A CHANCE

to obtain an interest at
CRIFPLE CREEK,
the great

GOLD CAMP OF COLORADO.

Five years ago a cattle pasture, today the
greatest gold-producing district on the American continent. Thousands of people would
like to become interested in these great gold
fields and secure a share of the golden
riches, but cannot afford to spend the time
and money necessary to go there and look up
desirable mining properties.

We are forming a company to operate at Cripple Creek, and can offer those interested a
splendid chance to obtain a share of the
wonderful output of this great gold camp,
without the expenditure of any money for
traveling expenses or taking time from business. The amount required of each one will
be very small and liable to yield enormous
returns. If interested, write during next ten
days.

on hand today. The national bank is seeking to force a retirement of the greenbacks and then monopolize the issue of paper money. The republicans, during the campaign just closed, avoided this subject and refused to declare themselves either for or against the retirement of the greenbacks. But when they come to apply their ideas to legislation, they must disclose their views.

to legislation, they must disclose their views.

A statement issued by the Treasury department near the close of December showed an available cash balance, including gold reserve, of more than \$225,000,000. Of this sum about \$35,000,000 were in greenbacks and about \$35,000,000 in treasury notes. This money is either good or had. If it is of this sum about \$30,000,000 in trensury notes. This money is either good or bad. If it is good it ought to be in circulation among the people instead of locked up in the vaults at Washington. To keep a bulance of \$225,000,000 in the treasury when the money is needed among the people is inexcusable. The only way to get this money out among the people is, first, to have the taxes less than the expenditures, in which case the amount of the deficit being saved to the people in taxes, is virtually paid to them in the proportion in which they pay taxes; and second, to loan it out through banks or other agencies. We have now a surplus of about \$125,000,000 above the reserve. For the fiscal year ending June 30, 1835, the expenditures exceeded the receipts nearly \$43,000,000; for the year 1896, a little more than \$25,000,000.

ple as a whole now save on the greenbacks, REPUBLICANS CRITICISED,
While the republicans have not yet had an opportunity to write their policies upon the statute book, we have proceeded far enough to discover that the mere announcement of republican success does not restore prosperity. If the advocates of free silver had won every bank and business failure would have been attributed to their success and the gold standard mapers would have been loud in their walling. But the republican organs, although compelled to chronicle an increasing number of business failures over the corresponding period

success and the gold standard papers would have been loud in their walling. But the republican organs, although compelled to chronicle an increasing number of business failures over the corresponding period of last year, never connect these failures with republican success.

During the month of November, 1896, seven national banks failed, and in the month of December nine more closed their doors. I find upon examination of statistics that December witnessed the closing of more national banks than were closed in any other month since January 1, 1893, excepting the three months of the panic of that year. One bank announced as the cause of its failure, "hability to realize 6½ per cent upon assets." This notice was a confession of the argument made during the campaign by the advocates of free coinage. We have all along insisted that the gold standard was destroying the value of assets. With money felsing in value and property failing in value, hard times must continue. That this is not due to local causes is evident from the fact that the same complaint comes from other nations. The press dispatches state that the holiday trade in Germany who as a disappointment to the merchants.

It will be the duty of the Jackson club to point out from time to time the effect of republican politics, so that the work of education will extend over four years instead of being crowded into a few campaism months. The members of this club should not be deterred by the charge that they are agitators. The democrats were never afraid to agitate against the Wilson bill; the bankers are now agitating, through their conferences and conventions and through the cross, against our present currency system. Why should those be atlent who believe that the gold standard is ruinous to the masses? This club and similar clubs can also keep before the people the progress which is being made by the trusts. They can secure such state legislation as is possible and bring what influences they can to bear upon those officials who are charged with the enforc

papers.

