

COUNCIL BLUFFS DEPARTMENT

ON THE EDGE OF THE FUTURE

AN EPISTEMIC OF "GLOS."

MISOR MENTION.

Clark & Wetzel, L. O. O. P. blk., art par. Lost—Diamond stick pin, Tuesday evening. Finder leave at Bee office and get liberal reward.

JUSTICES OF THE PEACE MUST INCLUDE THEM WHEN PASSING SENTENCE.

Justice Cook administered the Secord judgment in favor of John Morrell & Co. for \$73.55. The defendant is Robert Badatz. The judgment was taken by default.

WILL BREAK UP THE OLD PRACTICE

Petty offenders who have hitherto laughed at the law must in the future settle for justice in full.

LOCAL JUSTICES OF THE PEACE HAVE BEEN FREQUENTLY EXERCISED OVER THE PROBLEM OF COSTS IN CRIMINAL CASES.

There is a general section in the Iowa laws that prevents the defendants being committed to jail for costs when they are punished by being sentenced to pay a fine and the costs of prosecution.

THE SACRAMENT OF BAPTISM AND THE LORD'S SUPPER WILL BE ADMINISTERED AT THE SECONDS PRESBYTERIAN CHURCH TODAY.

A number of new members will also be received into the church.

"Saved from the Sea" will be the attraction at the Bohay theater this evening.

The pastor, Rev. G. W. Snyder, will preach at St. John's English Lutheran church, Metcalf hall, No. 17 Pearl street, at 10:30 a. m. and 7:30 p. m. Sunday school at 12 m. young people's meeting at 6:30 p. m.

The annual business meeting and tea of the Woman's Christian association will be held in Royal Arcanum parlors Monday afternoon from 2:30 and 4:30 o'clock.

A dancing club, known as the High School Social club, has been formed for this season. The members are Charles Saxton, Tom Askin, Charles McDonald, Earl Beardsley and Tom Lacy.

Justice Cook has given L. P. Sevier a judgment for \$5.30 against Mrs. Catermole and cleared away a case that has been hanging fire in the local courts for a long time.

Miss Gale of St. Louis is the guest of Miss Helen Montgomery.

Miss Gertrude Davenport entertained informally on Wednesday evening.

Mr. John Atwood of Sioux Falls is spending a few days here visiting friends.

Mr. and Mrs. A. H. Swearingen of Chicago are visiting Mr. and Mrs. John Oliver.

Mr. and Mrs. L. C. Patterson entertained a charming party Monday evening.

Miss Cora Keller entertained a number of friends in a charming manner Monday evening.

Miss Irene Test is spending her Christmas vacation with her parents, General and Mrs. Test.

Mrs. Wells of Kansas City is the guest of Mr. and Mrs. C. E. Campbell on Second avenue.

Mr. T. J. Anderson, who has been visiting friends for some time, left Friday for Sioux City.

Miss Georgia Lindsey and Miss Creche Cronson of Omaha are the guests of Miss Montgomery.

Mr. W. W. Dimmock of Pittsburg is the guest of his brother, W. S. Dimmock, on Seventh street.

The progress club held its regular meeting Thursday evening at the home of Mrs. McCabe of Morningside.

Mr. and Mrs. Oscar Keeline and daughter left Thursday for Jacksonville, Fla., where they will spend the winter.

Quite a number of young people from here attended Miss Hoagland's tea from 5 to 7 o'clock New Year's day in Omaha.

The Misses Moore and Bennett and Messrs. Squires and Emplke were guests at the dancing party Monday at the M.H. hall.

There is some talk of making the next party of the dancing club a German, which will be held January 13, at the Royal Arcanum hall.

The Monday Musical club will give another public musical at Mueller's hall on Monday.

An interesting program has been arranged for the occasion.

Mr. and Mrs. S. Snyder gave a delightful birthday party New Year's day in honor of their little nephew, who had attained his fourth birthday.

Miss Virginia Robinson was surprised by a party given at her home on Omaha street Monday evening and a most enjoyable evening was spent in dancing.

Miss Dodge entertained at dinner Wednesday evening. The guests were Misses Key, Jacob, Galt, Messrs. Dawson, Woodbury, Dodge, Crowder of Omaha.

