

# ANOTHER GREAT SATURDAY

Saturday will have to be a Star Day indeed, to get ahead of the last few Saturdays—but we are going to do our part—We put in these bargain lots some of the greatest values ever given by any one—Bigger bargains than we ourselves would have thought of making six weeks ago—People will buy—if the inducement's all right—and it's right this time if it ever was—

We are upsetting prices all along the line. There isn't a suit in the house but has been shaved down to the lowest possible margin to make Saturday a hummer.
