Wheat Drops Nearly Two Cents on a Disappointing Crop Report.

BULLS LOSE HOPE OF RULING THE MARKET

Cold Wave Caused a Slight Rally for a Few Minutes, but Bears Pounded Persistently - Corn and Onts Are Strong.

CHICAGO, March H .- Wheat closed very weak today at a decline of 1%c. Disappoint-ment over the reception given to the government figures on crop reserve made a weak opening and the market was pounded hard and persistently all day. Corn and oats were surprisingly strong. Corn closed unchanged and oats showed only a triffing de-cline. Provisions closed 21465c cligher.

Wheat opened weak, although at substan-tially yesterday's closing price. The government report of the quantity of wheat in farmers' hands March I was treated by the trade at home and abroad with their usual contempt for governmental agricultural statistics. Although the quantity on farms was estimated at only \$8,000,000 bu., the speculators were free sellers of May at the opening at from fuge down to 74½c, and before buyers enough could be found to absorb the quantity for sale it and declined to 73½ 673½c. The market then took on a better tone on a reported decline in consols and predictions of a cold wave in the southwest, where such a thing following the rains would do considerable damage. The buying was sufficient to cause a reaction to a shade above 74½c, or the point the market closed at yesterday. Then it turned weak again. There was no apparent reason for it, but liquidation on a large scale commenced and continued for the rest of the session. The market yielded slowly for a while, but when it once again got below 74c for May if went bumping down one-sixteenth steps with a good deal more rapidity and landed at 73½ 673½c about 12.15 p. m. Some of the lines held by the thick and thin bulls went into the ravenous paws of the bears, when the price turned under 74c. As far as domestic news was concerned it was bearish, but not enough so to cause such a break. Chicago receipts were sold here to domestic milers. The market was under bear control to the end, the broken-hearted bulls having abandoned hope. After a long struggle around 73c the price broke in the last ten minutes of the session to 72½6.72%c, and it closed without rallying from that.

Corn held up femarkably well in great contrast to its action yesterday. Prices held subbornly even when wheat was in an alwas estimated at only \$8,000,000 bu., the speculators were free sellers of May at the

STOCKS AND BONDS.

Very Little Business. NEW YORK, March 11.—Today's stock market vas remarkable for its firmness of tone, in face the exception of a slight awakening to animation dormant. The volume of the dealings was not only small, but was distributed very meagerly, a few leading shares absorbing all but a small portion of the trading. There are about 250 shares whose prices are quoted and transactions in which are recorded on the Stock exchange. Of this number there were only fifty four in which there was dealings in full share lets today. The total number of shares sold amounted to less than 50,000, and over 80,000 of these were shares of fifteen leading stocks. In view of the very favorable condition on the foreign exchanges today and the subsidence of uneasiness lest the Cretan question should embroil the powers, it is necessary to look for some other explanation of today's stagnation than a European war scare. There are doubtless several causes still operating to restrain speculation, the most potent being the caulious conservatism born of a long period of reverse and depression. There is also a disposition to wait for the assembling of the new congress in extra session and for it to manifest its character and intentions. There is a feeling in Wall street that the extra session may prove to be long drawn out and the senators' attitude toward a tariff bill is felt to be an uncertain quantity. Manhattan was the leader of the market today and showed decided strength, which was probably due to coverings, Quite a large short interest has recently been formed in this stock, probably on the theory that the reduction of the dividend of 4 per cent was bound to result in the fall of prices. The fall proved inconsiderable and the shorts have been seeking cover today. The price ross 2% per cent to 85%, which was about the level before the announcement of the reduction of the dividend. The Vanderbilts were somewhat in good demand, Omaha advancing 1½ per cent and Lake Shore 5, per cent, Sugar gained a point in the face of Washington advices indicating a probable reduction of the sapie and rumors of large stocks of raw sugar in the hands of the company, which will be increased in value by cont dormant. The volume of the dealings was not

hope. After a long struggle around set the session to 72\(\frac{1}{2}\)\(\frac{1}\)\(\frac{1}{2}\)\(\frac{1}\)\(\frac{1}{2}\)\(\frac{1}\)\(\frac{1}{2}\)\(\frac{1}\)\(\frac{1}{2}\)\(\frac{1}\)\(\frac{1}\)\(\frac{1}\)\(\frac{1}\)\(\frac{1}\)\(\frac{1}\)\(\frac{1}\)\(\frac{1}\)\(\frac{1}\)\(\frac{1}\)\(\frac{1}\)\(\frac{1}\)\(\frac{1}\)\

FIRE CONSUMES TWO ELEVATORS Two Schooners Alongside Burned and a Malt House Damaged.

BUFFALO, March 11.-The Ryan elevator. at the foot of Ferry street, was burned early today. It was an old structure with a capacity of about 140,000 bushels, and contained last night about 6,000 bushels each of wheat and oats. The loss on elevator is probably \$50,000, and on contents \$10,000. Ryan & Clark were the owners. Alongside the stationary elevator was a floating elevator, also owned by Ryan & Clark, and valued at \$40,000. This, too, was destroyed. The fire reached the Manning maithouse, where it caught in the cupola. It burned that part of the building and scorched the roof, but was extinguished before much of the grain in the building was wet by the water turned on the blaze. Two schooners, the Thomas Robie and the A. J. Rogers, lying at the end of the elevator, were also burned. This makes the total less from the entire fire probably \$125,000.

The market has shown but little weakness in on ordinary grades, but bought anything at all desirable freely and at about steady prices, the trade ruling fairly active, with the pens being emptiled in good season. Quite a string of cattle sold above \$4.00.

With \$4.80 for a top for some very well bred and finished 1,512-pound beeves.

The market for butchers' stock was monotonously like yesterday's. There were rot more than six or eight loads of cows and heifers in sight, and these were largely on the medium order. It only took a short time to exhaust the supply at full steady prices all around, and what few bulls and veal caives were here also sold readily at unchanged prices.

Trade was active again in the feeder division, and the moderate supply in first hands was soon disposed of at fully late quality and the second ductor.

JOSEPH BOLEMAN of Evansville, fireman, the propertion of the indiana legislature.
