Totals ..... The above tabulated statement shows the total appropriations for each board and institution, as agreed to by the house. It will be noticed that one of the largest items of saving has been made in the amount appropriated for the maintenance of the convicts in the state penitentiary. The saving is made possible by the new system of managing the state penitentlary. The money derived from leasing the labor of the convicts is now applied toward their maintenance.

FIGHT THE FISH COMMISSION.

A determined effort was made to strike out the entire appropriation for the State Fish commission. At first the motion, which was made by Wright of Nuckolls, was looked upon as a joke, but there proved to be a most determined effort to do away with the commission by refusing the appropria-tion for its support. Wooster of Merrick led the opposition, he declaring that it would be a good policy to let the fish remain where they are in the hatcheries and "hatch by themselves" for two years. Young of Cass and Shull of Nemaha supported the efforts of Wright and Wooster. On the other hand Roberts of Douglas warmly defended the fish commission and when the vote was counted the appropriation was agreed to by a large majority. The house also voted to strike out the ap-

propriation for the Visiting Board for the Soldiers' Homes.

Toward the close of the session Wimberley of Lancaster moved that an item of \$1,000 be inserted for the State Library board. Dobson of Filimore moved as an amend-ment that \$1,000 be appropriated for the State Farmers' alliance. On a viva voce vote Dobson's amendment was declared carried, but on division it was lost. The re-publicans voted solidly for the proposition, while it was opposed by all the fusionists except Dobson, Grandstaff and Eager. Wim-

berley's motion was also lost. The bill, as it was finally agreed to, carried the following miscellaneous items: Revenue books and blanks, \$8,000; abstract of lands from United States land office, \$1,000; advertising proposals for state print-ing, \$300; prosecuting unauthorized companies or their agents, \$500; laws, journals and other printing required under contract. \$12,500; support of State Board of Agricul-ture, \$1,000; support of State Board of Horticulture, \$2,000; refunding state taxes illegally levied, \$1,000; county treasurers Hiegally levied, \$1,000; county treasurers' fees and mileage for collecting state taxes, \$100,000; fugitives from justice, officers' fees, etc., \$30,000; support of State Poultry asso-ciation, \$2,000; support of Nebraska Dairy-men's association, \$2,000; for State Board of Health, \$200; total, \$163,500. The only business transacted by the house, aside from the scored approximities bill

aside from the general appropriation bill, was the action taken early in the morning session in refusing by a vote of 45 to 46 to order to a third reading the bill appropriating \$20,000 for additional buildings for the state experiment farm. The bill went to the general file. No attempt was made to hold a night session, as a fusion caucus was on the program and the house, therefore, aded until tomorrow morning.

## ADVANCES THE EXPOSITION BILL.

Senate Gives Transmississippi Appro-printion Measure Right-of-Way. LINCOLN, March 11.-(Special Telegram.) -The senate this morning, by unanimous consent, advanced the Transmississippi Fxposition bill to the head of the general flie. It therefore stands third on the list of bills which will be considered in turn. The Lin-coin charter and the treasury vault bills, both special orders for today, will doubtless be completed by tonight or by tomorrow

135,700 salary for superintendents of the state in-stitutions correspond with the amounts fixed by the bills reducing the salaries al-ready passed by the house. It was also de-clided to appropriate \$45,000 to reimburse to \$5,400 the university fund for the shrinkage of in-terest occasioned by the depreciation of the assessed valuation of the state. 71,670 79,450

#### SHREDDED CORN FOR STOCK FEED

Formers of South Dakota Consider it Preferable to Anything Else. VERMILLION, S. D., March 11 .- (Special.) -A great deal of corn shredding is being done in this county, as this kind of fodder is considered by some farmers far more preferable than any other kind for stock case wherein A. B. Olson of Kansas City sues feed. It is estimated that there is as much feed in a ton of shredded fodder as in a ton and a half of whole fodder. The corn stalks are so torn to pieces that there is hardly any traces of the stalks visible. After it is passed through the shredder it is put into a light room and there it is sprinkled with salt so there is little danger of spolling. The most improved machines husk the corn before it goes to the shredder. The corn is hauled from the shock to the shredder and is "fed" as wheat to a separator From 3,000 to 5,000 bushels of corn can be

given. It was then appealed to the court of appeals at St. Louis. The matter has attracted some attention throughout the counshredded in a day. Crawford's Appointment a Surprise try. The manufacture of the popper will soon HURON, S. D., March 11 .- (Special.)-The

Dakota, Wiscons and lowa Covered with the Beautiful\_Fearful of Flood at St. Paul.

Breaks Locse.

ST. PAUL, Minn., March 11 .- It has snowed furiously all day in St. Paul, several inches being added to the tremendous pile already on the ground. The cars of the stand storms street railway are moving with great difficulty and the steam railway lines are in a state of demoralization. At several points north and west of St. Paul trains are wholly abandoned and little effort is being made to move rolling stock on branch lines. So certain is it that there will be a big flood when the snow disappears that residents on the lowlands are beginning to prepare for it. The present storm, extending over the entire Mississippi valley, in the shape of either rain or snow, will further handlcap rallway traffic. The railroads that had not yet succeeded in getting all their branches opened for travel are again set back in their work. Before the present storm came floods were predicted in the Red river valley and towns were reported suffering from want of coal

and provisions on account of the lack of railroad communications. The storm has prevailed all day throughout South Dakota, Minnesota, Iowa and Wisconsin, many places reporting a full-fledged blizzard, and all telling of heavy snow, the lightest fall being three or four inches. It has drifted generally and there are many delayed or blockaded trains, while in the Twin Cities the street rallway service is demoralized. Gettysburg and other South Dakota towns report a fuel famine. Fears of great damage from spring floods are increasing. In this immediate vi-cinity there has been a snowfall of five feet during the winter, while the Red river valley has had over six feet. Much this is still on the ground and it is feared attested the excellence of an extensive prothat it will go off with a heavy flood

farmers are also anticipating ground too wet ST. CLOUD, Minn., March 11 .- The great snow is drifting and a general blockade will be the result. All trains from the west are late. All trains on the Little Falls & Dakota line have been abandened and the cuts be-tween here and Morris are full of snow. Business is suspended.

ABERDEEN, March 11 .- A blizzard of re markably light and fine snow started about midnight and has held full sway over this entire section today. The Milwaukee road had just opened? its south line and now has several freight trains buried in drifts be-tween this city, and Mitchell. One train was described near Warner station, the trainmen walking through to this city. There is a probability that the storm and accompanying blockade will the you he road for another work veek.
