The great bankers and their messengers were in the same rank. It was truly a business men's parade. It moved with that precision which is the great law of businesse. It was forwed with-out confusion. It moved on time and without interruption. It disbanded without dis-order. The procession moved forward at times at the rate of 20,000 men an hour.

The head of the procession passed the reviewing stand, on which were Vice Presidential Candidate Garret A. Hobart and Governor Morton, at 10:55. It was exactly seven hours and thirty minutes in possing that point. In point of numbers the Wholesale Dry Goods Republican club was far in the lead, having 21,000 men in line. The Central Dry Goods McKinley and Hebart association had \$,000, and the Paper and Associated trades 7,000 more. The col-leges were represented by some 2,000 stu-dents, while fully as many as thirty-five forty industries were each represented

Practically no business was done in the mercantile cetablishments, the interest in the mammoil demonstration obliging those who are not in sympathy with the republican cause to suspend operations for the day. The parade was to have begun at 9:30 a. m., but owing to the great number comprising it there was considerable delay in getting under way. Hours and hours before was any chance of the advance guard of the great parade appearing the sidewalks en either side of the streets named in the march were scarcely passable

At the points where the reviewing stands had been erected, people congregated in ever widening circles. Street cars were stopped early, and drivers of wagons found that they had to make tengthy detours to reach their destinations. But it was down town along Broadway and the streets that stretch east and west from it, that the press was greatest. It was in this section where realization came of how gigantic the gather-

Just before the start the confusion was supreme. Thousands in the buildings wondered how the paraders and spectators could ever be separated. The multitude that jammed Broadway from wall to wall was like a sea which moved from side to side, swept down obstacles and obliterated the familiar sight of show windows. Whenever mounted officer of the parade attempted to force his horse through those who looked on, animal and man were swallowed up as of humanity. And above all the motion here arose the thunder of voices and the blare of musical instruments, that made the scene more bewildering, more wenderful. more real than the city has seen in many a

SOME OF THE DECORATIONS. Along the route of the big parade, from the Battery to Fortieth street there was a lavish display of flags and bunting. The spectacle presented on Broadway and Fifth avenue exceeded anything of the kind ever witnessed in this city. Myriads of American flags of all sizes and thousands of yards of bunting tastefully arrayed fluttered in the breeze from the roofs, windows and doorways of the buildings on the line of march. At short intervals, huge flags bearing the names of McKinley and Hobart, and in some instances, appropriate campaign flags stretched across the street. Each of these big flags represented an organization of business men and some of the legends were

Broadway was a vista of flags. The draperies on the big office buildings, in the lower part of Broadway, were in many instances very elaborate and expensive, some l of the decorations costing as much as \$1,000. At least one church on the line of march was decorated. This was the Marble Collegiate church, at the corner of Fifth avenue and Twenty-ninth street, over the main entrance of which were draped two silk flags. Speaking of the profusion of flags, a dealer

In every large city in the United States the stars and stripes were displayed by the side of Mc-Kinley and Hobert lithographs as an indi-cation that the patriotic sentiment of the armers caught up the sentiment, and along the country roads the insignia of the republicanism of 1896 was conspicuous in the windows of the farm houses. was originated by Chairman Mark Hanna the republican national committee and was promulgated October 17 in the following

of its honor at home and abroad. "I therefore suggest that Saturday, October 31, all who intend to vote November 3 for the preservation of our national honor, for sound money and the advancement of the people's interests and general prosper-ity, display the national colors at their homes, their places of business, and wherver they may be seen, in order that the oters whose hearts are for their country may be strengthened in their purpose, an those who are undetermined may the more patriotically and intelligently conclude how pest to perform their duty as citizens."

The judgment of Mr. Hanna was immediately endorsed by the chairman of the popocratic national committee, who issued a similar proclamation to his followers. The result is now everywhere apparent. As the sentlment of the voters is expressed in the windows of Omaha, it is for McKinley by three times 16 to 1. MUSIC.

