Republican Control Committee of Lincoin Will Meet Monday to Re-Ar-

runge the System of Primary Elections in that City.

LINCOLN, Dro. 5 - (Scecial) - The fury in the case of the state against Frank Hilton, to recover \$6,250 fees, alloged to have been retained unlawfully, reported to the court at noon today that it had been unable to agree upon a verdict, whereupon the jury was discharged, and the case will go to trial again.

It is reported that the jury stood eight to four in favor of giving the state a verdict for the full amount asked. The only question left for the jury to decide, proctically, was whether or not gasoline is an Illuminating oil. Under the instructions of the court, qualified as stated in yesterday's Bee special, the jury must have found for the defendant, if it had found that gasoline was not an illuminant. The case occupied an eatire week of the time of the district nourt, and the expense of retrial will be far from nominal.

REPUBLICAN PRIMARY SYSTEM.

The republican city central committee will hold a meeting at the Lindeli hotel next Monday evening, for the purpose of con-sidering proposed amendments to the Lincoln primary system. The meeting will be an open field by the primary system. primary system. The meeting will be an open one, and all republicans desiring to submit amondments or changes will be afforded the opportunity of so doing. It is the expressed desire of the committee to remedy any de-fects that may exist in the system and to make any changes that may add to its effi-mant in exclusion that have seed to the make any changes that may and to us em-cacy in producing the best results at the spring primaries. The committee realizes that the system was adopted by reason of the widespread dissatisation of a large majority of the party, with the objectionable delegate convention system, which permitted wholesale packing in caucuses and farcical primaries. The result of these factics, the committee chaims is shown in the fact that the 2,500 republican majority in this city has dropped to about 1,000.

SOME PROPOSED CHANGES.

SOME PROPOSED CHANGES. One of the important amendments that has been suggested is the use of registry lists at the primaries. It is proposed to make duplicates of the registry lists used in the Nevember election, in order to pre-cide the possibility of filegal voting. In cases where a voter has changed his resi-dence since the last election he will be re-quired to swear in his vote. There will be two challengers at each polling place, who are to be selected by the committee, and none others, except a pollee officer and the election officers, will be permitted inside the polling place. Another proposed amendment is that the election judges be required, immediately

election judges be required. Immediately upon the completion of the count in their upon the completion of the count in their respective precincts, to lock and seal the bailot boxes and proceed with them, to-gether with the taily sheets, to the head-quarters of the central committee, and turn them over forthwith to the executive committee, in whose custody they will re-main until the official count is made. This is intended to avoid any grounds for charges that the ballots were tampered with in case of a contest. of a contest. Among other proposed amondments is one

Among other proposed amendments is one requiring all candidates for mayor to pres-ent the committee with a petition containing the names of at least 509 legal republican voters in order to get his name on the offi-cial ballot, instead of but fifty as now re-quired. The object of this is to prevent the candidacy of men of straw and a multipli-city of candidates. These who favor this amendment contend that no candidate who cannot secure the disnatures of 500 voters. cannot secure the signatures of 500 voters should run for mayor. No voter can sign but one petition for the same office. Some members of the committee believe that 300 names would be sufficient. It is also pro posed to formulate the heading of the petitions, in which it is certified that the signers have attached their names to no other petition for the same office; also to require the candidate to certify that he is an as-pirant in good faith.

Burt County Criminal Cases.

TEKAMAH, Neb., Dec. 5 .- (Special.)-District court is still at work on criminal cases in this county. John and Isaac Shep ard, who were sentenced to eight years in the penitentiary by Judge Keysor some eighteen months ago, and who were, during the past summer, sent back here for a new trial, have been tried and again found guilty of burglary. George Kelly, charged with stealing a steer from H. C. Sawtell, has been found guilty, which means a penitentiary sentence. William Hunt and George Arm-strong, two tramps, were found guilty of burglary. The latter crime was committed burglary. The latter crime was committed at a farm house during the past summer.
