## THE BEET SUGAR INDUSTRY.

Hastings Tribune. The fellow who wants to beat down the sugar beet industry doesn't know what is best for the state. Kearney Hub: The Oxnard sugar factory at Grand Island paid its employee \$4,000 last Saturday. Pity it is that Nebraska has last Saturday. Pity it is that Ne but two factories instead of 200.

Doniphan Index: The Grand Island sugar factory has already manufactured more than 3,000,000 pounds of sugar this season, and is still grinding away at the rate of 700 sacks

Fairfield News-Horald: Let the farmers about. Fairfield carefully investigate the sugar beet problem. This year's experi-ence demonstrates that it is a profitable crop to raise when its manipulation is therboots selection videou

Grand Island Independent: There is some, thing more than the discussion of the sub-ject necessary to erect sugar factories. Ne branks has the soil and elimite, but what it needs more now is eastern capital and

capitalists' confidence.

# McCook Courier: Think of R. dear readeral A man in Scotland who has \$2,500,000 to invest in a beet sugar factory has writ to note in a over sugar factory has write to come to Nebraska the worst kind and put up a big factory, provided the bounty law is not repeated—and there are others, Again we say, think of it.

Nebraska Signal: Nebraska should raise more migar beets and not depend so much on corn. We hope to see more farmers try a few series of beets next year. They will be mood for feed in any event and the time will come when those fatmers who haven't learned how to handle sugar beets will regret their lack of knowledge.

Rearney Hub: There is a proposition to enact a feet sugar bounty law by the in-coming Wisconsin legislature. Other west-ern states are moving on the same line, and this fast affords all the more reason why Nebraska bounty law should be re-ed. The tendency is in this direction and by no act of our own should we diver he industry to other western states. Hastings Tribune: There are more op-ortunities for business and farm hus-bandry in Nebraska than in any other state a the union. Her resources are not de-cloped one-tenth of what they will be in mc. There is nothing the matter with ebraska's resources if people will develop hem along the lines most likely to be prof table and those most natural.

Callaway Courier: It would take twelve ugar factories like that at Grand Island to upply Nebraska alone and from August 1 55, to August 1, 1896, the United State mported sugar to the value of \$60,000,000 Yet the Omaha World-Herald, the pope-tratic organ of Nebraska, has already commenered an attack upon the existing sugar bounty, and it is likely the incoming legis-lature will do all it can to cripple the inlustry in this state

Cambridge Kaleidoscope: Some of our apulist editors are demanding the pead of the state sugar bounty. The man-

clustry within our borders at the present time and affords a sbining mark for the polioned arrows of populism. Let the dead band fall upon it and destroy it. Nebraska will never be a paradise for these encines prosperity until it is dead beyond hope resurrection.

a knocking at the doors of Nebraska for ad-nittance. It is bound to come in, and if The people of the state know a good thing the people of the state know a good thing when they are it, they will not impede its progress, but rather encourage it. Nebraska ought to have fifty or sixty sugar factories, ought to have raised beets this year to Judge Dundy.

ame thing at Minden. Give us more sugar factories:

000 acres of land devoted to the culture of sugar beets while Germany's beet lands over an area of nearly 1,900,000 acres, say he Bee. An acre of land planted in sugar sets yields from ten to twelve tons of scets, and a ton of boets will average 20 pounds, or at least one ton of sugar for overy acre of beets. With proper encourgement Nebraska could readily devote 000,000 acres to sugar beet culture, and ts sugar crop would be worth \$50,000,000. Planted in corn 1,000,000 acres, with a yield of fifty bushels to the acre, and with corn

Schuyler Sun: The popullat

will not be pullided. In short, the governor type. The populists in passing the law declares, Nebraska will not strempt, either claimed the credit for the reform in voting; declares. Nebraska will not attempt, either by legislation or otherwise, to put the priuciples of populism into practice, but will stand for a toyal observance of all obliga-tions, public and private, and for the main-brance of her honor as an American combut will for fraud. But it appears that so nonwealth.

states where it triumphed on election day. that in Nebrasha, at least, any attempt cler-its supporters to destroy the existing law order of things will be vigorously resisted. Governor Holcomb's words are the wiscat that have come out of Nebraska since the election. They are a promise of order and horesty, and if he resolutely fulfills the

promisent and popular young democratic awyer of Omaha, law partner of John C lowin, has been appointed circuit judge t necced the late Judge Dundy. He is rilliant lawyer and highly connected gen eman, an administration democrat an ithal one who will bring honor to the posiin to which he has been appointed for life We would like to have seen our fellow citin, Mr. Munger, appointed, but the president has doubtless made a wise choice; Beatrice Democrat: The president ha

Serving notice on the tenants of th immigrant shed that has done service as a union depot for the last six or seven years does not necessarily mean that the old tinder box is to be dislocated and dismantled right away. The tenants of the union depot company may conclude to hold the fort until they are ousted.

