VERMILLION, S. D., Dec. 29 .- (Special.) -The first session of the State Teachers' association, which is convened in this city. was held last evening in University hall. The evening's program was commenced by a piano colo by Prof. F. A. Ballaseyus, di-Poctor of the college of music of the State university. State Superintendent Crane was introduced by President W. W. Girten of Madison. He delivered an address to the county superintendents of the state. He

The county superintendents of the state of South Dakota are charged with the supervision of 29,000 children, who are being educated at public expense in the free schools of our state. These superintendents have for their working force nearly 45,600 tenchers and more than 12,000 district officers and more than 12,000 district officers and mombers of beards of education. To maintain these schools there was expended for the flead year ending July I, 1898, nearly \$1,500,000. This amount does not include the majory of the superintendents. The county superintendent must largely direct and supervise the books and accounts made necessary by the expenditure of so large an amount. He is also under the law an appellate court to hear, try and determine all appeals from the decision of the district beards; in the location, building, repairing or removal of school houses; in the transfer of pupils for whool purposes and in the resignation and dismissal of teachers his decision is final and from such decisions there is no appeal.

Without competent banchers no superintendent can succeed in raising the standard of schools in his county. It should therefore be the aim of each superintendent to encourage the progressive, pain-taking teacher and to discourage the nonprogressive. The law providing that he period county superintendent unless he could at least a first-grade certificate from the county should be so anended as to require him to hald such certificate from the county should be so anended as to require him to hald such certificate to any our result schools and with a market and the superintendent unless he could not the sound as to require him to hald such certificate in our result schools and with a succeen in our result schools and with a succeent in our result schools and with a succeent in our result schools and with a succeent succeent and to discourage its nonprogressive. He is selected by popular vote, so there is danger that in some cases he may select the instructors for his tenchers from among tenchers in his own county.

One of the most important official acts of a county superintendent is the correct preparation and proper transmittal of the amount report of his county. During the fiscal year ending June 30, 1886, the amount of maney raised for school purposes in the state was \$1.68.43121. Of this amount \$253.507.19 was at that time included in the "balance on hand." The total amount paid out for the support of schools was \$1.53.507.19.

The graduation of our rural schools is a source of pride to the educators of the state, but our graduation is not yet complete. The course of study needs to be revised and rearranged. The State university should be given an appropriation and authority sufficient to arrange the course.

Any honest physician will toll you that there is but one way to get increased flexb; all the patent medicines and cod liver oils to the contrary notwithstanding.

Nature has but one way to increase flesh, strength and vigor of mind and body, and that is through the atomach by wholexome food well digested. There is no reason or common sense in any other method what-

People are thin, run down, nervous, pale and shaky in their nerves simply because heir stomachs are weak They may not think they have dyspepsia,

but the fact remains that they do not eat enough food, or what they eat is not quickly and properly digested as it should be. Dr. Harlandson says the reason is be cause the stomach lacks certain discative acids and persones, and deficient secretion

of gaztric juice. Nature's remedy in such cases is to supply what the weak stomach lacks. There several good preparations which will will do this, but none so readily as Stuart's Proppela Tablets, which are designed especially for all stomach troubles and which cure all digestive weatness on the common sense plan of furnishing the digestive principles
