They Improved Their Opportunities Honday Night.

Monday night offered a fertile opportunity to crooks, as practically the entire police in connection with the big demonstration. the thieves was confined to the business section of the city, not a case being re-ported from the residence portion. Por From this it is judged that the pleasa crooks were unacquainted with the city. Moreover, they seemed to want nothing but money, as in all the places that were entered little property was carried away. The pickpockets did their work in the crowd that assembled about Boyd's theater waiting for the poporatic candidate to ap-pear. There was a oig jam there, the only one on Bryan's route in the city, and opportunity was offered to The following cases have pickpockets.

Burglars were also active, but confined their work to the business section, al-though all the cases were on streets off from the line of march. These streets were practically deserted. The excellent opportunity offered was shown by the fact that the crooks entered the store of the Dayton Jewelry company in the Ramge block on Fifteenth street by climbing over

Augustus Kuhn is the name of the general agent of the Chicago & Northwestern who will on November 15 assume charge of the freight and passenger business It is strange, however, that all the work of Clerk Peter Schwenk, who was in command of that road in Omaha. He will , in this city, succeed Robert R. Ritchie, who has been transferred to San Francisco.

All these

go at....

Mr. Kuhn is a middle-aged man and has ever since entering on railroad work been connected with the freight department of the Northwestern. For several years past he has been the efficient chief cierk of Hiram R. McCullogh, general freight agent of the Northwestern. While not many of Omaha railroaders are personal! acquainted with Mr. Kuhn, those who know him have only words of praise for him, and declare that he will make a most efficient and accommodating general agent. The point in the money market today is that discount houses have raised their rates on call and notice money to \$3@34 through the court. per cent. Money is rather light, but this action of the discount brokers is entirely explained by the fact that this is the first day of the consols settlement, money being lent on them at 4 per cent, consequently the discount brokers have to attract money by an advance in their rates. More gold is said to be going to America today, but 1 cannot confirm it yet. The stock markets maintain the features mentioned in their earlier dispatches all day. Consols, not-withstanding the high contangoes were firm at 109 for the new account. Foreigners were good except Spanish, which were flat. Mines were distinctly better on the cessation of the Paris selling and some support here. Americans remained under the New York parity all day for the reason already given and in addition became weak, but operators here found the temptation to secure profits too strong to resist. Apart from options, however, practically nothing was done here in these stocks. Two dollars was given for a single option on St. Paul until tomorrow. There is a large crowd in the struct tonight, but it is not dealing, merely dis-

cussing the situation and awaiting any change in prices from New York.

COULDN'T BELIEVE HIS EYES.

Forerunner of a Fad Observed in a Street Car.
A fat, smooth-faced man, with a left-over jag, sat gloomily in the corner of a Wabash avenue car, relates the Chicago Tribune and viewed his surroundings with a hazy and blodshot eye.

A good-locking young woman, whose attire

betokened familiarity with fashionable so

ciety, got on the car at Congress street and took a seat opposite. The fat man apparently did not notice her entrance, but in a few moments he suddenly fixed his eyes upon her in a frozen stare while a look of loubt, fear, and hope in contorted combinaion crept over his countenance.

He tried to take his gaze from the young woman, but seemed to be fascinated by something. After a prolonged stare of half a minute or so he suddenly bolted for the door, and without waiting for the car to stop jumped off and rapidly disappeared down a side street. At that moment the object of the fat

little terrapin attached to a gold chain and was crawling about over the young woman's bosom in its efforts to escape. The fat man evidently could not believe his eyes, but the thing was alive. This little creature is simply a forerunner of a fad that has been taken up by ultra-fashionable people. It bids fair to become more popular than the chameleon because the terrapin is less repulsive to women and is not so delicate. All it requires is a bowl

HEAVY SNOW IN SOUTH DAKOTA.

Farmers Having Trouble Shielding Their Stock from the Weather. WOONSOCKET, S. D., Nov. 3 .- (Special.) -There is eight inches of snow on the level here and reports are coming in show ing much suffering among stock. Farmers had been too busy threshing and husking corn to fix up their sheds. The snow drifted into the pen sheds and in some places there are drifts six feet deep. Some farmers, not having room in their barns for all their stock, turned their horses out in the storm and put their cattle in. Purchasing Power

The political agitators have done a good thing. They have turned the people's attention to the purchasing power of a dollar and they have shown that people can get more for a dollar today than at any time heretofore known, If you doubt this, so far as clothing is concerned, look in our Douglas street window when you go by. There you will see a suit of clothes marked \$5 that a year ago would have cost you \$6.00 here and \$7.50 anywhere else. There you can see a suit marked \$8.50 that would have cost you \$12.00 not so very long ago here and is today considered worth that price by other stores which have similar suits to sell. There you can see suits at \$4.00, \$5.50, \$10.00, \$12.00, \$13.00 that a year ago would have cost you from 50c to \$2.00 more per suit at "The Nebraska" and at the present moment would cost you from \$1 to \$5 more per suit anywhere else. If anybody should tell you that the purchasing power of your dollar has not increased so far as clothing is concerned, tell him to look in this window of ours. If he should tell you it is on account of overproduction tell him "nit,"
