

DRAGGED INTO A CAR TO DIE

Blugged While Under the Influence of Liquor by Unknown Parties. SERIOUS CONDITION OF PADDY NOONAN

One of the Rounders Attacked by Toughs, Who Succeeded in Most Effectually Concealing Their Identity from the Police.

"Who hit Paddy Noonan?" is the question that the police were working on yesterday, with very unsatisfactory results. The police do not know. Paddy does not know. Apparently the only person who does know is the one who struck the blow and he is keeping his identity carefully concealed.

Paddy Noonan was found in an unconscious condition in a freight car at Fourteenth and Nicholas streets yesterday morning at 5 o'clock by Special Officer McAndrew. The officer thought Noonan was drunk and he called the patrol wagon. When Noonan was drawn out of the car, however, it was found that he had been lugged. An ugly gash several inches in length disfigured the back of his head.

There is considerable mystery about the case. When the man was found he was very cold and the blood that had flowed from his wound was coagulated. There was every indication that he had been unconscious for hours. It is judged, therefore, that he was being cared for at the station he recovered consciousness at intervals, but his mind was apparently wandering. It was impossible to tell whether this was the result of his injury or of intoxication. The man was finally removed to St. Joseph's hospital. He regained his senses there this morning, but could throw little light upon the case. He says that his recollection of past events stopped at 7 o'clock Wednesday night. At that time he was in a saloon near Sixteenth and Cumming streets with a man named Wadell. He was drunk at the time. He remembers nothing after that, but has a vague remembrance of having been in a fight.

The police advance the theory that Noonan was injured in a fight. He is a member of the "beer" gang that hangs about Sixteenth and Cumming streets. He has posed as a member of a prize fighter. It is believed that he got into a fight with some member of the "beer" gang. The man who was injured, possibly fearing that he had killed Noonan, threw him into the freight car. Noonan's cap was found some distance from the freight car. He was not assigned as a motive, as Noonan possesses no wealth and does not have the appearance calculated to inspire the belief that he ever had.

The efforts of the police yesterday to find some clue were unavailing. Noonan had not been seen about any of his haunts last evening. A report was received about the scene of discovery that he had been struck by a train and had crawled into the freight car. This was started by some unknown colored man, who has not been located. There is no blood anywhere about the place to indicate that anything of the character occurred.

Noonan is an ex-switchman. He has been out of employment for some time and has joined a crowd which has made the neighborhood of Sixteenth and Cumming streets notorious. His home is in Chicago. He has been arrested a number of times. His condition this morning was considered quite dangerous. As the day advanced, however, he appeared to be recovering somewhat. Yesterday afternoon the police located Wadell, the man with whom Noonan said he was when he lost consciousness. Wadell states that Noonan was with "the gang" up to 8:30 o'clock Wednesday night, when he was sent away to get 10 cents' worth of alcohol. He departed and never returned. Noonan was intoxicated at the time.

The police received a clue in the afternoon to the effect that Noonan was making a visit last night upon the woman with whom he appeared on the scene. The latter pursued Noonan and captured him near Fourteenth and Izard streets, where he was unconscious and then threw him into the freight car. The authorities will not disclose the name of the supposed assailant.

It is believed that Noonan is now aware of how he received his injuries, but that the row was of such a character that he does not want to say anything about it.

Success Due to Scientific Methods. The Apenta Hungarian Aperient water, drawn from springs near Buda Pest, is, as the analyses made by various authorities and supported by the most eminent medical men, has been exploited under eminent scientific control. It has secured the support of the medical profession of the most eminent cities employed in the hospitals of almost every important city in the country. Among the many leading institutions which may be named are Bellevue hospital, Post-graduate hospital and Polytechnic hospital, New York City; the Massachusetts General Hospital and City Hospital, Boston; Cook County Hospital, St. Louis; City Hospital, New Orleans; County Hospital, San Francisco.

Just a Political Gerrymander. Judicial Opinion of the New Apportionment Bill. The bill now pending in the legislature which divides the judicial district in which Douglas county is situated into two districts composed respectively of Douglas and Sarpy counties as one district and Washington and Burr counties as another district is regarded by the judges of the district bench in the present district as simply a political gerrymander. Judge Baker said he supposed the only purpose of the bill was to put Washington and Burr counties, which are strongly republican, into a district by themselves and put Sarpy into a district with Douglas county, with the expectation of electing a democratic or populist judge. The bill does not reduce the number of judges in the four counties.

