The hearing was on a charge preferred by a young woman named Raymond, whom Fosdick met on the street an hour later the same evening and threatened to shoot her. ECONOMISTS DISCUSS SAVINGS. Savings Banks and Building Associations Not Sufficiently Permanent. BALTIMORE, Dec. 30.—The American Economic association took up the question of the subject of investments, ex-Secretary Fairchild leading the discussion. Mr. Fairchild quoted statistics, showing the amount of money held by the savings institutions, and called attention to the fact that in periods of depression and panics the withdrawal of this money from the banks was a menace to the business community, and that, therefore, that greater permanency should be given to investments of savings, and less than the city officials do upon the subject. The discussion was led by Prof. Arthur T. Hadley of Yale. Prof. Hadley was followed by Skipwith Wilmer of Baltimore, Prof. W. F. Powell and others, who discussed the several things in a general way.

The day was ended by a banquet at the Remont, under the auspices of the Merchants and Manufacturers' association of Baltimore. All the members of the association were invited guests.
