Yesterday afternoon the deposition of W M. Wilson, a former advertising solicitor for the World-Herald, was read. He testified that he had been in the employ of the World-Herald in 1894 and 1895 and had been paid mostly in orders on merchants and other advertisers in the paper. Edward Rosewater was called to the witness stand and testified that the city editor had general charge of the department of the paper in which is printed all news of a local nature. The witness said he first saw the article in controversy in the morning paper following the day of its first publica-tion. Mr. Rosewater was also questioned regarding the business conditions in this vicinity in 1896 as compared with 1895 and testified that there had been a gradual decline in the volume of business. He also testified that the ad-vertising business was seriously affected by a decline in the volume of general business. Mr. Rosewater was questioned as to the effect of good or bad crops on gen-eral business and as to the effect of a presidential campaign. He said

A little light has been thrown upon characters of Murderer Charles H. Elliott and his victim, Gay Hutsonpiller, by letter which was received yesterday morning by Chief of were connected with Buffalo Bill's Wild West show. Burch writes from Coatsville,

Pa. Regarding Hutsonpiller, Burch speaks highly. He says that he knew him several years and that he always bore an excellent character and reputation. He writes as follows: "He was an honorable and honest young man, and was respected by all the men who knew him." Burch's opinion of Elliott was of an apposite character. Regarding him he says: "After acquaintance with Elliott, 1 stamped him

as a low character. If it is true that he murdered Hutsonpiller, the worst punishment that your law may give this murderer will serve him right."

Many a woman has freed herself from embarrassing and disfigur-ing discases of this kind by taking Dr. Pierce's Golden Medical Discovery. It not only purifies the blood completely, thereby cleansing and brightening the skin, but it fills the blood with life-giving proper-ties, and builds up the whole system. It rounds out the hollows, thereby rubbing out wrinkles, makes the flesh firm and solid, brightens the eyes, reddens the lips, and gives the lustre of health to the hair. It makes beauty by making health. It makes a woman attractive by making health. It makes a women attractive by making health is the solid. Cradle and the Grave.
