REPORT FROM ATTORNEY GENERAL SMYTH Blame for Any Unnecessary Walt I

Put On the State Board of Transportation and Attorney General Churchill.

LINCOLN, March 23 .- (Special.) - Early in the present session the senate agreed to a cosolution calling upon the attorney general to investigate the acts of his predecessor

with reference to the conduct of the maximum rate case before the United States supreme court. The attorney general today submitted a report in which he reviews the

progress of the case from its inception down to the present time. He summarizes the case as follows: 1. The law authorizing the appeal of the

dimum rate cases to the supreme court passed and approved April 5, 1855. On August 2, four months thereafter, cases were docketed in the supreme . On December 15, 1895, four months after

a. On December 15, 1835, four months after the docketing and eight months after the passage of the law authorizing the appeals, a motion was filed in the supreme court to advance the cases and that motion was sustained on December 23, and the cases set down for hearing on March 4, 1836.
4. On March 4 and 5, 1836, argument was had and at the close thereof the cases were submitted to the court.
5. On April 20, 1836, the cases were, by order of the court, restored to the docket and a reargument ordered.
6. On May 25, 1836, the supreme court adjourned and did not again assemble until October 18, the date on which the next term commenced.
7. November 20, 1856, six months after the reargument was ordered, a motion for the

7. November 30, 1896, six months after the reargument was ordered, a motion for the advancement of the cases was filed and on December 7, the same year, was overruled with the right to renew the motion on the third Monday of January, 1897. This brings the record down to the close of ex-Attorney General Churchill's term of

office. Taking up the matter from that date Attorney General Smyth sava:

Attorney General Smyth says: On that date (the third Monday in Jan-uary) I expected to be engaged in the supreme court of this state and therefore had the hearing on the motion for the advancement of the cases postponed one week. On that date I appeared in the su-preme court of the United States and sub-mitted the motion, which on the following Monday was sustained and the following Monday was sustained and the cases set down for argument on April 5, 1897. It is expected that the cases will be argued and inally submitted to the court on that date or very soon thereafter.

CONTAINS SOME CENSURE.

Having made the record clear on the subect. Attorney General Smyth adds a brief mmentary on the situation and in so doing draws some conclusions not particularly favorable to ex-Attorney General Churchill

I knew the court usually adjourned about December 20 to the second or third Monday in January. The second Monday would follow three you could not go so as to be there at that time. So fixed the third Monday in January. The second Monday Would follow three the stipulation. These are the facts just as they occurred. I advised Mr. Webster It would be im-possible for me to go to Washington dur-ting the remainder of the yoar, and after the resolution of the bourd I came to omain, went to his office to see him, but he was not in. I then left the agreement with Mr. Woolworth's menographer with a request for him to sign and notify me. The next day but one I received a note from Mr. Woolworth's menographer with a request to thim to sign he had signed the stipulation. Then I mailed the same day a copy to Mr. Webster. The foregoing is a true statement of what was done to advance these cases, so far as I was con-nected with them, but nothing was done to delay. eted with them, but nothing was done to
