Party Identity of More Importance Than Municipal Spoils,

ONE FACTION IS OPPOSED TO FUSION

Middle-of-the-Road People Want to Put Up a Party Fight-Review of the City Campaign.

There is already a well defined split in the populist party in reference to the course to be adopted in the pending campaign. The middle-of-the-road boys are again in evidence and are presenting a solid front to the plans of certain leaders to compel them to again lose their identity in the fusion pie. The city central committee will meet at Knights of Labor hall this evening to erty, but he says they refuse to do so, and he call the convention and primaries and the trouble is expected to develop on that occasion. One wing of the party is in favor of calling the primaries on the same day as those of the democrats, with a view to hold-ing simultaneous conventions and agreeing catata and would be entitled to a share of it Monday. Aside from the populist dilemma the political caldron continues to sizzle without producing any startling effects. For the last day or two there have been various rumors floating around that something relative to th new charter was "going to dray." Very little eredence, however, is given to the rumors. Several city officials, who are candidates for e-election, have been approached with adco to refrain from taking any active steps

SAUNDERS DROPS OUT. At a meeting held in the Fifth ward Monday night W. A. Saunders announced that he would not be a majoralty candidate and a resolution was adopted endorsing the canlidacy of Frank E. Moores. The old soldiers' organization also endorsed Moores last night. The Ninth ward has added another candidate to its already extensive list in J. P. Finley, who wants to be tax commissioner.

a vigorous effort to force the other city officials to assist to propel Broatch's for renomination. The other officials have so far refused to take any active interest in the mayoralty contest and they contend that they should not be compelled to do so. They are unanimous in saying, however, that t their hand is forced, they will tie up with nother candidate in preference to Broatch. There was quite an amusing scene in the nayor's office the other day when Broatch alled in John Matthiesen, superintendent of the city hall, to find out what he was doing for him in the Flist ward. It has always been one of the mayor's notions of the fair-ness of things that every appointive official in the city hall is in duty bound to get ou and hustle for him on all occasions. He had not long talked with Matthlesen before he discovered that the superintendent was far from enthusiastic. Further questioning elicited the fact that Matthiesen was no doing anything for him, and moreover, did not propose to. Then there was trouble, and after telling the delinquent official what he thought of him, the mayor ordered him out

# Will Retire to Private Life Next

United States Marshal White has received what is supposed to be his final check from the government for his salary, but it was made out only to March 22, whereas his term loes not expire until March 27. The marshal is inclined to think that the subordinates in the treasurer's office at Washington are trying to financier him out of office before the lose of his term.

As no appointment for marshal has yet been made by the present administration it been made by the present administration it is probable that Judge Brewer will be called upon to designate some one to act in the interim between the expiration of Mr. White's term and the beginning of the new appointee's term. It is the custom in such cases to appoint the incumbent, but as this will necessitate a new bond and other formalities Mr. White is not disposed at this time to accept the place longer than next Saturday, for he thinks it will not pay to go to all that trouble for only a few days pay.

# FOUR OF A KIND.

And All Brainy.

Four business men sat talking in an office when the subject of food and drink came up. One said that he had suffered for some six months from a peculiar sensation in the head and had been under the care of a physician until he happened to read an article on the coffee topers of Paris, in which the testimony of a number of physicians was given, to the effect that coffee contained the same polson ous elements as strychmine, morphine, to bacco and whisky, but in smaller quanti

This set him to thinking, with a result tha coffee was left out of his diet and in less than a week the head trouble was gone. Each of the other three gentlemen added their testimony to the effect that coffee had or nervous trouble had been produced by oven moderate coffee drinking.
One added the remark that "It was hard

to give over coffee, but I got some Postum coffee, made of grains at Battle Creek, Mich. and it is so perfect in color and taste that am enjoying my coffee now daily, as are also my wife and children, for Postum is made of pure graius (wheat, etc.), and is nourishing and fattening, a pure food-drink, and another feature not to be despised is the

He says he executed a warranty deed to his mother-in-law and the document was certified to before his father in-law, as justice of the peace. Berlinghoff now alleges that in September of last year he asked bis parents-in-law to release the therefore appeals to the courts to declare the deed void and of no effect. He advances the claim that the document is void for the reason that it was executed by Herman Timme as a justice of the peace, whereas he in case Tin me's wife died.