Mr. Frank Metcalf returned to Chicago Thursday morning, after a pleasant visit with relatives. He will continue his studies at the Chicago Homeopathic medical college.

Prof. Chambers converted the regular assembly Thursday evening at his hall into a leap year party, which proved a decided success.

Mr. and Mrs. P. C. DeVol entertained at dinner Wednesday evening. The guests were Mr. and Mrs. Thomas Metcalf, Mr. P. Metcalf, Mrs. Metcalf, Mrs. C. Johnson and Mrs. Metcalf, Jr.

Louie Squires entertained a number of his friends at dinner Saturday evening in a very pleasant manner. The guests were Messrs. Edwards, Beasley, Askin, Murphy, Polson, Parley, H. Parley, Zurchmuench, McDonald, Beardsley, Fields, Waite.

Mrs. O. H. Simons entertained a "Laughing Tea" Monday day. She was assisted by the Misses Moore, Farnsworth, Smith, Seely, Jones and Wickham. They were dining in Japanese gowns and dispensed tea to the guests during the afternoon.

The dancing club gave the second of its charming parties at the Royal Arcanum hall last evening. It was very successful and the company was more brilliant than on the previous occasion. Delicious lunch was served. Those present were: Misses Gleason, Cavitt, Sherrin, Gale of St. Louis, Bowman, Montgomery, Barnard, Mr. and Mrs. John N. Baldwin, Mr. and Mrs. C. E. H. Campbell, Mrs. Webb of Kansas City, Mrs. Bushnell, Mrs. Everett, Mr. and Mrs. Hart, Mr. and Mrs. J. H. Hess; Messrs. Dawson, Wright, Woodbury, Metcalf, Everett, Mayne, Toulgas, Haas, Stewart, Crowder, Berlin, Patrick, Helt, Cooley, Haas.

The Oakland Avenue Reading club held the second evening meeting of the season at the home of Mrs. J. J. Steadman. The rooms were prettily decorated with cut flowers and potted plants. Mrs. Steadman was assisted by Mrs. J. H. Arthur, Mrs. H. W. Sweeney, Mrs. Hugh Cole. The program was as follows:

Paper—Peter the Hermit and the First Crusade. Mrs. Philip Burke.

Multifarious. Mrs. Edith Thomas.

Recitation. Mrs. Edith Thomas.

Selection from "The Song of Roland" by American Women. Mrs. Edith Thomas.

Musical. Mrs. Edith Thomas.

Prayer. Mrs. Edith Thomas.

COSTS IN CRIMINAL CASES

courses at the homes of the different young ladies. The affair was delightfully topped off with cigars and few dances at Prof. Handis' hall, Misses Jessie Wallace, Frances Thomas, Ethel Shepard, Flora Bentley, Alberta, Troutman, Helen, Edith, Ethel, Thoma and Sue Badollet were the entertainers and their guests were Charles Bradley, Don Reno, George Wickham, Percy Jamison, Clarence Leach, George Gavin, Charles Saxley and Ed Saylor.

One of the most brilliant affairs of the week was the dance given on Wednesday evening by Mrs. R. E. Montgomery, in honor of her daughter, Miss Helen Montgomery, and her guests, Miss Gale of St. Louis, and Miss Lindsey and Miss Cronson of Omaha. The course of the evening was most enjoyable.

The Chicago University Glee and Mandolin clubs are giving a hit at the Bohay theater last evening. The orchestra was enthusiastic and they responded to the generous applause by many well-rendered solos.

They were put and made much of in their cutting and dancing. They came in on the noon train from Sioux City and were received at the Grand hotel by several of the members of the Field club, under whose auspices the party was given.

In the afternoon the women of St. Paul's church tendered the ladies a most enjoyable party in the ordinary at the Grand, which was well attended. The concert in the evening was a treat of melody and fun. Everything went off with the characteristic class which the opening number, "El Capitan," Sousa's ringing march, to the parting yell of the university, there were original songs, and the funny number, "The Captain," Sousa's no end of merriment and applause.

"Post Hall Song" started a series of funny musical sketches, and the girls of the club responded with as many new songs as a callisthenic exercise to music and some singing brought down the house. Mr. Davidson took upon himself the part of comedian and did it quite well. He has a delightful voice, fine expression and a light, charming artistical expression.