Literary and Musical. Several of the young people in the southwestern part of the city have organized a literary and social club. The meetings are held every Friday evening. After the regular business meeting the following program will be rendered: Vocal solo, William Ryan; recitation, Pearl Wiley; with guitar accompaniment, George Reine; vocal solo, Frank Grothe; vocal solo, James Davis; dramatic, Alice Hawkins; recitation, James Davis; instrumental solo, Constantine Knudsen; vocal duet, Peter Madsen and Edward Hivins; debate, "The Question of Transatlantic Exposition will benefit the state of Nebraska—affirmative," Ernest Knudsen, Byron Rickard, negative, William Ryan, Joe Boyer.

Said by a Caterer. To Be Injurious. Did you ever live near Buffalo? If so you know that firm of fancy groceries, familiar to every one in the western New York state, Faxon, Williams & Faxon. Their business makes them experts in the good things of the table. The head of the house will tell any inquirer that when Faxon's coffee was put into his own house in place of berry coffee, it permitted him to make a delicious coffee beverage and a gain in health because of its effect on the health of the different members of the family. Postum, being made of pure grains only, can be taken by the weakest stomach, as nature has wisely provided that the grains of the field can be digested easily, and as Postum looks like the finest Mocha and has the coffee taste, it is the want of the coffee drinker very wisely.

MAKING IT A FROST FOR BROATCH.

Republicans Opposed to His Name at the Top of the Ticket. The local political field has not been enlivened by any new developments during the last day or two and for the most part the candidates are waiting for the primaries to be called. The list of entries has not been closed, but it seems that most of the people who aspire to recognition have declared themselves.

In the fusion field the most significant feature is the prospective strife between the democrats and the free silver republicans. It is becoming a matter of fact that the democrats are incubating in various quarters, but for the most part there is an unusual inclination on the part of candidates to avoid getting tangled up with any booms other than their own.

The feeling seems to be growing against loading up the republican ticket with Mayor Broatch and the candidates are not inclined to place his name before the people. Light on Ex-County Judge's Method of Handling Estates. The suit of Bert Glendower Wheeler, the young daughter of the late Bert C. Wheeler, against ex-County Judge J. W. Eller has made its appearance in the district court. This case attracted considerable attention when it was pending in the county court shortly after the guardian appointed by Eller was removed by county judge Baxter and Isaac Adams was appointed.

The pending suit is brought by the guardian of the estate of Bert C. Wheeler, who alleged to Eller to recover the amount of money alleged to have constituted the daughter's interest in the estate of Bert C. Wheeler at the time of his death. The administrator, after turning over to the court the sum of \$2,934.94. It was alleged that the plaintiff's interest in this sum amounted to \$1,935.92. It is alleged that after the final settlement of the estate Eller neglected to appoint a guardian to take the money of the estate of Bert C. Wheeler. The petition then set forth at great length the manner in which it is alleged the two Ellers made a deal whereby the money of the estate of Bert C. Wheeler was paid to J. W. Eller, and then handed by J. M. Eller to his brother, J. W. Eller, in payment of what is alleged to have been a pre-nuptial agreement between the two Ellers. The money which was paid him in cash at the time. The court is asked to find that the ex-judge is responsible for the money and to give judgment against him.

UNION HOTEL SHORT A LANDLORD. Judge Scott Asks for the Resignation of Receiver Watson. There is a vacancy in the position of receiver of the Union hotel property, a hostelry on North Sixteenth street which has troubled the police department more or less for a year or more. The house has been in the hands of the receiver, J. M. Watson, since the death of the late landowner, Isaac N. Watson. When Watson arrived the court asked him if he was aware of the fact that his charge was being conducted as an assignment house. Watson replied that he did not know that such was the case. The court again asked Watson if he was aware of the fact that the receiver was conducting the house as an assignment house. Watson replied that he had no knowledge of the facts testified to by the chief of police. Thereupon the court said that Watson's resignation would be accepted.

Watson's resignation was filed later in the day. Crofoot Succeeds Gannett. Earl W. Gannett has resigned his position as receiver of the Omaha Fire Insurance company, and Judge Scott has appointed L. F. Crofoot to fill the vacancy. Fixing the amount of the bond at \$50,000 Gannett's resignation will not take effect until he has filed a final report, he having been appointed receiver of the Omaha Fire Insurance company for the purpose of making a final report. This action was brought about as a result of a complaint lodged with the court by several of the claimants against the company, who represented that the receiver was a stockholder in the old company and would be compelled to sue himself before the business of the company could be wound up.

