WOOL SALES CONTINUE LARGE

# Thirteen Million Pounds Have Changed Hands the Past Week.

BOSTON, Mass., Jan. 27 .- The American Woo and Cotton Reporter will say tomorrow: "The wool market has been in the sellers' favor the past week, the very reverse of the state of affairs a short time before. The Bonton market has witnessed a most unwonted activity, the fairs a short time before. The Boston market has witnessed a most unwonted activity, the sales aggregating nearly 12.660.000 pounds, and there are rumored sales of fully 2.000.600 more. The movement was almost entirely speculative. The demand has been from the large mills. A ringle mill is reported to have bought 2.000.600 pounds in the last week. The recent sales do not indicate any actual advance in the market week that was refused a few weeks ago is now heng picked up at the figures then current. Pleaces are less active than a week ago, dealers being dispersed to hold for higher prices. Sales of territory have been heavy, considerable more being done in clothing wools than previously. Liberal sales of Australian and greasy Capes are reported also. Sales for the week in Boston. New York and Philadelphia aggregate 36.547,600 pounds, as compared with 26.764,960 during the like period of hust year. New YORK Jan. 27.-WOOL-Quiet. St. Louis General Markets.

MADE IVE A MAN ANA TABLETS POSITIVELY CURB ANA TABLETS POSITIVE Chief Clerk Vandervoort of the railway mail service is pleased with the new traffic arrangement between the Burlington and Union Pacific roads whereby the former runs its through trains over the bridge at this city. He says this will enable the government to transfer its mail at the government to transfer its mail at the Union Pacific transfer, which is more con-venient and satisfactory than transferring it at the depot in Omaha for the facilities are so much better. He says he can trans-fer mail at the Union Pacific transfer quicker than at any point in the country, for the tracks there were built largely with the tracks there were built largely with

the importance of that work in view, and the mail cars can be exitched side by side, dispensing entirely with trucks and vans. Small Railroad Ordered Sold.
