Why an Educational Investigator Changed His Mind.

POINTED CRITICISM OF DR. RICE

Frank Fitzpatrick Touches Instauntingly on the Doctor's Dilemma. Snobbery of Education-General Notes.

The investigation conducted by Dr. Rice Into educational methods in vogue in the public schools of the United States, the results of which formed a series of magazine papers, has provoked a sarcastic criticism from Mr. Frank Fitzpatrick, formerly superintendent of the Omaha schools. Writing to the Journal of Education, Mr. Fitzpatrick says:

"In his recent articles in the Forum on 'How the Child Shall Be Taught,' Dr. J. M. Rice tells us that he has now changed his sequences-politics in school boards, incompetent supervision, insufficient preparation on the part of teachers, etc .- are not the ultimate cause of the evil, but constitute only the symptoms of a much more deeply hidden disease, which permits all sorts of hidden disease, which permits all sorts of havor to be played with the schools.' 'The evil to which I refer is this, namely, that educators themselves cannot come to an agreement in regard to what, if any, changes are desirable or feasible.'

"Dr. Rice proposes first that a desirable street was partially desirable or feasible.'

are desirable or leasible.

"Dr. Rice proposes, first, that a definite standard be established that the teacher may know when his task in any given branch. has been satisfactorily performed. Second, that a standard be discovered by which may be determined how much time it is necesbe determined how much time it is necessary to devote to a given subject, in order to complete this task. Of course such a statement is a truism. I readily admit that the establishment of such a standard would be a very great achievement. Dr. Rice thinks that the resources of the national government would be needed during the process of zuch an investigation. Judging by the length of time that it has taken to by the length of time that it has taken to reach reasonable certitude upon the simpler problems of life, Dr. Ricc's change of base is not likely to help him out of his dilemma. "We have been trying to settle a simple

problem in rowing during the last twenty-five years, viz.: Which is the more effective, the English or the American stroke? Judging from the opinions of professional oars-men, we are as far from the solution as ever. Is the Yale stroke better than the Harvard stroke? Is the English stroke better than the Yale stroke? Are American oars and boats better than the English oars and bonts? Isn't this a simple problem in comparison with the two Dr. Rice pro-pounds." Then there is whist. Since the days of Pole 'the long suit lead' has been the practice of all accomplished whist players, but during the last three years the 'short suiters' have had their inning-and the debaters are now gravely proposing that 'four gentlemen with leisure and inclina-tion deal 5.000 hands at whist, keeping a record of each hand,' in order that reasonable data may be secured with which to settle this question. And yet how easy this

by the doctor. "We are all familiar with the perennial debate over the assumed decadence of the stage-whether the world is growing better or worse? And then such a simple question as was debated a million times during the late campaign, Is a single standard preferable to a double standard? How easy to solve these questions.
"Then in Massachusetts we have another

problem, the abolition of the Boston school committee. President Eliot favors the appointment of a small body of highly edu-cated people upon whom shall devolve the duties of the present Boston school com-mittee. Now the state Board of Education is just such a body of highly educated and respectable people. Now, is the State Board of Education any more officient, any more attentive, any more uplifting in its influence upon the schools of the state than the litterly assalled school committee Wouldn't is be better for Dr. Rice to establish a standard by which we could measure the respective merits and demerits of bodies, before he enters the solution of the problems that he pro-'The dates upon which Dr. Rice relies as

a starting point for his solution have no that after spending much time and many dollars the dector found himself face to face with the fact that the schools which were most mechanical, and which he had most bitterly assailed in a former series of articles, judging by the exercises which he had gathered, really showed the best It is rumored that at this stage investigation he incautiously and furtively disclosed to an ambitious, able western superintendent the results of his labors. It is further rumored that this superintendent catechised the good doctor as to the methods employed by him in his investigations. It is further rumored that this gentleman convinced the doctor that his methods the mechanical schools

would infallibly come out in the lead.
"Rumor saith not relative to the exercises collected in this preliminary expedition whether they were destroyed or whether they figure among the data to be published rumored, however, that after a good deal of preliminary inquiry as to the method and it is further rumored that thereupon the results were different. It is rumored that the first schools to show better results were those supervised by the able western super

"It is within the bounds of probability tha Dr. Rice may again change his mind when he has obtained more light upon the ques-tions with which he has grappled with such dauntless courage."

