Of Interest to Teachers.

Superintendent Hisey received a communication from State Manager McCord of Des Moines, appointing him to the position of assistant manager for western Iowa of the National Educational association. The next annual meeting of the association will be held in Milwaukee July 6-9. It is expected that a greater number of lowa teachers and educators than ever will take advantage of the opportunity to attend. The lowa teachers have shown a greater interest in the association than those of any other state. Last year the meeting was held at Buffalo and over 1.000 lowa people were registered there. The railroads have made a round trip rate for Milwaukee of one full fare, plus \$2.50, and the tickets may be extended to return until August 31. The chief duties of Su-perintendent Hisey will be to answer all questions for information that may come from western lowa teachers.

City Would Like to Be Reasonably Free from Dust and Mud.

Manufacturers of Machines Which Claim to Do the Work Well Flood the Council with Propositions.

The office of the city clerk and the department of the street commissioner are being flooded with advertisements of firms manufacturing street sweepers. Many of the advertisements are accompanied by propositions from the makers to supply the city with the latest improved street cleaning machinery. There has been no formal call for propositions of this character, but the discussion of the matter of street sweeping about the city building and by members of the council has been given considerable notoriety in the newspapers, and the notices have apparently caught the eye of every maker of such machinery in the east.

One maker offers a machine, which he guarantees to sweep perfectly clean the granite paved streets, picking up all kinds of debris under the size of a brickbat, and to cover over 60,000 square yards of pavement to cover over 60,000 square yards of pavement in ten hours work with one man and team. This sweeper picks up the dirt and carries it along uitil a large-sized receptacle is filled and which can be dumped at any desider point. Another machine has a capacity of nearly double this and is declared to be equally efficient. There is unquestionably growing up a strong demand for cleaner streets, and if this desirable end can be attained by the use of power sweepers, the progressive members of the council will strongly favor their use. Enough money has been spent annually by the city to provide clean streets, but the primitive manner in which the work has been done has rendered it a failure. Throughout the summer the dust that is not flying through the air is mixed into nasty mud on the pavement by the street sprinklers. At the end of an expensive cleaning there has been no noticable improvement, beyond the absence of a quantity of the mud.

The reports of Receiver Banard of the Omaha & St. Louis railway from March 1 to August 31, 1896, and from September 1 to February 28, 1897, were filed in the federal ourt yesterday for the inspection of Judge Woolson. The reports were made by the re-ceiver to Special Master-in-Chancery L. W. Ross. The reports of the receipts and ex-penditures of the road under the receiver make an excellent showing. The total receipts for the first six months of the period mentioned amount to \$199,380.58. The detailed report shows that the passenger department urned in \$114,456.43 of this amount, while the freight department was only able to show total earnings of \$33,233.70. During the six months the road carried the government mails and was paid \$14.794.02. The report includes every cent of income, even to the sale of small lots of scrap iron. The disbursements show that the heaviest item of expense was the salary and pay roll, which amounted to \$87,017.65. To the Citizens of Pottawattamie County: The undersigned have been appointed by Governor Drake as a committee of ways and means for this county for the relief of the famine-stricken peope of India. At a meeting of the committee, held March 22 an executive committee of three was appointed, to have immediate charge of the work consisting of Mr. A. W. Wyman, Mr. H. Ouren and Rev. C. Hover. The executive committee desires to make the following statement and appeal and requests that all county papers please copy:

The needs are urgent, as daily reports in the papers indicate. Millions of our fellow beings are at the point of starvation and thousands are dying from hunger and disease. The people of this county have plenty of food and shall we not share it with the starving?

The plan is to send corn. Arrangements have been made to dry it free to put it in condition for the ocean voyage. The railroads will haul it free to the Pacific coast, and the national government will furnish a ship to transport it free to India. We appeal for contributions of corn, or money to buy corn. Any amount, however small, will be gladly received, and there are few indeed but can give something. The city and county will be divided into districts and persons bearing the authority of this committee will be appointed to make personal solicitation. All persons are warned not to contribute to any but authorized solicitors.

Those desiring to send contributions by mail can fonward same to Mr. H. Ouren. 20: Fourth street, Council Bluffs, who will acknowledge receipt. The English government is doing its utmost, but cannot do all, and our common humanity the world over should come to the relief. APPEAL FROM THE COUNCIL IS ALLOWED

Old Rallroad is Substituted for the Commissioners Report Without Any Show of Fight ... Sainries of Commissioners Cut.