Omaha can dispense with quite number of officials without erippling the public service, but it cannot abolish the office of city comptroller without exposing itself to a repetition of treasury leaks and numberless jobs and steals that are frustrated under the improved system of checks by the comptroller's office.

Among the first measures that will force themselves to the front humediately on the convening of congress will be the Pacific railroad debt funding bill. This measure will doubtless be given the right of way in the house bafore the holiday recess, but its road. through the senate, where debate is unlimited, is liable to be rocky.

A passenger station large enough to accommodate the traffic of the Burling tonton road and one or two other roads may be satisfactory to the managers of the Burlington road, but this city wants a union passenger depot which all the railroads that converge in Omaha now or may desire to enter Omalia in the future can use on reasonable terms.

-The proper location for a great beet sugar refluery is Omaha. A refinery at Omaha would stimulate the establish ment of small beet sugar factories within a radius of fifty miles on both sides of the Missouri river, and these factories would keep the refinery supplied with beet pulp and raw sugar in sufficient quantity to keep it in operation nearly all the year round.

The fight between the democratic gold and silver factions is on in New York City. The leaders of the New York gold democracy are to hold their first meeting next Thursday to organize for proved, and the business men of the next year's municipal campaign. This move foreshadows a division that will keep the Tammany braves from recapturing the patronage which has been the mainstay of their organization.

The purchase of a home in Princeton by President Cleveland seems to have afforded the New York news mongers a suggestion that the outgoing president intends to follow in the footsteps of ex-President Harrison to become a law school lecturer. The report credits him with the purpose of becoming dean of the Princeton Law school. The gossins furthermore assert that Mrs. Cleveland has inspired her husband with the desire to identify his name such provisions as will enable us to with that of this great institution of learning. The report lacks credibility. however, in view of the fact that there is no Princeton law school at the present time, and it has a working agreement with another law school, which is located in New York City.

responsibility for continued treasury deficits will not rest with them. This course appears to us to be dictated by both sound business and political condilerations.

There is another consideration which

mucht to have a great deal of weight.

This is, that putting off revenue legis-

to the heart of Certran, made that historic march thence to the sea, and, sweeping northward, were close to Grant or that fatchil day at Aromatics. They were is I by that illustrious general of the middle went, Sherman. The same territory sup-plied Loyan, McPheram, and a host of other communicate who added as effectively in decommanders who aided an effectively in de iding the coutest for the north, and finall, the middle west gave Grant to strike the The con the east. Back of the leaders marched the valiant soldiers of the middle weat comprised the potential force in striking

The valor and patriotism of these men in war is comparable with their unflinching de votion to honor and right principles in this 110 When the republic pat election. threatened in 1861 they rose to defend it, and they rose again to light the same kind of foe in 1895, and in both conflicts they were the decisive factors.

At present pointed Hon, W. D. Mellugh of Omaha as \$12.500.009. successor to Judge Dundy as United cres planted in corn would only yield d.250.000. tates judge. Mr. McHugh is a young ma

clean personal character and one wh Staaton Pleket: The repeal of the state ect sugar bounty law would mean a re-uction of \$1 per ten in the price paid for anks high in his profession. He is als sterling democrat and one of the gentl sets, which would cause many who are nov rewing them to withdraw from the infus on who has the distinction of being vote at of the Jacksonian club by the popu ry and would have a demoralizing effec-ipon the production of sugar in the state aggregation that appears to have captured that organization. Mr. Merlugh will make a strong man on the bench, and his judicial I first thought when considering the mat At this, thought when considering the mat-ter it might seem, in view of the amount of beets that can be produced per arce, and considering the price of corn and other products that there is a good profit at raisife will reflect credit upon the administra-ton that appointed him. Here's to you, W

CRITICISING THE BALLOT LAW.

ag beets, even at \$4 per ton, and possibly here would be if the grower was alway Elwood Republican: There seems to be a ceneral demand for some change in the Aus-ratian ballot law, rendering it less cumber sure of a full crop, their coming up to the required test, and then was sure of getting that crop harvested in time to escape the It will doubtless receive attention a rost. But there is a great deal of hard and disagreeable work connected with their ulture, and counce this fact with the unhe hands of the forthcoming legislature. Columbus Telegram: All the constitu-ional amendments failed of adoption at the rtainty of meeting the required test an maping the first freezing, causes people t dection. We will have to try it again when he Australian ballot law has been se-unended that the slowest of us can vote ac efuse to grow them unless the price i lew is sufficient to warrant taking the rist e want to in a minute or two. cut to \$4 per ten would mean that few.

