County is Relieving Many.

Overseer of the Poor Huntington has been having a busy time of it for the past few days attending to the many calls for assistance from the poor of this part of the county. He said yesterday that there had been a great deal of suffering among the poor during the recent cold snap and the number of orders issued since last Friday had exceeded all previous records since he has been in office. He has 125 regular pension-ers on the list at present and each of these receives an order for supplies every two weeks, amounting to from \$1.75 to \$2. About cases of destitution have been re ported to him in the past week. At presen he has nincleen patients in the two hospital at a cost of from \$2 to \$5 per week for each one. From all indications Mr. Huntington said that the demand for aid from the county would be very great this winter. Some of the organized charities that have been doing considerable work in the past have not been able to get started this winter and the burden Brown's C. O. D. would of necessity fall upon the county.