DES MOINES, March 23 .- (Special Telegram.)-The legislative event teday was the circulation of copies of a decision of the circuit court of appeals in a Colorado case growing out of a suit against the relief department of the Chicago, Burlington & Quincy railroad. The court decided adversely to the department, holding the plan is in opposition to public policy and Judge Caldwell declaring that courts would doubtless soon hold all such departments illegal. It has caused consternation among the lobbyints for the railroad. The house passed the building and loan

bill, which was defeated a few days ago. It was amended to allow an appeal from the decision of the executive council, and also to prohibit any member of the council who has building and loan interests from sitting in such cases in the council.

The railroad law came up and the fight

expected over the substitution of the old law for the commissioners' report, in the parts relating to the enforcement of orders of the commission, did not materialize, the substitution being made without substantial opposition. Smith of Greene offered a pro-posal to prohibit any railroad attorney from being elected railroad commissioner but after some debate it was withdrawn. The salaries of the commissioners were cut from \$3,000 to \$2,200 a year; the senate had cut them to \$2,500. An effort to raise the secretary's salary from \$1,500 to \$1,800 failed.

The house passed the printing and bind-ing bill without dissent. It will save about \$10,000 ed year, on 25 per cent, but does not depart from the present system of having be work done by officers elected by the egislature.

BRADY LAYS PLANS FOR CORBETT Primary Desire to Get Another Fight Out of Fitzsimmons.

SAN FRANCISCO, March 23.-Brady has outlined his plans for Corbett's future work. Next Saturday night the ex-champion will appear at the MacDonough theater in Oakland in a sparring exhibition, the entertainment being rounded off by members of the Olympic and Reliance clubs. This show will probably be followed by another in this city, where Jim will show as a specialist in the middle of an Olympic club minstrel show. Brady says that the present season is too far advanced to start a dramatic show on the road, but that he will take Corbett across the continent next week, giving sparring contests in all the cities. he will put on the "Naval Cadet" once more and also a three-act comedy, probably "Mr Wilkinson's Widows," or some similar play. Brady is as determined as ever not to go away from this city without pledging Fitz-simmons to another battle. The Australian's future plans are not yet arranged. He is deluged with offers, but so far has recepted none but the Sacramento proposiion, which proved a dismal financial failure last night. He returns here today. Corbett leaves for the east today to join his base ball team for the season.

The new sanitary ordinance defines the duties of the inspector in detail, and among other things provides that he shall inspect all buildings and see that the water closets conform to the ordinances, and that proper sewer connection is made. All streets, alleys, public and private grounds, are to be inspected, with reference to garbage, filth. manure or offal. Cellars and barns also come under the jurisdiction of the sanitary inspector, as do all goods carried for sale by grocers. Locking the Doors.

Chief Brennan has had six new locks placed on the cells and outer doors at the city fall, and he predicts that the next prisoner that attempts to escape will have a hard time of it. The basement door leading to the area way has been protected with a par in addition to a substantial lock which will prevent the same trick being played again as in the case of Wilson and O'Brien. The chief is certain that these prisoners had help from the outside as far as the breaking f the lock to the bullpen was concerned He says it would be imposible for a person inside the pen to manipulate a bar of iron so as to break the lock which is on the out-side of the door. In his opinion the pals of the escaped prisoners entered the basement of the jail through the area way, the lock on the door being a common one. It was easy then to break the lock on the bullpen and release the men, who had already man-aged to get out of their cells.

The council committee on public buildings intend taking some action toward securing better protection for the west windows of the fail. Something will be done to prevent articles being passed through the bars to account of the pesi-windows, they being under a wide porch, it is impossible for the jailer to see what is going on there at night. Heavy wire screens will most likely be put up on the inside of the bars.

Now it happens that there is no great amount of love etween Ryan and Mayor Ensor, hence the nvestigation The mayor hardly liked to assume the re-

oponsibility for removing Briggs, as it might burt the party he represents with the Boemians so the scheme to have a committee appointed to investigate Briggs' actions wa hit upon. Certain leaders among the Bo hemians have known for some days that the mayor was investigating this matter and have not hesitated to express the opinion that if any action toward removing Briggs is taken it will have an effect on the party vote next Briggs was eppointed a fireman by Mayor Johnston and continued to hold his position after Mayor Ensor was inducted into office. He is considered a very goo breman and has considerable influence with his own people.

