

CONDITION OF OMAHA'S TRADE

Operations in the Jobbing District Show No Material Gain. Counting up the year's failures...

Country Criticism on Omaha Jobbers' Methods of Conducting Business—Government Report on Butter Lading in Nebraska.

The first week in January could hardly be expected to bring about any material improvement in the general trade situation. Sufficient time has not yet elapsed for the effects of the holiday season to wear off...

CALL OMAHA SLOW.

The Superior Journal of recent date represents two business men making comparisons between Omaha and other cities in which it was said that Omaha and Lincoln are in the same class...

NEBRASKA FAILURE.

For the year just closed Nebraska is credited with 182 business failures, the largest number of failures in any of the states in the union in escaping such disasters.

NEBRASKA FAILURE.

According to statistics just issued by the Agricultural Department at Washington the state of Nebraska produced within a period of two years more of the article known as "ladies" butter than any other state in the union in escaping such disasters.

NEBRASKA FAILURE.

The average value of "ladies" butter at Omaha, for all seasons, is not far from 10 cents per pound, which taking the average market figures as a basis, would indicate an annual product of the value of \$40,000. These figures are accurate when taken into consideration that they represent only one branch of the butter business and by no means the most important branch.

NEBRASKA FAILURE.

The production of "ladies" however, is of sufficient importance to merit attention by itself, though the extent of the business is hardly appreciated by the general public. The production of "ladies" however, is of sufficient importance to merit attention by itself, though the extent of the business is hardly appreciated by the general public.

NEBRASKA FAILURE.

These are large oak tubs or barrels, with light covers and strong handles. They are shipped back to the factory when filled at the store.

STOCKS AND BONDS.

Money Seeking Investment. NEW YORK, Jan. 9.—The stock market today was dull, and so far as the usually prominent features were concerned, the fluctuations were not very marked.

STOCKS AND BONDS.

Chicago, Jan. 9.—Wheat today recovered about 3/4 cent what it lost Friday, due almost entirely to the advance at Liverpool, which was totally unexpected.