licets would be grown in this count Hardy Herald: If the incoming legisla ustralian ballot law and put in the rea ext year, and a repeat of the bounty clau acons that such a reluction will surely follis time investigating the various feors and let the stay and collection law hene as they are, its constituency will ap of the state seem to take delight in pumping on the sugar bounty. They want the farmer to understand that they are reciste its work and be truly thunkful be

Minden Courier: Every change in our baland therefore radius charge in our bar-lat law will confuse voters more or lens, and therefore radius changes should be avoided. However, to place an emblem of each party at the head of its ticket, so hat each voter wishing to vote a straight telect could do so by making a cross in or war this emblem, would be simple and of reat-advantage all around.

with the results. Many admitted that had a nat been for their heet crop they would Nelson Gazette: Say what you will about the Australian ballot system as it is used in Nebraska, no one will deny that it gives us have had absolutely nothing to dispose of, in the next place, suppose the bounty be re-moved, who would be the loser, the coma very complicated and bunglesome ballot. Healthes it is too expensive—unnecessarily so any or the farmer? Under the present on to a great extent. The legislature would do well to make such changes as to simplify the ballot as well as render it less expensive ounty system the sugar company agrees to pay \$5 per ton for beets, the sugar per cent of which shall test 12 and the purity 80; few thousand dollars saved to the tax-

also stated in the contract that should the present bounty he removed that the com-uony shall pay but \$4 per ton. The extra deltar is secured to the farmer by the pres-curbounty law. Now by what kind of me ont bounty law. Now by what kind of ar-mount they expect to make those actually raising beets to be in favor of the removal of the bounty and compel the sugar com-vanies to pay \$5 per ton, another difficulty ach party so a straight theset can be voted whickly and without difficulty. The secrecy of the ballot has been attained and the voter all have to be mot: In the first place, the ould be assisted to more perfectly expresis preference. Central City Nonparell: The legislature his winter should amend the present ball

tract calls for 12-80 per cent beets. If the bounty were removed the company could These seven states, moreover, which very easily make new contracts for 1312-83 per cent at 35. Then about one-half the beets would fall below and be paid for at \$4. ast, or a fraction of fifty, and the same num er of sample ballots. Hence if a precis asta fifty-five votes order the precent la or lower rates. It might be well for some of those would be farmer protectors to in-

or lower rates. It might be well for some of those would be farmer protectors to in-vestigate a little more closely the different phases of the sugar industry. **GOYERNOR HOLCOMERS WISE WORDS A Promise of Order and Bonesty for** New York Mill and Express. While populist-riddon Keness is talking of celebrating her political degradation by passing an act to make a legal bender of the Mexicar eliver dollar her sister com-monwealth of Nebraska presents the re-freshag spectacle of resuming her reason the Mexical effort doing for another for monwealth of Nebraska presents the re-freshing spectacle of resuming her reason and behaving berself re a decent state should. Popular success in Kansas apprears to have paralyzed the sense of responsibility political parties by the county clerk. The Australian hallot law is a great improvement over the old method of voting, but still it <sup>115</sup> It far behind the voting machine, which n doubt will soon be clamoring for recognition to have paralyzed the sense in Nebraska it doubt will soon be clamoring for recognition has had the wholesome effect of silencing the cranks and agitators and bringing the braska legislature can greatly improve the braska legislature can greatly improve the people to a sober understanding of the duties that confront them. scenent Australian ballot has by an amend ment that permits the voter to cast his bal at confront them, the populist chief ex-

Governey Horome, the populate chief of the straight ticket by continued a timely assurance in behalf of Nebraska. He declares that no vested interest in the state will be endangered by the continued supremacy of populasm in that common-wealth. The campaign threat of repudiation newly elected secretary of stat by the secretary of states of the less of to: for the straight ticket by making bu or C lorado system is much preferable to that of Nebraska. A Central City paper commenting on the same, states that the sideration. While portions of these streets are located adjacent to business lots that can and should be taxed for state for a state in a long time bit in the state in a long time bit is no reason why anybody should read them.

Cheaper goods are too cheap at any aw. Under the present law there are 20 ficial ballots printed for every fifty vote price-\$25 is as much as any one need

pay for as good a suit as can be made.
