EXCOURAGED SCHOOL TEACHERS.

Board of Education Hears Charges Against Certain Employees. Superintendent Hines and several of the members of the Board of Education met last evening in the office of Dr. Snyder, chairman of the teachers' committee, for the purpose of investigating two or three complaints that had been made against the teachers of the Madison Avenue school, alleging that they had unduly punished pupils. The parents of some of the children were present and told their stories and the facts of the case by the teachers, who gave in detail all of the information they possessed. One case of alleged severe punishment was called to the attention of the board by a man named Kinzel, who alleged that his 9-year-old daughter had been punished on the arm by the teacher, Miss Lindon. The injury was inflicted at the beginning of school and the friends of the child asserted that the marks were still visible. Inquiry developed the fact that the child had received a fall while playing in Fairmount park and that the bruises on her arm were due to that. Miss Lindon had given the little girl a vigorous shake one day in the presence of the other children, and was so confident that it was utterly impossible for any injury to have been inflicted at that time.
