Corn and Onts Hold Stendy, Bad Weather Preventing Any Material Advance-Provisions Are Strong and Close Higher.

CHICA,GO Jan. 20 .- Wheat was helped today by the good cash business here and at St. Louis, and closed at a %c advance, after wobbling about nervously all through the session, Bad weather kept corn and cats steady, the former closing at a slight advance. Provisions were strong and in closed from 21gc to 19c higher.

In wheat, Liverpool was again the facin wheat, interpose tor at the opening. That market opened ight lower, which was not at all commen-ight lower, which was not at all commensurate with yesterday's local decline, and cables showed this loss recovered. May wheat here started a shade firmer than it closed yesterday. The opening business was at from 79% to 79% c, and before it sold below the lower of these prices it brought %c more than the highest. It then gradually declined again to 79%c, and even to 79%c for a few seconds. Later, under the influence of what appeared to be from the St. Louis big demand for each wheat there and the quantity sold yesterday afternoon at the same place, the price had a sudden rise to soise before the

price had a sudden rise to 80% before the scilers again outnumbered the buyers. The first decline after the comparative strength at the start was owing to reports of a renewal of yesterday's weakness at the local stock exchange. The chief hiterest centered around the amount of wheat sold at St. Louis to go to southern millers. The last report concerning it was that during yesterday's session 60,000 bu, were sold, and before the close of the session 250,000 bu, more. In addition, 16,000 bu, were sold today, making a total of 420,000 bu, and it was reported all of it was to millers in the south. Chicago also did a good cash bustness, two prominent brokers reporting sales of 125,000 bu. Chicago re-ceipts were twenty-nine cars, against sevreparting sales of 125,009 bit. Chicago re-cepts were twenty-nine cars, against sev-enty last year. Northwest receipts were also small, Minneapolis reporting 155 cars and Duith fifty-seven cars, a total of 212, compared with 213 last week and 265 last year. The closing public cablegrams did not differ materially from those received earlier in the day. Virginia and Georgia millers were making inquiries in Minne-

Oats held firm early in sympathy with wheat, and with some country, buying. Heavy offerings of the short contingent caused some decline, which was recovered later, when covering set in. Trading was confined entirely to scalping. May opened a shade higher at 18%c, sold 1-5c higher, declined to 17%c, and closed at from 18c to 18%c bid. In provisions, the smaller receipts of

bisse bid.
In provisions, the similar receipts of hogs than expected caused a firm open-fing at some improvement in prices. There was a good foreign inquiry, and, although the market was extremely dull, it received enough support to advance prices still more. At the close May park was about 19c higher at \$4.92%; May lard, about 2% higher at \$4.12% or Thursday; Wheat, 20 cars; corns, 215 cars; hogs, 40,006 head.

STOCKS AND BONDS.

Volume of Business Falls Off and Prices Tend Downward. NEW YORK, Jan. 20.-There was a further de-ided shrinkage in the volume of business in stocks today, and prices worked toward a lower evel, chiefly as a result of bear aggression. Speculation for a rise was discourager at the outset by a reaction in the London prices of

level, chiefdy as a result of bear aggression. Speculation for a rise was flucourager at the outset by a reaction in the London prices of American securities and the indeposition of com-mission house clients to trade left the field comparatively clear for the bear professionals and room operators. Selling by houses, with washington connections, was somewhat of a feature, and the specialties, as usual, in a nar-row market, scored the wildest fluctuations in prices. The industrials, as a group, overshad-owed the raliway shares in point of activity, but generally speaking, the distribution of the deal-ings was not up to the recent average. Sugar was market, scored the wildest fluctuations in prices, and the property was the formal an-ence of the Woolson Spice company to the peti-tion of the Arbuckie interest for a receiver, dupines of the general market, was relieved by one or two special movements, one in lilinois steel and another in Susquehanna & Western preferred.