Sentence of the Court. Attorney General Smyth has served the attorneys for Bolln with a copy of the state's opponents at the present time. While the middle-of-the-road men were outnumbered from the decision of the district court which last fall, it is well known that they have imposed a sentence of nineteen years upon added some accretions since then and their the ex-city treasurer. The brief covers twenty printed pages and takes up the reasons advanced by the defence and answers them in turn. The two principal points are: Charles Bentley, one of the jurors, who stated he had made up his mind in regard of the populists who were conspicuous in their efforts to secure a fusion have been released by the court. The state holds that it is not necessary to detail all the steps followed by Bolln in the embezzlement of city funds. The records of the office show that a certain amount had been embezzled, and that constitutes the offense. Further, that where the amounts taken run through the different years of the term served by the official, it all constitutes one offense and part cannot be out

pressed in western counties of the state least Omaha citizens should reap some advantages from the coming exposition. This fear appears to have no real foundation. Present indications are that offices carrying a salary will be largely filled by eastern talent. Of course, it is not to be considered probable that any western man has sufficient brains or executive abilities to make a suc-cess of the fair. Whether the people who contribute the funds should have employment or not is a matter of sentiment. Pos-sibly some Omaha man can shoveled dirt as good as a Chicago man who shoveled at the World's fair, but there is nothing sure about this, and it is best not to take any chances I would suggest that the directors having this in charge should insert an advertisement in a Chicago paper for all men that worked on the World's fair, and ask them to bring certificates to that effect (this of course in-cludes all shovelers), "Protect home in-dustry" and "Stand up for Nebraska" sound well as new songs, but, like all songs, soon get old. Most likely the importing element of the exposition board will expect us to con-tinue to support them in their private and business affairs? To be sure, that's another STOCKHOLDER.

Ex-Sheriffs is Disposed Of.

Charges Made by James Ruane Not Sustained When the Case Comes Before the Judge and Jury.

The first of Douglas county's sulls against x-sheriffs and their bondsmen has ended rather disastrously for the county. The first case to be taken up was that against ex-Sheriff William Coburn and his bondsmen, W. J. Broatch and J. S. Caulfield. The suit covered Coburn's first term of office and during the years 1886-87. The suit was brought to recover fees alleged to have been collected by the sheriff which, it was charged. should have been turned over to the county. The case was tried before Judge Fawcett and a jury, the taking of testimony occupy terday and after being out less than two fendants.

The petition in the case alleged that Coburn had collected \$3,039.81 during his first term of office which should have been turned over to the county. The principal and, in fact, almost the only witness in the case was family, including the entire force of police James Ruane, an accountant in the auditing department of the county clerk's office. He testified to a number of items set out in the pecition which he alleged Coburn had col-lected while serving as sheriff, but had not accounted for in his reports to the county. In the majority of these small items shown that the accounts named had been receipted for on the clerk's docket, but no date was attached to show when the money was received and the court ruled that these items could not be admitted for the reason that there was nothing to show that the money had been paid to the sheriff during his term of office and the bondsmen could not be held liable for collections made after the term of the bond had expired. On the cross-examination of Ruane it was shown that several items which had been

charged against Coburn had been for papers served in other counties by the sheriffs of those counties, and some were for writs served on the sheriff by the coroner, the fees for which were paid to the coroner.
One of the largest items was one of \$2,700. which it was alleged was an overpayment for deputies. It was explained by Coburn that this item was caused by the practice in vogue at that time of having the deputy of the Thirtieth atreet paving to the city sheriffs act as court bailiffs during the limits if the county will complete the work terms of court. They received a regular to Florence. The county commissioners salary of \$75 per month, and during terms of bave appropriated \$50 for this. This will court they received \$2 per day additional cover but a portion of the cost, although the He explained that the deputies were obliged to work extra hours in order to do all the work required of them. The county alleged that this amount should have been paid into the county by the sheriff, but the jury deermined otherwise. No question was passed upon in this case

which establishes a precedent in a number of technical matters which have been in dis-pute between the sheriffs and the county authorities, such as fees in master commis-sioners' sa'es and fees of that character.
