John Ledwick Gets After the Sheriff Who Attnehed the Goods at the Suit of Stewart Bros. Last Summer.

A suit to recover possession of a bill of greceries held the attention of Judge Thornell in the district court yesterday. The suit was brought by John Ledwick against Sheriff Morgan, who held the goods under a writ of attachment sued out by Stewart Bros. Last summer T. J. Ledwick was conducting a small grocery at Avoca, purchasing goods largely from Stewart Bros. of Council Bluffs. He closed up his store and goods arrived in Council Bluffs Stewart Bres, attached them to satisfy an unsecured claim. John Ledwick, the father of T. BRADSTREET'S WEEKLY REVIEW. Rail Sale on Collapse of Steel Pool the Principal Feature.

NEW YORK, Feb. 11.-Bradstreets Sat The more favorable features of the business week include sales of 20,000 tons of steel rails on the collapse of the pool, which

ness week include sales of 200,000 tons of steel rails on the collapse of the pool, which promise work to the mills for months to come; the advance in the price of print cloths, following the sale of 730,000 pleces from accumulated stocks, and the starting up of a number of important metal and other industries throughout the castern and middle states. The recent reduction in the price of steel billets of \$5 a ton, while rails were reduced only \$3, fore-shadowed another cut in rail prices or the breaking up of the pool. The latter finds prices from \$5 to \$9 lower than last week. One effect will be to stimulate exports of rails, demand for ore, and consumption of iron and steel generally. There is a moderate increase in demand for pig iron at Pittsburg, and purchases have been made by \$t. Louis stove makers. Considerable activity is reported in hemlock leather, for which the price is higher, and American purchases of wool at the late London sale amounted to \$6,000 bales, the heaviest total at any one such sale since the speculative buying there by Americans prior to the going into effect of the McKinley tariff. The movement of prices is, on the whole, favorable.

The movement of prices is, on the whole, favorable.

Exports of wheat (flour included as wheat) from both coasts of the United States and from St. John, N. B., amount to 2.051,345 bushels from February 5 to February 10, inclusive (the week being one day short), as compared with 3.168,000 bushels last week, 2.718,000 bushels in the week a year ago, 2.582,000 bushels in the week two years ago, 2.005,000 three years ago, and as contrasted with 3.080,000 bushels in the corresponding week of 1893. Exports of Indian corn during the same period show a very large gain, amounting to 4.169,274 bushels, as compared with 3.658,000 bushels last week, 3.143,000 bushels in the week a year ago, 562,000 bushels in the week two years ago, 1,520,000 bushels. in the week a year ago, 562.0.0 bushels in the week two years ago, 1,520,000 bushels three years ago, and as contrasted with 712,000 bushels in the corresponding week of 1893.

Bradstreet's Wall Street Review. NEW YORK, Feb. II.-Bradstreet's review of the New York-stock market will on

view of the New York stock market will on Saturday say:

No difficulty could be found in describing the course of this week's market. The activity was entirely professional, and took the form of a bear movement in the industrials. The coal stocks were also unsteady under the same kind of pressure, but the general railroad share list was firm, and at intervals showed more or less strength, while the bond market has been very well held with symptoms of public and foreign buying in a number of the speculative Issues. The principal incidents of the week were connected with the investigations of industrial trusts and monopolies by a committee of the New York legislature, causing a stop to buying support and liquidation of speculative holdings.

The firmness of the railroad share list and the strength of bonds in the face of the break in the industrials was a subject of general remark. There was considerable European buying of certain classes of bonds, particularly the Northern Pacific and Atchison issues. The market is bare of really high grade investments, and this, with the higher prices they command, has turned to inquiry toward the more speculative classes. Europe did nothing in our stocks. Speculation in London has been duil and depressed on the fears of future compilications in the east. The weakness of coal stocks is the result of continued duliness in that trade. It would seem that competition by 'ow priced bituminous is hurting the market for anthracite. Saturday say:

At previous meetings the details had been

worked out. The proposed new order is to styled the Western Bohemian brother-od. Its territory will be Wisconsin and the entire country west of the Mississippi river. It will have the graded assessment certificates which the existing order issues No losses will be paid on cases of suicide There will be a grand medical examiner who will not be require to take out insurance, will be admitted. these are innovations on the present condi-

Yesterday's meeting had therefore nothing to do but to arrange the details for carry ing out these changes and starting the proposed new order if it was found necessary. This was accomplished satisfactorily. An executive committee was appointed to perform these duties. It was selected as follows: Joseph Zbanek of Cedar Rapids president; Alois Blaha of Cedar Rapids, secretary: A Breuer of New Prague Minn.

