The older boys and about half of the total umber were up and at breakfast in the dining hall. Many of the younger were still singing and other exercises before the sewing in bed and asleep when the fire was discovered. The first thing that was done after the fire alarm had been given was to get the little fellows out of the building and in warm quarters in other buildings. A singularly unfortunate feature of the calamity is the fact that the insurance expired just seven days ago. Manager Lemen has always carried insurance on every building in the group, and a risk of \$3,000 was placed on this three years ago in the Amerplaced on this three years ago in the Aller-ican Fire Insurance company of New York City by its agents in this city, Day & Hess. A peculiar combination of circum-stances caused their bookkeeper to overlook the boxes have been kept in working order as long as they have. The police call apparatus connected with each box has given no end of trouble and is frequently out of and when Mr. Lemen, according to his custom, asked Day & Hees to renew all risks expiring in January, two new policies were sent down to him. They were received by his son, and when Mr. Lemen inquired if they had arrived was informed they had. Mr. Day congratulated Mr. Lemen at noon upon the fact that the loss was partially covered by insurance. An hour later he made the discovery that the policy had

lapsed.

To meet the exigencies of the case the boys' dormitory was moved to the chapel, which is a very comfortable building. The destruction of the building and the enforced use of the chapel leaves no place where the home school can meet.

fighting the fire, and some of them were highting the fire, and some of them were badly frozen. Chief Templeton had all the fingers on each hand badly nipped. They were swollen and very painful last evening. Captain Autry and Charley Conley were also sufferers. Four sections of hose were filled solidly with ice and one burst.

Frost in Water Pipes.

Freezing gas and water pipes caused no end of trouble yesterday and last night. Plumbers and gas men were wholly unable to respond to all of the calls made upon them. The frest seemed to penetrate the earth with unexampled rapidity and to a greater depth than for many years previous. Many people who considered their water pipes to be frost proof are lamenting this morning that they had not been better protected. The earth was found to be frozen to a depth of two and one-half feet where water pipes were dug up yesterday. The intensity of the cold and the nakedness of the earth give promise of increased trouble. Apprehension is not allayed by the tales of the old inhabitants. In a reminiscent n-ood yesterday one of them recalled a winter that he declared was an ex-act counterpart of this when the earth was frozen to a depth of eight feet.

Congressman Mercer reasons that the pe pound duty, as suggested by Mr. Hainer, is in the nature of an ad valorem duty as this work has been to the poor children of council Bluffs, and the interest that has been the principle of the republican party, been taken in it by many representative. He is in favor of a duty upon the head, and uses very much the same argument tha Hainer does in declaring for the pound duty Some interests in the west are urging upo the ways and means committee no ance the present rate, while others believe that in laying a pound duty upon cattle from the border states of Mexico they would be fostering an industry which is destined to he productive of magnificent results within a very few years, and the feed now raised by the farmers of Nebraska, Kanags, Iowa and Colorado will go into the making of cattle for eastern markets.

SUGAR FACTORY FOR VERMILLION

Carl Gunderson Moving for a Branch of the Norfork Mill. VERMILLION, S. D., Jan. 24.—(Special.)— No doubt before many months there will be a sugar beet factory located somewhere in the Missouri valley, between Elk Point and Yankton. For some time parties interested in the refinery at Norfolk, Neb. have had this country in view as a favorable place for a branch factory from that situated at Norfolk. The bottom land between these two cities certainly offers rich inducement for an enterprise of that na-

Among the business men of Vermillion who are interested in the scheme is Senator Carl Gunderson. He is planning to go with several other business men to Norfolk, Neb., to secure data from the factory at that city. The senator owns a valuable farm of several hundred acres of land near the city, mostly on the bottom land, which would be greatly enhanced with a sugar refinery nearly.

It is estimated that a factory equipped for the care of 6 000 acves of land would cost \$40,000. A profit of \$30, net, per acre is estimated to be the average the beet grow-ers make at Norfolk. There are several business men in the city who would be willing to invest money in an enterprise of this kind. In fact, Senator Gunderson thinks that the whole refinery plant could be built and operated by home capital.

NICARAGUA BLOCKS THE WAY

Senate Expects to Take Up the Bankruptcy Bill Early in the Week.