Amended Quarantine Rules. Yesterday afternoon James L. Paxton superintendent of the stock yards, received a telegram from D. E. Salmon, chief of the Bureau of Animal Industry at Washington, notifying him that a change had been made in the quarantine regulations. By this new order, which was promulgated by the secre-tary of agriculture on March 19, the California quarantine line is amended, throwing Modoc, Lassen, Plumas and Sierra counties outside of the infected district. These four counties are on the eastern boundary of the state and shipments of live stock are frequently received from these points. Under the former orders of the department the whole state of California was inside the quarintine lines. The throwing out of these counties will materially benefit the receipts at this point. Cattle from California were received at the yards yesterday.

Conflict Over City Printing. A lively fight over the printing of the balots to be used at the spring election is looked for, on account of two local job offices having been promised the work. Councilman and signature. Wilson thought he had the bim yesterday when Clerk Carpenter re-fused to turn over to him the official copy. Editor Tanner of the Tribune showed up at the clerk's office about the same time with an order signed, "Mullaly, acting mayor." The city clerk refused to take sides in the matter and will call the attention of the council to the state of affairs at its next meeting.

Municipal League Meeting. A meeting of the Municipal league has seen called for this evening at the Geary building, Twenty-fourth and M streets. The different candidates now in the field will b discussed and it is expected that the league will select certain candidates to support. There is a run or to the effect that the league purely technical and did not enter into the merits of the dispute between Rusie and the New York club, nor did it have any bearing upon the reserve rule. At the conclusion of the argument, Judge Acheson reserved his decision.

result of his own experience of that system. He writes:

"I had catarrh of the head, throat and lungs for 20 years. My nose was tightly stopped and my sense of smell about destroyed. My eyes were inflamed, watery and weak, giving me constant annoyance and suffering.

My voice was greatly impaired by the catarrhal inflammation spreading from the head into the larynx and wind pipe. I also had frequent and severe attacks of head-nehe, which would come on by taking the least cold.

The rise in the Missouri river did con siderable damage to the mouth of the sewer in East Albright. A strip of ground several hundred feet long and about twenty-five feet wide was washed away. The buildings at the grease works were in danger at one time, but yesterday the waters receded and it is thought that the danger point has now been passed.

THIS TIME MAMIE HANSEN WINS Recovers in a Suit Brought Against

the Missauri Pucific. Mamie Harsen recovered a verdiet against the Missouri Pacific Railway company is Judge Fawcett's court for \$4,000 for the loss of her right leg, which was amputated just below the knee as the result of being run over by a train on the Belt Line railway near Ruser's park, June 25, 1891. This was the third trial of the case. The first trial resulted in a verdiet for \$11,000. A new trial was granted with the same result, and the case was then appealed to the supreme court,

where it was reversed and remanded.

The petition filed in the case sets out that the plaintiff was walking along the Belt Line track between Center and Leavenworth streets on the date named. It is alleged that this section of track had long been used as a public thoroughfare by foot passengers, which fact was well known to the defendant. It is further alleged that a train came up rapidly behind the plaintiff, who was about rapidly benind the plaintin, who was about 12 years of age at that time, and ran over her, causing injuries which necessitated the loss of her right leg. She sued for \$15,000. The case was tried this time to the court, a

ury being waived by both sides.

Freight Traffic Improving. General Agent Denton of the Rock Island's reight department, asked how the freight usiness was, said: "Of course, it's not what we would like to have it, but it's very good. There can be no doubt but that the freight situation has improved greatly within the past couple of months. There is a good movement of merchandise, which indicates that there is money somewhere. The movement of implements is also good and is away ahead of what is was one year ago today This class of freight has been large for a ouply of weeks past and shows signs of cor tinuing for a couple of more. The other evening we had to work our freight gang The other at Council Bluffs until after 9 o'clock loading implements. They usually quit at 6, and

never worked overtime last season." Defaulter Commits Suicide. KANSAS CITY, March 23 .- The dead body of Sheriff Jacob Malmgreen of Saline county. Kansas, was found in an empty box car in the bottoms here today. Malmgreen had shot himself in the head with a revolver. He left a note stating he was tired of life.
