Wheat Advances Over Two Cents on a Narrow Margin.

TRADING NOT HEAVY, BUT BUYERS ACTIVE

Corn Rules Strong on Very Limited Business, Decided Strength in Wheat, Firm Cables and Indications of Smaller Receipts.

CHICAGO, Nov. 2.-Wheat advanced 25 c on a narrow market today. Much of the strength was due to the advance at Liv-Other markets were neglected. corn advanced the and oats about the same Provisions closed with but little change. Wheat proved more interesting than had n expected of it the day before elecorders to buy were in the majority, and Bellers could only be found when prices from the foreign situation. Liverpool opened field higher for futures and reported a decrease in stocks of wheat which were already small, of 15,000 bu. The figures world's shipments were conflicting, but all of them were large, and this was a diseting influence, but only temporarily so. The quantity on ocean passage was 540.00 sarket. December, which at the close storday, was bringing from 72% to 72%; Saturday, was bringing from 72% to 72%c. Opened this morning with buyers at from 72%c to 72%c. A reaction to 73%c followed, but from that point it turned upward again and with steady persistency, but without much activity in the trading It rose to 74%c before 12 o'clock and later, after a reaction to 74%c it rose to 74%c. The northwest receipts of wheat were 14%c cars, 6-400 less than a week up o, and 300 less than a year ago, which was a partial confirmation of the predictions so freely made last week that the deliveries in that quarter were to fall off sharply. Closing cables showed an advince of 2%d at Liverpool and the closing price of December which had in the meantime fallen to 74%c, advanced again to 74%c. During the last fifteen minutes an extra spanin of bull-ishness carried the price up to 76. The Closing was firm at from 74% to 75c.

Corn ruled strong on very limited busiclosing was firm at from 74% to 5ac.

Corn ruled strong on very limited business. It was affected a good deal by the decided strength in wheat, by the firm cables and by the indications of smaller local receipts. May started a shade higher at 28% and advanced to 20%, selling at from 20% to 22% at the close.

Cats were very quiet, but a firm feeling existed and prices ruled higher, sympathy with wheat and corn largely ruled fluctuations. May opened & higher at 21% c, sold to 22% and closed steady at from 22c to 22%.

22%c.
In provisions almost nothing was done. The small run of boxs had but little influence in view of the proximity of election. Live stock prices were higher and this, with the strength of grain maintained the opening advance. January pork closed 5c higher at \$8.02%; January tard unchanged at \$4.70. January ribs 2½c higher \$4.80.795. Imated receipts Tuesday: Wheat, 165; corn, 711 cars; cats, 494 cars; hogs. The leading futures ranged as follows: Articles, | Open. | High. | Low. | Close. New York Wheat Market.

New York Wheat Market.

NEW YORK, Nov. 2.—From start to finish today the wheat market gave a surprising exhibition of strength considering the fact that tomorrow is a heliday, opening the higher at 204c.
December kept on rising. It reached \$15c, where
it closed. Speculation was most active in the
last half hour, and the total sales for the day
only reached \$1,5c,000 hu. It was a case of bull
senttiment, reinforced by strong foreign news and
European buying, especially on the Pacific coast,
where further export orders were reported. Liverpool stocks showed a falling off for the month
the world's shipments were estimated nearly
1,000,000 but less than last week, and there was
a reduction of 60,000 hu, on passage. The Amazican visible supply increased only half as much
as expected. Curn and oats were quieter than
wheat, but shared its strong undertone.

DIPHTHERIA SCARE IN THE DEPOT.

Two Children Stricken While Traveling with Their Parents. CHICAGO, Nov. 2 .- Visitors at the Union depot yesterday were given a diphtheria scare. Shortly after 1 o'clock the health department officials were notified that two children suffering from the disease were in the ladles' waiting room of the depot. Dra. Murdoch and Engleman of the health department went to the scene and found two children of Rev. John Rutter lying on the benches in the waiting room. The Limity arrived at noon from California. When the family left the west there were Mr. Rutter and wife and three children in the party. Before reaching Denver one of the children was stricken with the disease and died before the train left the city. Shortly afterward the other two children were taken down with the disease. The family was on its way to Philadelphia. When the family reached the Union depot yesterday the father was thoroughly alarmed at the condition of his children and called Dr. Sum-The physician saw at a glance that the cases were diphtheria and promptly notified the health department. Later Later the patients were removed to the diphtheria ward of the county hospital and the rooms at the depot thoroughly fumigated to prevent a spread of the contagion. Mrs. Rut-ter is at the hospital nursing the patients. The condition of the children is reported to be critical. Antitoxine was administered and the attending physicians have hopes of saving the lives of the children.
