During the past year over 5.000 members' dropped out, which crippled the company so that it could not pay its losses.

crippled the company so that it could not pay its losses. LA PORTE, Ind., Feb. 11.—William D. English has been appointed receiver for the Central Bell Telophans company of Vene-zuela. This company was organized in 1894 by W. L. and C. E. Russel of this city, with a capital stock of \$400,000. Lieutenant Gov-ernor Nye was elected vice president and the stock was sold to Chicago capitalists. The appointment of a receiver is the outgrowth of the kidnaping case which caused a sen-wation here recently. 18

Introduced in Wyoming. CHEYENNE, Wyo., Feb. 11.-(Special.)-In the legislature Mr. Cottle introduced a bill appropriating \$4,000 for the purpose of paying a deficiency arising from the cost of maintaining the Wyoming general hospital

been acquired by purchase. " Stock yards have but two fixel charges, and if the catrons of the yard see fit to incur either or both of them, this matter, rests entirely with themselves; whilst, on the other hand all of the facilities are at the services of the patrons, without any, expense to them whatever, unless the condition of the market is such that patrons may realize a benefit by disposing of their stock, thereby incurring the charge of the stock yards company. If the owner of the stock rhould elect not to place the same on sale, but desires that it shall be reshipped to some other mar-ket, he files a notice at the office of the stock yards company, with its experienced men, takes this stock from the pen, drives it to the loading chutes, and the railroad department having secured the necessary empty cars, reloads the same and delivers whatever to the owner. The stock yards commany not only perform all of the serv-ice free of charge, so far as the owner of the stock is concerned, but it also ak-sumes all liability for damage or loss of stock, and furnisoes all the water re-guired free of charge. stock, and furnises all the water re-quired free of charge. WHAT THE YARDS DO. If, while the stock is in the yards, the market price on this kind of stock appears satisfactory, and the owner places the same on the market to be sold, hay or rain in any quantity desired will be fur-nished and fed to the stock, and after a sale has been consummated, the stock is weighed and a certificate as to the correctness of the weight is given to both the seller and the buyer, of which a record is made on the books of the company. These two charges, that is, for weighing and for food, are the only charges made by the stock yards company, and cover the expenses incurred by the stock yards company for the successful handling and disposition of live stock; and these ex-penses, whilst they are numerous, covering the cost of hay, corn or oats, must pay the expense of weighing live stock; all the cost of construction and repairs, for water taxes, fuel, electric lights (for the business of the company is carried on day and nisht), tools lost, and injured stock, and this last item is considerable each year; cleaning yards; salaries of over 300 men, contingent expenses, such as in-surance, books, stationery, printing, sal-aries of officers and agents, clerical force and police and fire departments; all of these expenses are incurred for the main-surance, but hy large expenditures of money they have built up in our state not money they have built up in our state not money they have built up in our state not money they have assisted in the construction of four large packing houses, thereby mak-ing a market where the farmer of this state can find a ready sale for all kinds of live stock, thereby creating a home market are the doors of the producer.
