### Will Aid the Y. M. C. A.

The rather slender support that has been given to the local organization of the Y. M. C. A., to which is attributed an unpleas antly large debt, has attracted the attention of State Secretary Magee. He has had some correspondence with the Board of Directors and has spent several days here this week looking over the ground and conferring with the board. Several plans have been pro-posed, all of which are believed to be more or less efficient as a means of relieving the financial depression. The plan regarded as the most feacible is the reorganization of the association and extension of the manual training features. This will include the services of a practical instructor in the gymnasium. The board may also conclude to secure a new secretary, who has had am-ple training in the association work.

All violations of the ordinance ere declared misdemeanors, punishable with fine and imprisonment.

The consideration of the ordinance pro-luced some differences of opinion. Alderman Casper thought the rights of the publie might be curtailed by the stock section, and Wright frankly admitted that his company felt the necessity of insisting upon it, even if the stockmen felt that it would be more convenient to ship cattle instead of driving them across the river. The ordi-nance was finally referred to the committee of the whole.

SILVER CITY, Ia., Dec. 16 .- (Special.)-Ever since the reported assassination of General Maceo this city has been considerably worked up over the affair and no one is backward about expressing himself as willing to help the Cubans, even if arms must be resorted to. Yesterday a report came in that companies were being organ ized in Omaha and Council Bluffs to be for warded to Cuba, and the entire town here caught the enthusiasm and everybody was talking Cuba. About midnight the excite nent culminated in the hanging in effigy Captain General Weyler to a telephone po in the heart of the city. After the crowd had jeered the form for a while they separated to their homes. The hanging was not the work of boys, but several business men had a hand in the affair.

The mayor has directed him to get after some of the Omaha laundry wagons and dealers in other lines who come down here and take orders and deliver goods. Carroll is willing to obey the orders of the mayor, but City Attorney Montgomery has placed a stumbling block in his way by asserting that the solicitors ordinance as it now stands needs some fixing before it can stand a test in the courts, and has told the inspector to wait until the counell takes some action on proposed amendments to the ordinance.

The ordinance in question was passed in 1894, at the solicitation of local merchants who desired to be protected from Omaha empetition. At the time the ordinance was passed W. C. Lambert, who was then city attorney, advised the council that such an Resolved. The object of the ordinance, as was plainly shown, was to keep outsiders from coming down here and soliciting trade. By the re-cent acts of the mayor the portion of the rdinance referring to the period of time a icense shall be paid for has been null and void. The mayor has in a number of instances given orders to the clerk to issue licenses to Omaha solicitors for three months upon payment of \$25. In compliance with the order the licenses have been issued, and instead of keeping Omaha runners away, the city is now full of them, and all the treasury has to show for their being here is \$25 from each one. In some instances, possibly, the license may have been taken out for six months. Thus the city is not the gainer to

Of the Pyramid Pile Cure.

Is the fact that it cures every form of Piles without one particle of pain. This destrable point is not obtained by the use of injurious opiateswhich simply deaden and paralyze the nerves of the parts and make matters worse in the long run. But it is done solely by its remarkable healing and

soothing effects. And while it thus gives immediate relief. at the same time the disease is not merely checked, but a radical cure is rapidly ac complished. And the point we want to make clear is

that all this is done without a particle of ularity of the Pyramid Pile Cure and constitutes one very great difference between i

and almost any other kind of treatment for Every kind of surgical operation for pile is excrutiatingly painful besides endangering the life of the patient, and in most cases is not to be compared with the Pyramid Cure neither in making successful cures withou
