WHICH WILL HAVE OPPOSITION.

His Appointment Likely to Be Done. WASHINGTON, Nov. 23.—(Special Telegram.)—The appointment of W. D. McHugh to a position on the United States district bench of Nebraska comes in the nature of a pronounced surprise to many Nebraskans here. A prominent Omaha citizen today said: "My impression is that McHugh will fail of confirmation, because of the number of prominent lawyers who have been ignored by the president in this appointment. Beyond his appearance before the Interior Commerce commission during the winter of 1895 in the Commercial club case the appointment has never been known to any extent outside of his own hallway. It is undoubtedly a good lawyer, but in my opinion stronger men have been wholly ignored."

It is still uncertain what course will be pursued with regard to the certification of stock subscriptions for the Transmississippi Exposition, but it is generally thought that the matter will be referred to the solicitor for an opinion as to the reliability of those subscriptions. It is also thought that the secretary of the treasury, who will make recommendations that \$200,000 be appropriated by congress for carrying out the purposes of an act passed during the closing hours of the last session of congress and will designate the fund in which the same is to be included.

STOPS MAIL CARRIERS OVERTIME.

Postoffice Department Has a Plan to Stop Mail Carriers Overtime. WASHINGTON, Nov. 23.—The system of allowing overtime claims of letter carriers throughout the country will be practically abolished soon. This is in accordance with the policy begun by First Assistant Postmaster General Jones at the beginning of the administration. At that time claims for extra compensation for overtime in work were accumulating at the rate of 79,000 hours a month. This source of great expense to the service has been stopped by the issue of the reports for October show that the amount for that month was only 187 hours for regular letter carriers and 137 hours for substitutes. The director of the postoffice department in nine cases out of ten as unnecessary and Mr. Jones says it will do away with overtime altogether, save in rare cases where there is actual necessity.

Knott, now a member of the court. The latter's place was filled today by the appointment of Charles B. Howe, who now holds a position of assistant attorney general in the Department of Justice.

Judge Nott was born in New York, and received his original appointment from that state.

Judge Howe was appointed to his position in the department of justice from Michigan where he was a member of the national democratic committee from that state.

Years ago, Judge Howe served during a great portion of the war in the Confederate army. He was appointed by President Cleveland United States attorney for the northern district of Mississippi, and during the incoming of President Harrison's administration.

AMUSEMENTS.

The management of the Omaha Symphony orchestra will present a well trained orchestra of forty-seven instruments to the people of Omaha for their entertainment tonight at Boyd's theater. The need of a good orchestra in this city is conceded by all classes of citizens, and if good wishes and words of encouragement go for anything the house will be inadequate to hold the crowd. The management has shown pluck and tenacity in a particularly strong one, and there may be contingencies arise which will hold open his confinement until McKinley comes to this white house, in which case the name may be suggested to the senate for confirmation.

General Counsel George R. Deek of the Milwaukee railway has been in the city during the elevator shaft of the Sherman hotel a week ago, is not recovering as rapidly as his physicians would like, and it is feared it will be some time before he will be able to resume his duties in connection with his department.