Music has many uses. The earliest legends tell us of its important place in the service of religion and worship. The gods themselves are credited with skill as players upon instruments and even the forces of when it is said: "The morning stars sang together." In the present uphenval of public feeling known as "the campaign" music has had a place and has been used as an argument in favor of each candidate. Not many days ago Mr. Jules Lumbard was in Chicago and sang "The Battle Cry of Freedom" be fore an audience of 29,000 enthusiastic citi zens of our great country. In 1861 Mr. Lum bard edited a musical journal for the firm of Root & Cady in Chicago. At was at this time that the song was written by the late George F. Root, and Mr. Lumbard was the first one to sing it. He has been so good as to furnish The Bee with its history. Mr Root was lying on a lounge at his brother house when he heard of President Lincoln second call for troops and he says that the words and music of the song flashed across we'll rally 'round the flag, boys, we'll

rally once again. nouting the battle cry of freedom!" It was hardly dry upon the paper when iles tried it over and that evening he and his brother Frank sang it at a meeting called in the court house square for the enlistment of soldiers. The crowd took up the refrain and felt its magic power. It went into the army and was sung by thousends of boys in blue as they marched to death. The Lumbards sang thousands of soldlers into the army and Jules has been at it ever since, working for his country's honor, now, as ever, without pay or price, official recognition or hope of reward

The campaign song achieved its most important place in politics in 1840, when Harrison and Tyler ran against Van Buren and two nominees for vice president. Van Buren was defeated. A few days will tell wheths or not two talls are at the present time as advantage to a kits. The whig embles represented Harrison standing before a log cabin, a gourd of eider in his hand-a bor-

Mr. Lumbard furnished the writer with the following: "Oh, what has caused this great commo-

It is the ball a rolling on
For Tippecanoe and Tyler, too,
With them we'll beat little Van, Van, Van, He's a used up man."

Music is something which cannot learned while somebody else does the work.

If the teacher does it the pupil never becomes independent of his or her aid. To be a musician one must know the routing so well that it is automatic. Music is the toul in action. It appeals to other souts but not as a problem of mathematics. It cannot be figured out and the final result et down as a positive and unalterable con clusion. It implies a relationship between beings who can feel, and a part of a musical education is the development of one's ability to feel, and also to apprenend and appre clate the feelings of others. The music student should study people. He should try to read in their actions and the inflections of their words what is really going on in their hearts He should try to place him-self where he can feel as they feel, and realize as they realize. Suffering is the greatest of music teachers. A study of the lines of the great composers and great artisis always reveals the sad melodies played upon bleeding heart strings. What agony must Mme. Ordinary lives are lined upon the surface of the great world of experience. The sun shines with only a part of its brightness, and the clouds cast but faint shadows But there is a plane of existence where the glories of noonday are dazzling, and the

darkness of night may be felt. It is in that plane that the great in music live. Temperament, however, cannot do it all. Rich gifts are valuless if unused. The greatost artists are those who do the most work, and do it most carefully and persis tently. Anyone who thinks that he can learn music by taking a few lessons certainly should take a few just to discover how mistaken he is. Music is an art that has been eveloping for hundreds of years. It is the legacy of nations that have passed from the here. It is the accumulation of the joys and sorrows of humanity, and its greatness can-not be encompassed. It is worth while to ran Ohlo, they converted the prairies of study it. It is worth while to suffer for it; Illinois into measureless gardens that fed to breathe it as an atmosphere, life giving the world, and their sons and daughters to- | in its potency and fragrant with the loves of all the ages.

The Lillian Russell Opera company, which resented "An American Beauty" at the Creighton theater last week afforded the most satisfactory entertainments of the season. The word opera has come to mean anything dramatic if it includes a few musical numbers, and frequently the most shameless degradation of the art stalks at large, before the footlights and defames a name concede t which ought to be held in honor by every music-lover. The music of "An American Beauty" is melodious and fairly original in It is stronger rythmically than its style. most light operas of modern make, and rythm is a wonderful power, as any one will discover who tries to walk out of time with band playing a march near by stage pictures were beautiful and interest-

hat his party has the state absolutely certain for Bryan by at least 25,000; that the state ticket headed by Mr. Lind for governor will all be elected, Lind's majority slightly sceeding the others, and that he feels absolutely certain of electing four congress en, and that there is strong probability

On the other hand, the republican leaders while expressing the most complete con-idence in the result as being favorable to them, will give no new figures, saying they are willing to stand by those they have heretofore given. They say they expect to carry the state for McKinley and elect the state ticket and will not admit that they an lose any of the seven congressmen, bey have heretofore claimed a majority int less than 20,000 for McKinley.

