SUMMARY OF ALL THE STATES.

Latest Information of the Election in Convenient Form.

CHICAGO, Nev. 4 .- The returns from the entire country, although incomplete in some states, are of a nature to insure the election of William McKinley. A sufficient number of states have declared for the republican party to make certain 264 votes in the electoral college for its leader. The states whose votes are sure for him are as follows: Electoral votes-California, 9; Connecticut, 6; Delaware, 3; Illinois, 24; Indiana, 15; Iowa, 18; Maine, 6; Maryland, 8; Massachusetts 15; Michigan, 14; Minnesota, 9; New Hamp come McKinley's San Francisco vote. The republicans have elected probably five shire, 4; New Jersey, 10; New York, 36 North Dakota, 3; Ohio, 23; Oregon, 4; Penneylvania, 32; ithode Island, 4; South Dakota, 4; Vermont, 4; West Virginia, 6; Wisconsin, Total. 264.

The returns show some interesting features, and in some respects have been a surprise to the leaders of both political parties. The New England states have, as was expected, given heavy pluralities for McKin-ley, without exception. The republican ticket was successful in Massachusetts beyond what was claimed for it by the most en-43 democrats. thusiastic prophet of republican success. New York and Pennsylvania vied with each other for the largest plurality and the figures at hand do not indicate which of them has surpassed the other. Each state has given the republican candidate a plurality of be tween 275,000 and 280,000.

To these states filinois is a good third in its plurality for the winning candidate. If cratic-sliver republican fusion state ticket, headed by Alva Adams for governor, ap-parently has a plurality of 12,000 over the the percentage of gain over the presidential election of 1892 that has so far been shown continues to the end it will give a plurality of not far from 175,000. In the gubernatorial race Altgeld has been badly defeated, but is populist-silver party fusion ticket. Bailey populist-silver party fusion ticket. Balley, populist-candidate for governor, carried this (Arapahoe) county by about 1,200 plu-rality, but most of the other populous counties give large majorities for Adams. The McKinley republican state ticket got fewer votes than the republican electors, and Walts, middle-of-the-road populist, was a poor fourth in the race. not buried so deep, and is probably about 60,000 ahead of the democratic national ticket. There has been evidently a large vote cast throughout the state for McKinley and Altgeld.

JONES' CLAIMS NOT JUSTIFIED.

In Indiana, if any of the rules for esti-mating the vote of a state which previous have a majority in the legislature, but this should not jeopardize the re-election of Sen-ator Teller, as most of the candidates were instructed by the conventions which nomi-mated them to vote for him. McKinley apto the present election held good are still be relied upon, there is no justification r the democratic claims of having carried the state. If the ratio of republican gain continues to the end of the count, McKinley pears not to have carried a single county in will have approximately 20,000 plurality in Colorado. the state.

It will be several days before all the re turns are in from the back counties. But from the figures at hand the democratic majority is conservatively estimated at 25,000.