CUBAN DEBATE PROBABLE FOR MONDAY

His Monetary Conference Bill Tomorrow and Appearances

Favor Its Early Passage.

WASHINGTON, Jan. 24 .- The senate pro gram this week is rendered very uncertain by the condition of the Nicaraguan bill. With that measure out of the way the bankruptcy bill probably will be given the right of way early in the week, but even with the road cleared to the extent of the removal of the Nicaragua bill it is not probable any headway would be made with the bankruptcy bill before Wednesday, notwithstanding it is the special order for Monday. The time of the senate after 3 o'clock Monday will be devoted to eulogies upon the late Speaker Crisp | no matter by what path it may come. and the time previous to that hour after the disposal of the routine morning business will be consumed by Senator Turple in a speech discussing the Cameron resolution. The ings. speech may be broken in upon at 2 o'clock by a contention for precedence between the friends of the Nicaragua bill and the sup porters of the bankruptcy bill, but if so it is likely that the contest will be postponed to more conversient season.

It is known that Senator Turple will take advanced ground favorable to Cuban recognition, and it is hinted that he will take occasion to criticise Mr. Olney's position sharply. Tuesday Senator Chandler expects to se cure a vote on his bill providing for the rep-resentation of this country at an international monetary conference. There will b several short spetches and more or less run-ning debate on this measure, but it is believed all substitutes and amendments will be voted down and the bill passed before the day set for its consideration. Senator Cameron has a substitute requiring this govern-ment to take the initiative in calling a conference, which may give the movers of the original bill more or less trouble. The bankruptcy bill will be debated at considerable length when reported, though Senator George, its especial champion, as

Senator Morgan will make a scientists of cit to prevent the Nicaragua canal bill from losing its place as the finished business on the calendar, and it is understood will submit amendments which will meet the demands of those who hold that the bill remands of those will not that the bill quires further work by the committee in view of the new position of Nicaragua, as developed by Senor Roderiguez's letter. The senator will take the stand that the bill should be amended in the senate if not satisfactory, and that it should then be voted upon and sent back to the committee. Senator-elect Kenney of Delaware may pre-

sent his credentials during the week, but not until after the committee on privileges and elections, which is to meet Thursday, shall have passed upon the Dupont petition and the Addicks credentials.

IMMIGRATION BILL FOR THE HOUSE. Fight Promised, but the Measure is

Likely to He Passed. WASHINGTON, Jan. 24.—The most interesting feature of the house program for the coming week, unless the Nicaragua canal bill should be taken up, which, in view o late developments, seems hardly probable will be the fight against the conference reand established a paper. In 1883 he was offered and accepted an editorial position upon the St. Louis Globe-Democrat.

CHICAGO, Jan. 21.—Mrs. Cassandra
Locke, aged 71 years of age, widow of
Joseph H. Locke, a former well known busigration bill in the house is, as shown by the votes on previous occasions, in a strong majority. Nevertheless, Mr. Bartholdt pro-poses to do all in his power to defeat the conference report. Two appropriation bills agricultural and Indian, will probably con-sume the remainder of the week. There are some features of both bills which may cause considerable debate. Such time as an be spared will be given to the

promptly as though the dairy were located but a mile from the city. Mr. Wheeler has shipped a car of machinery to the new farm, and will take personal charge of affairs at once. He has ample funds to ensure the auccess of the enterprise.

Organize to Educate the Race. CHICAGO, Jan. 24.—A number of promi-nent colored people of this city and state nent colored people of this city and state today organized "The Civic League of the State of Illinois." The object of the league is to get the moral support of the north to enable the league to educate its kindred in the south and endeavor to get trades unions to raise the bar they have placed against the admission of colored men. The league expects to make the members of their race respected by the white people in the communities in which they live.

The Ones Who Are Marching Toward Death and Do Not Realise It. The official returns of the City of New York show that more than one-third of all deaths are from consumption, pneumonia or grip. When we stop to calmly think over this fact it seems really awful. And yet every case, without exception, started from small beginnings. A cough in the morning Senator Chandler Intends to Press tickling in the threat; a thick, phicgmy discharge; chilliness at night; difficult breathing; a tightness across the chest; these and many more symptoms indicate the presence of that terrible disease which, unless checked means certain death, with long, painful