This committee is charged with drawing up a new ritual, forming a constitution and by-laws and preparing articles of incorporation for the new society. These duties must be performed by July 1. The supreme lodge is given until that time to comply with demand of the seceding delegates. If this demand is not complied with then the mittee will become the official board of the grand lodge of the proposed new order. The articles of incorporation will be filed and the lodges west of the Mississippi will find themselves in a new order.

The lodges in the territory will select the date, but it is provided that a meeting must be held within a year after July 1 of this

A large beet sugar and glucose factory A large beet sugar and glucose factory is to be built in South Omaha within a short odist church this evening on "Lincoln." The Sons of Veterans will attend the lecture business man and taxpayer. The scheme has in a body, been developing for some time and has within the last few days taken definite shape. Money for the erection of buildings and the purchase of machinery will come from a number of wealthy Omaha men and some eastern capitalists. Beet sugar will be man-ufactured in season and glucose will be

Lumber company's yards. It has not yet been decided which block the buildings will be erected upon, but possibly upon both. This new company has also secured control of a vast tract of land west and north of Thirty-sixth and F streets, where sugar beets will be raised. Machinery en-tirely different from that now in use at the sugar beet factories at Norfolk and Grand Island will be put in. By this improved machinery the sugar will be refined after mittee. The farms of the company are to be cultivated according to the latest methods and under the direction of men who have made beet culture a study. Several hundred men will be given employment in the building of the factories and the laying out of the farms, as well as after the manufacture of sugar and glucose is commenced.

In connection with the factory there will be a great cattle feeding department, the cattle being fed the residue of the bects. This feed it is claimed fattens cattle quickly and thus the business of purchasing feeder The bill went to the cattle at the stock yards will be consider ably increased. Arrangements are being made to commence operations as soon as possible in the spring Dossible in the spring.

It was learned in Omaha yesterday that the officers of the South Omaha Land company will within a short time take steps to eject the squatters which now have shantles on the land to be used by the new factory

The site for the factory buildings is on the line of the railroads running through the city and switches are now laid within a short distance of the property. It is understood that altogether the factories and farms will octupy several hundred acres, nearly if not all of the tracts being inside the city

A big industry like this will mean much to South Omaha and no doubt some of the unemployed will be able to obtain Possibly a number of cottages will be on the hill in the vicinity of Thirty-aixth and children who will be employed to take care of the beet farms.

Those interested in the new industry have been keeping the matter quiet until all of

the arrangements have been completed and all the ground necessary secured. All of the land to be used is either owned company.

Lively Hustling for Votes

The mass meeting of women to select two members of the Board of Women Managers of the Transmississippi Exposition will be held at the Young Men's Christian association parlors Saturday afternoon Ever since the call for the meeting was made public there has been all kinds of hustling for votes, some of the candidates even making a house to house canvass. Mrs. E. B. Towle has a number of friends in the Woman's club of Omaha who would like to see her on the Board of Managers, and with this idea in view have made several trips to this city and assisted electioneering. Some of the other candi-dates rather took exceptions to this and asserted that the women of South Omaha were able to select members for the board without any assistance from the Omaha

Woman's club Several of the school teachers would have liked to have participated in the fight, but refrained for fear of losing their positions. It appears that some of the teachers were given a tip to keep their hands off and as they did not care to make enemies they have done so.

To all appearances the First ward women

First ward is making a hard fight for the place and her friends are doing all they can to help her. Mrs. W. S. White is the choice of some women, but she is not trav-eling about soliciting votes. Mrs. White has lived in Nebraska for a good many years has already made quite a reputatio for herself by her literary work, and her friends assert that she would be woman for the place. Ars.