A very acceptable number of songs were sung by Mr. Bain, in several whistling selections. He was applauded to the echo, but seemingly had an overdone effort, as he failed to respond with an encore. Mr. Davidson sang "The Yale Serenade" with good effect. Mr. Snyder's rendition of the "Southern Serenade" was also well received. The concert there was a ball at Old Fellows' hall, at which the club members were guests.

Every garment in our stock at a reduced price.

For this week we offer our entire stock of ladies', misses and children's capes and jackets at

COST PRICE.

This means garments that sold from \$15.00 to \$20.00, at \$10.00 to \$12.50.

\$14.00 and \$15.00 garments at \$9.00, \$10.00 to \$12.50, at \$8.00; \$12.50 to \$30.00 at \$15.00 and \$20.00; \$5.00 and \$6.50 garments at 4.50.

A special bargain in underwear this week. 25 dozen ladies' Jersey ribbed, union suits, heavy fleece lined, worth 85c, at 45c each.

Ladies' Florence union suits, worth \$1.25, at 75c each.

Ladies' heavy ribbed underwear, fleece lined, at the each, 35c and 40c.

Men's heavy wool and flax lined underwear, reduced from 75c and \$1.00, to 62 1/2c each; \$1.25 a suit.

2 cases heavy outing flannel, the 8c grade, at 58c yard.

BOSTON STORE, COUNCIL BLUFFS.

STRICTLY CASH AND ONE PRICE.

Laborers Wanted.

We have for sale or order a general desirable fruit, grain, vegetable and stock farms near Council Bluffs for 1897. Day & Hess, Rental Agents.

Knocked Down by the Flyer.

A farmer named Tucker was struck by a Northwestern No. 1, at the speed of sixty miles an hour, and knocked from a trestle. In company with his brother and another farmer he was walking on the trestle, which runs two miles south of Creighton. The train was approaching and two of them left the track, but Tucker believed he could cross the trestle and get to the opposite side when the act of stepping off the opposite side, the train struck him. He was knocked down and buried a considerable distance. When his friends reached him they found that he was suffering from numerous bruises and a terrible left arm. The train man had not observed the accident, although the man was on the right side of the trestle. The accident has been reported to the city and a stand the required surgical attention.

Clear Stand Changes Hands.

Roscoe Loper and M. C. Mack purchased the Grand hotel clear stand from Moore & Ellis. Both are young men and well known in Council Bluffs.

For Sale—Large buffet table at a bargain. Call or address 1277 Avenue D.

A few days more remain of our great removal sale. Durfee Furniture company.

White Rose Rebekah Installation.

White Rose Rebekah lodge last evening installed the officers elected for the ensuing term. They were: N. G. Anna Unger; V. G. Rose Walters; Secretary, Clara Krueger; Treasurer, Anna M. Boyer; D. G. M. G. Sophia B. Myrner; R. S. to N. G. Sophia B. Myrner; L. S. to N. G. Molly Gollins; W. G. Rose Walters; M. G. to N. G. Sophia B. Myrner; C. G. to N. G. Sophia B. Myrner; Chaplain, Mary Grosvenor; musician, Anna M. Boyer; R. S. to V. G. Mary Nickelson; L. S. to V. G. Anna Unger.

The lodge was honored by the presence of Lizzie Matthews, president of the state assembly, who acted as grand and at the conclusion of the installation some fine fees were given by the new staff officers.

At the conclusion the stock members adjourned to the banquet hall, where a fine supper which the women had prepared was served.

Free Silverware.

By sending forty Domestic soap wrappers to L. Bolton & Co., Des Moines, Ia., you will get six silver teaspoons free.

Hoffmayer's fancy patent flour makes the best and most bread. Ask your grocer for it.

Stole an Overcoat.

Van Ross, a negro, was arrested last night on the charge of having stolen an overcoat from Solomon's clothing store on Upper Broadway. The garment had just been put out in front of the store after the place was opened up in the morning. Last evening Ross was discovered trying to sell the overcoat to a peddler on the Pacific coast. A short time after he was arrested to leave the city after being locked up as a vagrant, but was given temporary employment by some of his friends and was permitted to stay.

Teachers Return.

