A hundred years ago the idea of a man's being capable years aso the face of a man a being capanie of service, not simply when he was half way between 80 and 90, but even so late as 70, would have been rejected as absurd. Under the first constitution of New York Judges could not serve beyond 60, because no man older than that was considered able to render just decisous. More than half of the thirty-nine delegates to the con-vention of 1787 who signed the festeral constitution were under 45, while a dozen of them ranged from 38 down to 25, and Men's Christian Association tear only four had passed 60. Throughout Washington's two terms as president he always spoke of himself as an old man, although ne was but 57 when inaugurated, and as his first term approached its end he wished to retire to Mount Vernon, "to spend the remainder of my days, which I cannot expect to be long, in ease and tranquillity."

The Omaha Retailers association emerged for the first time last night from the sloth that marked not only it, but all other business organizations, during the late campaign. Naturally the attendance was not particularly large, but those present began to lay plans for a renewal of the association's activity since the death of the his colleague there for six years, when he silver craze assures prosperity again in the

President Hospe in opening the meeting said that the result of the election was felt already in better trade and a greater circulation of money, and it behooved the retailers to begin to hustle again, not only for the projects which interested them solely, but also the city generally, espethe union depot. Regarding the latter, he stated that some developments had taken place, but it was deemed unadvisable to make them public at present.

The committees which have been solicu-ing subscriptions of stock for the exposttion company reported. It is the intention to have them visit again those merchants who would not subscribe until after election. A suggestion that the executive com-mittee meet every week instead of every two weeks met with approval. The rest of the meeting was devoted to short talks from

Captain Palmer was called upon to tell what prospect there was of receiving a 5 per cent reduction in insurance rates next year. He responded, and incidentally made some decidedly interesting remarks on the subject of charter amendments on the pres

ent system of city government. He said that the levy this year would He said that the levy this year would be based on \$15,000,000 instead of the \$18,-000,000 of this year, which, on the usual apportionment, would place in the fire and police fund but \$80,000. Last year the fund received \$99,000, leaving a deficit of \$36,000 The council made up \$31,000 of this, and by close paring and economy, particularly by making the firemen do all the repairing mt engine houses, the remainder would be saved. He estimated that on next year's levy there would be a deficit of \$10,000 in the fund to be faced.

MAY GO UP OR DOWN. "During the past year the fire losses have amounted to practically nothing," continued the captain. "This has been due to the fact that we have an excellent fire chief, as good as any in the United States, and to the discipline that is maintained in the department. We have a good department, and it must be kept up, even if we have to discharge the police force. If it is maintained I believe there will be a 5 per cent reduction in the rates. If it is cut down, I would not be surprised to see the rates go up. Therefore, it behoves business men to devise some means of raising the amount of the estimated deficit, "It is possible to remedy this evil by changes in the charter, so that we could get rid of a large number of useless city offices. The salaries the city is paying are simply frightful. Moreover, we have men in this city holding public office who are absolutely disqualified for doing anything except to draw their breaths and their sal-aries. There are enough offices to run a with one-half the offices and one-half the oxpense. For instance, the floard of Public Works has been absolutely of no use this year, and yet it has cost the city from \$1,000 to \$12,000. By cutting off these use-less offices enough money could easily be found to run the fire and police departments or a good basis."

Captain Palmer suggested that mittee be appointed the republic is that were an exceedingly and the republic is that the results of the republic is the results of the republic is the results of the republic is the results of the results of the republic is the results of the republic is the results of the results of the republic is the results of the
