Showing of Earnings for the First Bulf of December-R. G. Dun's Trade Review.

NEW YORK, Dec. 24.-R. G. Dun & Co.'s Weekly Review of Trade tomorrow will any: The failure of two important banks, the second in size of business at Chicago and the oldest at St. Paul, with some others dependent on them, closes not favorably a month which promised to end with only mod-crate commercial disasters. It does not lessen the effect of these failures that one was caused by enormous loans in aid of an electric railway and other concerns, and Stann, Lincoln Local (ex. Sunday)..., 11:39am

The shake up in the iron and steel prices is nearly complete, and quotations for Besse-mer pig iron and for steel have got down. from heavy ventures in unsaleable real esand depositors are for the time embarrassed as much as the speculators that caused the setam simpm hopeful at present, although it comes when money markets are well sumpled and arrives money markets are well supplied and when no serious effect on business is to

be apprehended. Other important events of the week are the failure of the billet and rail pools to find a basis for agreement and the somewhat general discharge of hands or reduc-tion of wages in the shor manufacture. The

The fall in steel billets from over \$20 to about \$16 at Pittsburg and in steel rails from \$28 net for mills to \$25, less brokers' commissions, produces so great a change in other prices and conditions of business that the meeting held here this week for the purpose of reviving pools and fixing prices influenced operations throughout the country. But no agreement was reached and meanwhile contracts have been made covering the wants of most producers for three months and some for the whole year 1897. and it is said that such large contracts have been made at \$15 at Pittsburg and \$17.50 at the cast. Bessemer pig has de-clined to \$11.15, and gray forge to \$9.65 at Pittsburg, while bar and other finished prod-

ets remain unchanged, though 190,000 bundles of cotton ties have been contracted for at 60 cents per bundle. The production of coke increases fapidly, 9,600 over being in blast, with an output of 97,155 tons for the week. Scarcely any business has been done in the minor metals and \$11.37

quoted for lake copper, \$12.85 for tin and 13.05 for lead. 43.05 for lead. In the cotton manufacture there is further decline in some staple goods and tak-ings by northern spiniters are disappoint-ingly light. Print cloths accumulate and do not advance. Sales of wool are restricted by the general conviction that prices asked by interior holders cannot be realized, and by interior holders cannot be realized, and there is considerable disposition to unload speculative purchases at scaboard markets. Most manufacturers have more wool than they have orders and others meet, as yet, no satisfactory demand for goods. Sales of wool were only 2,633,000 pounds at the chief markets against 5,214,300 pounds for the sime week last year 1 same week last year. 1

Wheat has grown a little stronger in spite of the disturbance of the Chicago mar-ket. Exports have been 1,471,443 bushels, four included, for five days and 8,392,587 for four weeks, against 8,557,959 for the same weeks last year, while from Pacific ports the increase has been large. Western re-ceipts are still small, amounting to 8,455,-631 bushels in three weeks of the month

Say Rates are Well Maintained

CHICAGO, Dec. 24 .- The western railroad managers say that never before in the history of American railroading has there been time when the rates, generally speaking, were as well maintained as now. The year has been full of the reorganizations of the different associations, both for freight and passengers, and the reorganizations seem to have borne excellent fruit. The year has been a hard one for most of the roads, but the managers say that they have little to complain of, if only the volume of traffic were a little larger. That, however, is on the increase, and all of the roads are carnings and expenses of the month are looking for larger trade after the holidays.

Cubn Passed Awny Quickly, NEW YORK, Doc. 24.-Bradstreet's re view of the stock market will say: A rapid ecovery followed the depression in stock values at the end of last week. The street pulckly realized that the situation created by the senate foreign relations committe in giving a favorable report on the resolutions acknowledging Cuban independences lacked the gravity of the Venezuelan matter

Incked the gravity of the Venezuelan matter a year ago. London failed to show any fright and buying from that quarter was supplemented by large purchases to cover-short contracts, so that on last Saturday the market regained more or less of the ground it had so rapidly lost on the break of Friday, the 18(h inst. The current gosstp ascribed no small portion of the bear covering to Washington interests which

covering to Washington interests, which haturally tended to diminish the fears that the Cuban resolutions would lead to serious action, and the fact that the senate itself on Monday laid them over until after the holiday recess, together with indications that the house would fail to concur in the pro-posed action, deprived the matter of signifinee. The market consequently lended to portion of the week on continued short covering and on the bellef that the adjourn ment of congress for a two weeks' recess would afford opportunity, for a speculaive liscount of the investment demand and im-

rescould of the investment, demand and im-provement in business that is looked for after January 1. This disposition was, how-wer, checked by the d-velopment of bank-ing troubles in the west, including the fail-ures of the National Bank of Minneseta in Chi-cago and of the Bank of Minneseta in Si. Paul, both institutions bringing down with them a number of minur banks and down them a number of minor banks and firms in their respective vicinities. The disturb-ance in the financial situation at Chicago ance in the humanial altuation at Chicago had, however, little or no influence here, as the superabundant supply of funds en-abled the New York² banks to render all needed assistance to their Chicago corre-spondents without in any way curtailing their own loans, and while speculative in-terests at Chicago are maturally threatened the fact that their activity has have one the fact that their activity has been conined to local enterprises and was almost intirely based on local capital prevented the influence from extending to this cent Prices were, therefore, only slightly affect and at the end of the week the market a sumed a dull holiday appearance, the chief activity arising simply from the desire of professional traders to close up contracts and stand clear of the market over the three