The Council Bluffs department of teachers to the state association meeting at Des Moines returned yesterday after a most profitable trip. In the party were Profs. Hayden, Hisey and Paulson, Miss Managan, Miss Dale, Miss Ferguson and Miss Johnson. Prof. Hayden was chosen first vice president of the state association and Prof. Hisey a member of the executive council.

Miss Wood was selected as chairman of section of penmanship and drawing.

INDUSTRIAL REVOLUTION FORESHADOWED FOR THE NEW YEAR.

OPINIONS OF SOME HIGH AUTHORITIES

Important achievements and developments forecast by leaders of various departments of science.

(Copyrighted, 1897, by R. S. McClure Co.)

It is a general idea among scientific men that we are on the eve of great scientific discoveries. This idea has been engendered by the scientific developments of the past year. Some of these have been in a measure epoch making and are likely to provide humanity with many things of the highest utility which it does not now possess.

Subjoined are some opinions from men of known eminence and authority in their respective specialties as to what, of special scientific and industrial value, the year just begun seems likely to bring forth.

FUTURE OF THE X RAYS.

I believe the future development of the X rays is bound to be a most important one of surgical diagnosis. It is an great boon to mankind as the invention of the ophthalmoscope and just as the latter instrument has proven its worth to the first step to this and has saved thousands of people from total blindness so will the X rays be beneficial to the human race and save eyes and limbs of thousands of sufferers.

It will cure cancer to a great extent. It will cure the essential quality which prevents us so far from applying it to the deepest part of the body with perfect accuracy. Society was waiting for X rays to straight lines, piercing or rather being entirely absorbed by intervening bodies. Light rays do not necessarily go through all intervening bodies and they are not all absorbed, except when falling on certain substances which are called from their appearance dead black. It being known that X rays are not so easily deflected, that is, to allowing them to be thrown back from any surface in a neighborhood, it would be possible to use them to enable us to inspect special sections of the body, which we are not now able to inspect with considerable accuracy.

Concerning the use of X rays in the result of chemical action. As we go along the X rays are becoming more and more weaker and weaker as we approach the violet and ultra violet light. That some persons have really suffered from X rays is a fact which I think is the result of mechanical effect. The atmospheric dust particles surrounding the X-ray or Crookes' tubes, are charged with a positive electric charge and they X-rays violently away from the tube. They would constantly strike the skin and irritate a comparatively short time given within a person's body. It is possible that X rays should therefore protect his hands with gloves and his eyes with glasses. That X rays may be utilized for other purposes such as the sterilization of food, the curing of many experiments, but it does not, I think, present an encouraging field for research in this direction.

W. J. AX OSTERBERG.

NEW USES OF COMPRESSED AIR.

No other branch of science, with perhaps the exception of the X-rays, has made such rapid progress in the past year as compressed air. As a result of the efforts of the manufacturers of air compressors, a large number of factories, machine shops and other industries have adopted compressed air as a means of power transmission.

The Third Avenue railroad and the Metropolitan railroad company have experimented with compressed air in their cars and motors, and the results are proving satisfactorily. One of Uncle Sam's crack gunboats, the USS Albatross, has been fitted with compressed air for the propulsion of its machinery and the firing of guns. Contractors are using the compressed air central heating system for the heating of their excavations and for the drying of their machinery and the firing of guns. Contractors are using the compressed air central heating system for the heating of their excavations and for the drying of their machinery and the firing of guns.

It is a fact that compressed air is being used in many ways, and it is only a matter of time before it will be used in many more.

THEODORE WATERS.

Treat to the Girls.

The girls of the De Long Industrial school were given a very pleasant surprise yesterday afternoon. The children met at 2:30, as usual, and began the singing and devotional exercises. They had with them the Prof. Hisey, superintendent of the public schools, arrived with his phonograph. He gave the children a very plain and interesting lesson about the phonograph, and then introduced a variety of selections from records he had with him. The instrument Prof. Hisey used was the one he took with him to the school on his last visit. The records were opened and the children invited to find four long tables, spread with an abundance of good things, and were ample room for all, and it is needless to say that justice was done to the feast. Rev. Henry De Long and wife have planned a large number of surprise parties for the children in the past, and by this means have brought sunshine to many little lives.

Funeral of James Matheson.