A committee of five, headed by Sarpy county, headed by Chairman Carpenter, held a conference with President W. A. Paxton of the Union Stock Yards company yesterday afternoon, in connection with the building of a new bridge across the Platte river. The contemplated structure is to be thrown across the river at a point one mile east of Louisville. The main object is to furnish a closer means of communication between the farmers south of the Platte and the South Omaha stock market. The stock raisers living south of the stream and who care to drive their stock overland to South Omaha were obliged to use the Ashland bridge. This bridge entails a circuit of over twelve miles out of the direct line to the packing city. Most of the stock raisers, rather than make this long drive, have shipped in the animals by the Missouri Pacific and other railway lines, thus considerably increasing the expense of placing their product upon the market.

In the conference with Mr. Paxton yesterday Chairman Carpenter stated that the contemplated bridge would cost in the neighborhood of \$5,500,000. The largest amount the company behind the scheme had already floated \$4,500 in stock. Mr. Paxton told the committee that he would be glad to contribute the remaining \$500 to be raised by the bridge company within the next thirty days. Mr. Carpenter assured that the bridge would be done, and work will probably commence upon the structure within sixty days.

Six-Thirty P. M. Train. CHICAGO. MILLWRIGHTS' STRIKE. ELECTRIC LIGHTS. City office: 1504 Farnam. PROMISES AID FOR EXPOSITION. Interest in Two Bills Now Before the Legislature.

The exposition management is greatly interested in two bills now pending in the Nebraska legislature, both of which have an important bearing on the exposition. One of these bills affects Douglas county alone, and the other applies to every county in the state. The first provides that the county having a population of over 25,000, the county having a population of over 10,000, and the county having a population of over 5,000, shall upon petition of 1,000 voters of the county, submit a proposition to the voters to vote bonds in the sum of \$200,000 in aid of the exposition. The second bill provides that the county boards of agriculture, under certain conditions, may make county exhibits at the exposition. The exposition management regards these bills as being of more importance than the state appropriation.

The people of Douglas county are interested in seeing the one which applies to this county enacted into a law. An appropriation of this amount by this county would go a long way toward paying the subscription list up to the \$100,000 mark. It is said that the county board for anything, the prospect for the passage of the bill is good, and the sentiment in this county appears to be strong enough to insure the adoption of a bond proposition by the voters of the county.

City Treasurer Edwards was notified yesterday that Keyhole & Co. of Cincinnati, who purchased the last issue of the renewal bonds, would refuse to accept the bonds. The refusal is on the ground that the bonds are illegal. According to the interpretation of the charter by the attorneys for the brokers, the bonds should have been authorized by a vote of the people. This view returns to the old charter, under which a ballot box was used to elect the city council in the same manner and accepted without question by J. E. Seligman of New York. Treasurer Edwards will report the action of the board of renewal bonds made for such action as may be considered advisable. City Attorney Connell says that the contention of Keyhole & Co. is not legally issued under the old charter will not hold water. But the difficulty comes on account of the provisions of the new charter which prohibit the issuance of any additional bonds whatever until the old bonds are released and any objection that might be raised by the purchasers could be overcome. It is believed that the speed association, the renewal bonds in excess of the limit of \$2,000,000 no issue can be made.

57 Styles

By actual count we are showing fifty-seven distinct patterns in Children's Suits, between \$1.50 and \$2.50 in price. That's a great many for one house to show. It is a great many more than most houses can show at all prices, and there ought to be no difficulty in selecting a suit from this line, containing Juniors, Reefers, Sailors, Blouses, Vestees and every style that is made. The \$1.50 suits are good. The \$1.75 suits are good. The \$2.00, \$2.25 and \$2.50 suits are also good. Any store can show nice patterns, any store can show nice styles. Any store can show suits that look well, but suits that look well, to end up with, are usually sold for more than two dollars and a half. We bought these suits, first of all, on account of their excellent wearing qualities. The style and workmanship we give you as a matter of course. To match the same qualities in other stores you will have to pay from two dollars and a quarter to four dollars a suit. That's absolutely true.
