of November 2 is to refrain from inciting it.

Vote for the republican nominees and avoid all possibility of getting confused by the multiplicity of party designations on the official ballot.

One of the arts of the demagogue is to deny his demagoguery. Bryan is an adept in all the arts of the demagogue, this one not excepted.

Next Monday the people of Nebraska will enjoy the dignified spectacle of a presidential candidate overruling twenty-five counties in one day.

After the emigrant rate war is settled a few more times the different railroads may discover that there is not emigrant business enough to justify fighting for it.

The weakest spot in Governor Holcomb's armor is his failure to recognize the claims of workmen in general and Omaha's workmen in particular.

THE OFFICIAL BALLOT. The special attention of every voter in Nebraska is called to the way in which the official ballot is made up.

THE SAME ADVICE GOOD WITH REGARD TO THE STATE AND LEGISLATIVE TICKET. The same advice holds good with regard to the state and legislative ticket.

IN THE PRESENT CAMPAIGN E. R. DUFFIE is enulating the example of William Jennings Bryan. When Bryan was a candidate for congress he was a temperance man with prohibitionists and a personal liberty man with the liquor dealers.

THEY HAVE TORNADOES IN OKLAHOMA notwithstanding the fact that Oklahoma has no vote in the electoral college.

cent? How can a workman whose present earnings are no more than sufficient to provide a respectable subsistence for those dependent on him vote to try a reckless experiment whose advocates say will raise the price of everything he has to buy, but which they give no assurance will raise the price of labor— an experiment which it is universally admitted will cause a violent financial and business disturbance from which labor would inevitably suffer? These are practical questions which every workman who contemplates voting for free silver and consequent currency debasement should seriously consider.

CADET TAYLOR'S CANDIDACY. If there is any one thing that has constituted Cadet Taylor's stock in trade, it is his boast that he has always been a straight republican. As a matter of fact, Cadet Taylor has always been a republican crook who has been a republican for revenue only.

THE AVERAGE WAGE WORKER has no interest in scaling debts. He is generally a creditor to the savings bank and to his employer for more than he owes.

THE ONLY PERSONS DIRECTLY INTERESTED IN doubling the price of silver are the silver mine stock speculators and the holders of silver. Doubling the price of silver would double their profits, but they would be doubled at the expense of the wage earning classes.

THE ALMOST UNIVERSAL DISPLAY in the windows of residences of the portraits of McKinley and Hobart and of the flag emblem showing the faces of those candidates is an inspiring indication of the healthy sentiment of the people.

IN FORMULATING YOUR POLITICAL preferences, do not overlook the Board of Education. The efficient and economical administration of Omaha's school system is a matter of vital interest to every citizen and taxpayer.

DAVE MERCER'S ELECTION to the next congress insures the appropriation of half a million for the Transmississippi Exposition. Mercer's defeat would be a deathblow to the enterprise.

THE COERCION OF COMMON SENSE. The coercion that will make workmen vote for McKinley and sound money is the coercion of common sense and self-interest.

A TEMPLESS CREED. Chicago Times-Herald. The campaign is against truth and honesty. He cannot deal in facts and stick to his creed. His hopes of success are based on so falsifying the truths of history that

the people will be hoodwinked. But he is rapidly approaching the annihilation such a crusade deserves.

GOES WELL WITH THE FLAG. Globe-Democrat. McKinley's portrait goes well with the flag because he stepped under its folds as a boyish private soldier, and on Tuesday next will be elected commander-in-chief of the army and navy of the United States.

ANNOUNCING NEBRASKA FIGURES. Chicago Chronicle. It will be seen from Mr. Campaign's figures that the estimated Bryan majority in Nebraska has fallen from 20,000, claimed a month ago, to 17,800. We can see where they got the 200, but the 17,800 puzzles us.

SOUND MONEY AND PROSPERITY. Philadelphia Ledger. Indications all point to a rapid increase in manufacturing and other industrial operations to follow McKinley's election.

NOT A RIOT, BUT A REVOLUTION. Indianapolis News (ind. dem.). Mr. George W. Williams began his speech Saturday night with these words: "To your tumultuous welcome I might well respond in the words of the southern statesman, 'Sire, this is not a riot, but a revolution.'"

THE REAL WORKINGMAN. Atchison Globe. During every campaign the "workingman" is spoken of as though he had horns. Every man who amounts to anything in the world is a workingman.

THE ENEMY'S COUNTRY. New York Sun. When Bryan left Nebraska in August for his ridiculous expedition to the Madison Square Garden, he was coming to the enemy's country.

MACAULEY'S FORESIGHT. Picture of the Present Campaign Drawn Forty Years Ago. Here is a striking passage from the essay of Macauley, written on the future of the American commonwealth and published in 1856.

IGNORES OBVIOUS FACTS. Chicago Tribune. Silver is a degrading, inorganic substance. Bryan talks of it as if it were a sentient being that could feel pain and pleasure, and had hopes and fears.

Highest of all in Leavening Strength—Latest U. S. Gov't Report. Royal Baking Powder. ABSOLUTELY PURE.

DEFINING A DEMAGOGUE. Chicago Chronicle. "If there is one thing which I am not at all a demagogue," says Bryan. Nobody would have suspected that if he hadn't said so himself.

OTHER LANDS THAN OURS. The overbearing and often brutal conduct of the officers of the German army toward irregularly clothed, unarmed, and unarmed subjects of much indigenous origin, it has gone so far that a lieutenant has killed a man in a restaurant at Carlsruhe for a very trifling act, and the newspapers throughout the empire have taken the matter up, with the result that many tyrannical and criminal proceedings have been brought to light, and the higher officers have been compelled to issue orders to curb their subordinates.

PERSONAL AND OTHERWISE. This year the foot ball season will serve as a convenient safety valve for the political excitement.

GENERAL WEYLER'S TROOPS are still doing business at the old stand—and in the old way. It is as far as ever from paying dividends.

EX-GOVERNOR NORTON OF GEORGIA is making an energetic and successful effort to bring immigrants to that state. He has established some fifty agencies in Illinois, Michigan, Indiana and Wisconsin.

HENRY THIBBE, a wealthy citizen of Washington, Mo., who died recently at the age of 87 years, was born in Enscheloh, Holland, and emigrated to this country in 1857. He was the inventor and patentee of the so-called "Missouri" mosechawm, a pipe which he began the manufacture of in 1878 with scarcely any capital, intending first to supply the local demand only, but which he now manufactures not less than 25,000 pipes a day.

AN EXAMPLE OF CANDOR. Opposition of Labor Leaders to Financial Quackery. The officers of the Brotherhood of Locomotive Engineers and the Brotherhood of Locomotive Firemen set an example of candor and political honesty in stating now that, no matter what their opinion on the money question may have been three years ago, when they are said to have signed a free silver memorial, they have learned enough since to believe that the free coinage of silver at the ratio of 16 to 1 to gold is "directly against the interest of labor" and would subject the country to the most frightful panics that any country in this world has ever seen.