The funeral of James Matheson will occur this afternoon at 2 o'clock from the residence on Broadway. Rev. Dr. Phelps will officiate. The body will be buried in Walnut Hill cemetery. The funeral will be in charge of the Old Fellows of the city, all of the lodges participating. The friends of the dead man have sent in many floral decorations in memory of the man who has been in the employ of the city for nearly twenty years.

Council Bluffs Churches.

In the First Presbyterian church today the pastor-elect, Rev. W. S. Barnes, will occupy the pulpit, preaching both morning and evening. The subject for the morning sermon will be "The Love of Christ Constraineth Us." Evening subject: "Looking Back." The Rev. W. S. Barnes will be the first time the new pastor has occupied the pulpit since he was called to the pastorate. There will be services in the church every evening from 7:30 to 9:30 o'clock. The observance of the week of prayer. A cordial invitation is extended to the public to be present at the services today and during the week.

The fire in Trinity Methodist church that broke out in the decorations around the altar after the conclusion of the watch-night

has advanced wonderfully in nearly every large city in the country except New York City, and even there the general adoption of electric traction is only a question of time. These trolley roads, as they are called, cut into the suburbs and connecting cities, villages and towns, are forcing the steam railroad to give up its monopoly of the matter of successful competition. I think the ultimate result of this will be the widespread resort to electric power on steam railroads. Already the very satisfactory traction system at O. N. tunnel in Baltimore, the N. Y. & N. H. & O. tunnel in New Haven, the Burlington & Mt. Holly branch of the Pennsylvania road near New Jersey and at Nashua, N. H., on the N. Y. N. H. & O. Altogether, I think that the epoch of general electric railroading is well started. JOSEPH WETZELER.

UTILITIES FROM THE KITE.

Some very notable advances have been in the science of kite flying during the past year. The great utility of the kite for military purposes has been demonstrated in the line of signaling, especially, the kite has shown its adaptability even more than the "hot air" balloon. Our recent feat at Bayonne, N. J., of carrying a telephone wire through the air on a kite-acting and dropping it to the earth 1,000 feet away from the shore, is a most interesting feat. It is another distinct advance in the science. Its practical utility is great and could be made very satisfactory for the telegraph at Vieux-la-Rue, for instance, with such a device, I would have been able to have exchanged messages with the confederate post up in the air. It could be accomplished during any stage, in fact, and during the night time when its presence would not be known to an enemy.

However the advances of the past year have been in a measure conclusive and I think the next development will be in the line of military air photography. By this I mean the taking of pictures in camera suspended from the kite string at night. Large city districts have been accurately photographed by means of kites during the daytime but no military air photography has been taken at night. I am experimenting in this direction and I am convinced that the use of kites for military results will ultimately be reached. With a highly sensitive plate manipulated in midair an confident of being able to photograph objects at night, and they are not to be distinguished by the human eye. If this condition actually exists, military kite photography will have a wide military application. The larger the camera, the more accurately it could be used to photograph an enemy's camp known to a general. It would not be known to the enemy's neighborhood. The kite could be used also in time of peace in photographing large assemblages, celebrations, multitudes of people, or exhibitions.

WILLIAM A. EDDY.

COUNTRY PATIENTS.

H. R. ETTLEMAN, BLISS, NEB. A farmer of wide acquaintance in Holt County, writes that for many years his health has been impaired by catarrhal colitis. For five years ago, a severe attack of dyspepsia left him greatly debilitated. He soon only "I kept getting thinner and weaker until I could hardly get around. I lost 20 pounds in weight. I had the most distressing constipation and the stomach suffered severely from catarrh of the stomach, obstinate constipation and nervous prostration.

"I SENT FOR QUESTION BLANKS AND AFTER A SHORT COURSE BY MAIL I FOUND MYSELF RESTORED TO EXCELLENT HEALTH. I AM ALRIGHT IN EVERY WAY AND CAN'T SAY TOO MUCH IN FAVOR OF THE COPOLAND AND SHEPARD TREATMENT BY MAIL."

W. H. COPOLAND, M. D., Consulting Physician. ROOMS 32 AND 33 NEW YORK LIFE BUILDING, OMAHA, NEB. Office Hours—9 to 11 a. m.; 2 to 5 p. m. Evenings—7 to 9 p. m.