REPUBLICANS SURE OF CALIFORNIA. SAN FRANCISCO, Oct. 31.—The campaign losed in California tonight with a repub-can parade that surpasses anything in the istory of the Pacific coast. For four hours rancisco. The 15,000 men who marched all showed their allegiance to McKinley and republican principles were cheered by 00,000 people who lined the streets. Every ody wore yellow chrysanthemums, and eemed as if every garden in California had een devastated to furnish badges symboli-al of the gold standard. During the great parade Bryan men walked the streets offerng to wager any amount that Bryan would carry California.

The republicans are confident that they will carry the state by at least 10,000, while the democrats are equally certain that Bryan will have a majority of the votes cast. In most of the towns of the state both temocrats and republicans held meetings onight, with eminent speakers of both paries to give advice as to how to vote next Tuesday. The democrats held their closing lemonstration last night with a street parade and a meeting, at which men of local rominence spoke. Tonight Thomas B. Reed ddressed a crowd of people at Woodward's pavilion. Only 5,000 or 6,000 people could gain admittance to the building, which was urrounded by thousands of disapopinted itizens, who could not get within a quarter

of a mile of the hall. EXCITING CAMPAIGN IN KANSAS. TOPEKA, Kan., Oct. 31.-Today practically oses the most exciting campaign Kansas as ever experienced. For the first time in national election the state has been con dered a doubtful one, and both great potical parties have sent floods of literature nd many national speakers to capture the lectoral vote. There are six electoral tickets in the field, but it is safe to say that outside of the Bryan and McKinley tickets the others will scarcely poll 1,000 votes. The total vote of the state will probably be nearly 325,000, and out of this the repub ican leaders claim a plurality of 10,000 o 12,000, and the fusion silver leaders a plurality all the way from 15,000 to 30,000 tepublicans claim their state ticket will run shead of their electoral, and the fusionists claim the fusion state cloket will fall behind its electoral ticket. Chairman J. Mack Love of the sliver democracy claims the state for Bryan by 29,000 and says the silver people will elect several congressman and control the state legislature. Chairman J. M. Simpson of the republican committee claims the state rafe for McKinley, for the entire republican state ticket and all of the right repub-lican congressmen. Chairman Breidenthal of the people's party says Bryan elector will have a plurality of not less than 25,000, the state ticket 20,000 and both houses of the legislature will be fusion. Fusion in Kansas is between the people's party and democrats on a silver basis. PORTLAND'S SOUND MONEY PARADE PORTLAND, Ore., Oct. 31 .- The cam

paign in Oregon closed tonight with a mon-ster demonstration by the republicans of this city, the democrats having closed their campaign on Wednesday night. The torchpated in by business men, professional men, railroad men, mechanics, tradesmen and laborers, was probably the most notable political demonstration ever witnessed in Oregon. Notwithstanding a heavy rainfall ill day, it is estimated that 12,000 men were n line 'Flag day' was generally observed McKinley supporters, and pictures of the republican nominees were displayed in business houses and residences. In searly every town throughout the state demonstrations were held by one party or the other. MISSOURI LOOKS DEMOCRATIC.

ST. LOUIS, Oct. 31.-The campaign in Missouri closed today with railies in al-most every town and city throughout the state. It is generally conceded that the state outside of St. Louis and Kansas City will be carried by the free silver demo-crata. The republicans have laid slege to St. Louis and are hoping to carry it by a sufficient majority to overcome the state The democratic leaders do not the republicans, though the latter have set claims at 20,000 plurality. other hand, the democrats claim they will me to St. Louis' limits with 20,000 to 40,000

> BOIES SAYS BRYAN IS BEATEN. Iowa Advocate of Free Silver Sees No Further Hope.

WATERLOO, Ia., Oct. 31 .- (Special Telegram.)-It is stated on good authority that Governor Boies stated at the family supper table last night on his return from a campaign tour that Bryan's cause is hopeless, and that he believes that McKinley will be dected by the most overwhelming majority that any president ever received. This admission from so prominent a man politically as Boles is taken by republicans as the most significant concession yet made.

Governor of Georgia Inaugurated. Atkinson was today inaugurated the second time as governor of Georgia amid ceremonies the most imposing seen in the state in a generation. Chopin's famous study in double thirds, which is sometimes played by a few of the really great pianists in public, has been arranged for the left hand by Godowsky, and as might be expected his performances of it in public have everywhere aroused the wildest enthusiasm.

Being very anxious to hear this won lerful
