RTMENT REPORT. thed by Blue-Conted s of the Peace.

The annual reports of the chief of police and the marshal's departments contain some information that is of interest to the curious.

The report of the chief of police shows that there were \$45 arrests made during the year. These arrests were for almost every known offense. The offenses chargeable to intoxi cants, however, took the lead in the number The tabular statement looks like this: Drunk, plain, 121; drunk and disturbing the

Shows What It Costs to Keep th Thoroughfares in Repair.

Street Commissioner Morris' annual re port shows a decided reduction in the cost

of doing the street work between the dates of March 1, 1896, and March 1, 1897. The net result is a saving to the city of over \$2,600 and an increase of the amount of work done. The work of the department has been very heavy during the year. Seasons of drouth on previous years gave way last year to floods, which tore up the unpaved streets, damaged bridges, covered the paved streets 244.313 33 with mud and played the mischief generally all over the city. Yet, with all of this added expense and extra work, the cost of the \$385,674 13

department to the city was in round num-bers \$2,681 less than on previous years. His report shows that the total cost of re-pairs on the streets was \$4,788.42 paid for in cash and that \$1,664 was worked out as poll tax. On previous years the chain gangs had performed most of the street cleaning.

Section 22 of the New Revenue Bill is Stricken Out.

Proposal to Allow Owner of Mortgaged Property to Deduct the Amount of Mortgage Before

Paying Taxes is Lost.

DES MOINES, March 16 .- (Special Telegram.)-The senate devoted the day to rounding up the revenue bill. Section 22, which was sustained by a tie vote last week, was stricken out. It provided a new method of taxing loan and trust companies. The old

law will be left unchanged. An amendment was offered to tax the stocks of state and savings banks in the same manner as national banks. It was urged that the federal law provides a method of taxing national banks and that a different method applied to state institutions is unfair. The amendment, however, failed.

A substitute by the committee for section 4 was adopted. This provides that in case the valuation under the new method of assessment shall be increased over the present one, the tax levies shall be so reduced that there shall be no greater aggregate of taxes raised.

Healy offered an amendment for the taxation of concerns which have branches in different assessment districts, intended to assure that banks which have branches shall not escape taxation on the branches, as some of them are represented to do now. The amendment was laid over. Gorrell moved the most important amend-

ment since the bill was taken up. It was that the owner of mortgaged property shall deduct the amount of the mortgage before paying taxes. Gorrell, Rowen, Druet, Loth-rop and Kilburn spoke for it, and it was voted on without any address in opposition

and defeated—yeas, 14; nays, 24. The Cheshire amendment to provide a new plan of taxing telegraph companies will come up tomorrow, and will cause a long fight. It is the Indiana law in substance and radically changes the plan of assessing these concerns. It is half as long as all the rest of the bill and every effort to induce him to withdraw it failed. It will

cause a long contest and then be defeated. The house passed a committee substitute for the senate military bill. It differs from the senate bill chiefly in providing a system of examinations for promotion which will enable a private soldier to rise to a position or the governor's staff in a minimum of five years. The insurance bill was further con-sidered and passed. The house after speeches

Two years ago they separated and both tried to get a divorce. Mr. Moller was accused of cruel treatment and he charged Mrs. Moller with improper relations with a railroad man, with whom she went to Omaha a year ago and remained some time at a hotel. Deere-Wells Suit Nearing an End. The Deere, Wells & Co. damage suit will probably be finished tomorrow. The de fense yesterday made great progress in the introduction of evidence, and it is expected that all of the evidence will be in at the close of the court tonight. The attorneys will make their arguments tomorrow, and the case will go to the jury in the evening or early Friday morning. Chief Templeton of the fire department and Firemen Hunt-ington and Watts were on the stand during the day for the purpose of establishing the direction of the wind during the day and at the time of the fire. They all swore posi-tively that it was blowing from the southsast, and not southwest, as contended by the plaintiffs.

A number of bootleggers were arraigned as a diversion from the monotony of wind and fire testimony, and the following pleaded C. H. Sawyer, Shenandoah; W. E.

Coffman, Albia; John McConnell, Greenfield; Everet Albin, Menio, and John Smiley, Albia. Arthur Walker of Audubon and Joseph Con of Albia will try conclusions with the jury.