And I might suggest as another work that the clubs can perform, that they can be prepared to make such a canvass of their respective localities that they will know whether a sudden increase in the vote means that there is usually a large stayat-home vote, or whether it means that all the votes cast are not represented by legal voters. voters.
Chicago is the great metropelis of the Middle West and you who live in Chicago will exert a large influence upon the politics of the states tributary to this city. I reloice that the democracy of Chicago is

BRYAN AT BANQUET TABLE supporting the principles of Jefferson and Jackson and I rejoice that the democrats of this city are determined to continue the fight for democratic principles in the face of all opposition. I bid them godspeed in their work and, as I believe in the ultimate triumph of the right, I can encourage them to believe that their labors will finally be desirable to both sides. Clay Clement as Baron Hohenstauffen, who was here in "The New Dominion" last year, may be seen in that play at the Creigh ton for three nights, commencing Thursday January 14. "The New Dominion" tel's a story as old as love itself, but in a manner more simple and direct, and therefore more natural than it is usually told on the stage.
In Mr. Clement's impersonation of the Baron Hoherstauffen there is never a hint of coarseness nor the slightest deviation from the best methods of cultured artists. In the quarrel scene at the conclusion of the second act, where careful discrimination is est demanded, he is particularly effective. During the coming engagement Mr. Clement will be seen as Matthias in "The Bells."

INTERNAL REVENUE COLLECTIONS. Business of Nebraska Shows a Large

The report of the United States internal revenue office for the district of Nebraska for the quarter ending January 1, 1897, has been completed. The comparison with the same period of 1895 shows a large increase in collections. The figures are as follows:

 Beer
 35,341,72

 Spirits
 49,850,25

 Clears
 14,556,92

 Technique
 2

The increase in the collection on spirits is due to the resumption of operations at the Willow Springs distillery. In the report just made by the collector the item of oleomargarine is omitted. This is due to the fact that the state legislature legisted against the product, which resulted mutilated condition. in the closing of the South Omaha factories.

ALLEN AMENDS HIS MEASURE

Changes the Terms of His Original Exposition Bill.

ASKS SEVENTY-FIVE THOUSAND MORE

Suggestions Made by Secretary Carliste Put in the Form of Amendments by the Nebraska Senntor.

WASHINGTON, Jan. 7 .- (Special Telegram.)—The Transmississippi and Interna-tional Exposition matter received a new im-petus today through Senator Allen, who strikes at the validity of the franchise held introduced a bill amendatory to the act as passed at the last session, changing the amount of appropriation to \$275,000, instead of \$200,000, and also changing the government commission to a board of management. These changes were recommended by the secretary of the treasury in a letter to Senator Allen, somewhat similar in character to the letter written to Representative Mercer. In addition to the amendment of the bill, Senator Allen also introduced an amendment to the sundry civil bill, providing for an appropriation of \$275,000 for the exposition, \$75,000 to be utilized for the erection of a government building at Omaha in 1898, and \$200,000 for transportation and exhibit. Some of the members of the Nebraska delegation feel that, as the bill appropriates a certain amount of money, the securing of the appropriation should rest with the lower house, the business of Nebraska's senators being to see that the amount named be not scaled in the paring process which the senate committee on appropriations is likely to inaugurate. They reason that if the bill appropriating \$275,000 or more passes the house that it would greatly strengthen the possi-bility of the bill being favorably acted upon in the senate. They further say that as the house usually originates appropriation bills, it would seem but proper that the test of strength should first be made there. Every member of the Nebraska delega-

tion, with the exception of Melklejohn, was present during the debate on the funding bill. Senator Thurston was also on the floor of the house during a portion of the discussion. In the gallery was Mr. Alvin W. Krech, secretary of the reorganization committee of the Union Pacific, which has been charged in that way for the present. with largely carrying on the fight for the bill. During the progress of the debate Krech told The Bee that he was hopeful that the bill would pass; failing of which, the committee which he represented would take its chances with the rest of the world to purchase the property upon the best terms possible. At least four different canvasses of the house bave been made on this measvarying from forty majority in favor of the bill, to fifty against.

OPPOSITION GAINS GROUND. While it is outside no mortal can tell how the house will vote on Monday, there is undoubtedly a most pronounced opposition to the bill, which is hammering away on the public sentiment idea and making inroads, out there may be a small majority in favor of the measure when the vote is taken. Senator Aldrich stated tonight that the senate might take up the funding bill next week, and talk on the measure for several days. This, he was urging upon the repubhean steering committee, and not without some show of success. Interest in the bill is very keen and superhuman efforts will be

Should the Thurston Rifles decide to come to the capitol on the occasion of the inauguration. Captain Foy would probably march with his company, in which event another son of

ASKS FOR CHANGE OF VENUE,

New Phase in a Much Littgated Question Concerning the City. If a petition filed in the "water works case" is granted, the question of the validity of the franchise of the Omaha Water company is in a fair way to be passed upon by the United States district court for this district. The petition in question is filed by the Omaha Water company, and asks the case be transferred to the United States court.

alleged that the amount involved in the suit is more than \$2,000 and that the question involved is one between resi-cents of different states, it being alleged that the Omaha Water company is a corpora-tion organized under the laws of another

The most important reason urged as by the defendant company. It is charged that the true inwardness of the case lies, not so much in the application for an injunction restraining the mayor and council from enacting legislation bearing upon the exten-sion of the franchise of the water company, but is really designed to bring into question the validity of the franchise held by the patitioner. On this point it is charged that the plaintiffs and all the defendants except the petitioner, the water company, have in-turests adverse to the interests of the water company and for that reason the question of the validity of the franchise should be de-

termined by itself. The petitioner alleges that it is the owner of the plant and franchise of the old water works company, having acquired both the plant and franchise by purchase under foreclosure proceedings. It is alleged that the lower court has no jurisdiction in such a case and a transfer to the federal court is This matter would have come up for hear-

ing before Judge Keysor yesterday, but the judge was called away by private business and the case will probably be taken up this morning. W. S. Poppleton, at-torney for Guy C. Barton, H. W. Yates, C. W. Lyman and John A. Creighton, the plaintiffs in the case, said yesterday that he did not believe the case would reach the United States court at this time, but would be dismissed by Judge Keysor for the reason that the necessity for a restraining order had passed, the action of the mayor in vetoing the proposed extension of the franchise and the action of the council in sustaining the veto, having rendered further proceedings

Henry Bolln left the accounts of the city, At least one man has been at work on these matters most of the time for months, and the back accounts are gradually being brought into shape. The comptroller has just completed the work of bringing the sinking fund up to date. The task begun way back of the Bolin administration, and for the first time in many years the exact condition of the sinking fund is known. The completed figures show that the fund has been overdrawn exactly \$99,437, of which \$77,000 represents a part of the Bolla defalcation. This overdraft covers a long period of years, and, aside from the amount already mentioned, has been covered up by

NO COMPROMISE ADMISSIBLE.

In my opinion there should be no compromise of the issues involved in the late campaign and no terms short of absolute surrender offered to thoke who have described in the series of the states and not terms short of absolute surrender offered to thoke who have described in the series of the series of the states as that the party and bin it belotting democrats or the republicans. When your blood is pure, rich and nourishing for nerves and muscles. The blood is very seen and superhuman efforts will be more show of success. Interest in the biltry between the some show of success. Interest will be more subject, for the reason, as he alleged, that he had lately "been up the forth to pass the measure this month, thereby doing away with the necessity of the president search to Vice President Stevenson the final ascertainment of votes for presidential electors in the state of Nebraska. Thirty-three states have already certified to electors in the manner prescribed by law, twelve being left to hear from.

Senator Thurston, in addition to the large boyl of pap which he will dispense during the state of the overdraft on the sinking fund and other items are covered up in various ways. It is his opinion that every deltage objected to this, however, on the ground that it was entirely unnecessary, and since the matter is now in the courts, it is not likely that the comptroller will make the change unless he is authorized by the council or legal department. While the finance committee of the old council seemed districlined to push this matter, it is expected that when the new finance committee gets

to work the matter will be taken up. The next job ahead of the comptroller is the adjustment of the interest accounts which are inextricably muddled. The city receives and pays out large amounts of interest each year, but previous to the resent administration there are no accounts that show how this money was received or expended. The money seems to have been mixed with the other city funds, and in order to strike a correct balance it will be ecessary to make a research that will begin thirty years back. The work entailed will be enormous, and unless extra help should be provided, will probably occupy a

large part of the year. Hopes to Reopen the Bank. SIOUX CITY, In., Jan. 7 — (Special Telegram.)-I. C.