SNOBBERY OF EDUCATION.

The College Girl Who Affects an Air

of Superiority. In the current issue of the Ladies' Hom Journal the editor expresses himself vigorously in deprecation of the tendency to introduce a dangerous element of snobbery into education. He notes the pervading "I know so much" air that is encountered on all sides, and the feeling that a line is being drawn on a so-called educational basis. The editor contends that "an educational process which sharpens and polishes only a girl's intellect, and either deadens or neglects her heart or soul, is a sorry imitation of what an education really stands for and is. . The practice followed by some girls who have been at college of holding their heads above those who have not is a foolish proceeding and smacks of the most repulsive kind of snobbery. It is never safe for us to assume that we know more than the peo-ple around us whether we are college-trained or not. The longer we live in this world the more we become convinced how little we know. The people most humble in their opinlons are generally the best educated. an art which only a few of us learn: to be

PIMPLY FACES Parised AND BOARS by

PROBLEMS THAT PERPLEX retleent of our own opinion when every on around is expressing his. Yet this 4s on of the attributes of the well educated. Si lence often speaks louder than speech. But the girl fresh from her books and college does not always perceive this. She is apt to assume, for example, that people are uneducated if now and against they speak un-grammatically. But she does not know that the most viral truths ever spoken or written, the truths which have done mankind the greatest good, have not always been those which would have borne grammatical dis-section. Their good lay in what was said, rather in the way in which the sentences were constructed. It is when we are young that we believe that all that is worth knowing is printed in books. When we are older we find that the deepest truths are never written. It is well enough for a girl to hold up for herself a standard in grammar or anything else. But she is unwise when she believes that her standard is the one by which she must judge and measure others She has no right to do so in the first place And in the second, she is far more apt to be wrong in her deductions than she is to

THE FIRE DRILL.

Another Demonstration of Its Great Value in Schools. For the second time this year the great value of the fire drill was demonstrated in the mind, that 'public indifference and its con- public schools of New York City. A few weeks ago a school building, containing 1,200 to this portion of the grounds, and a more children, was discovered to be on fire. As soon as the alarm was given the teachers, the signal to form in line was given to the children. The building was emptled in less than four minutes, the children marching in acres. It is about three-quarters of a mile

street was partially destroyed by fire. The fire occurred during the noon hour when only fifty of the 1,800 attendants at the school were in the building. The children sixty feet. From every portion of this fell into line at the word of command and ground a beautiful view of the river valley marched out without the slightest confusion. The self-possession displayed by teachers and pupils on the occasion received a deserved portion of the exposition grounds as a pleasure ompliment from the Board of Education. The incident conveys a lesson to teachers In large buildings. While the fire drill is a common form of discipline in schools, its of the towering bluffs on the lowa side of the value is liable to be overlooked in the absence of danger. The ever-present possibility of fire should make the drill a daily exer-

here are in this country 481 colleges and iniversities. These received during the last rear a total income of \$16,783,638, employed 8,459 instructors and enrolled 63,402 under graduates and 4,273 graduate students.

A medical fournal has made some carefu ivestigations among the colleges of New England, which enable it to state that stu ents who do not use tobacco gain weight neight and girth of chest from 10 to 24 per ent faster than those who chew or smoke he development of the lungs, if this auority is correct, is especially retarded by

The Rev. Dr. A. D. Mayo, who has jus ompleted a tour of many public schools in ie south, says that, while there may have en improvements and constant advances in southern public school systems, there is still room for further progress. In the graded chools he finds that, as a rule, the principal much work to do. He is not only expected to act as superintendent, but also be a teacher in a class room, and frequently this is the largest class room in the

A noteworthy feature of the educations ork which is becoming popular among visting students in Germany is a system of 'holiday lectures," a sort of glorified Chau-augus course, by which teachers and others estrous of learning German and other sub-ects of study during their vacations have an opportunity to work under good teachers and in a favorable environment. The largest of these courses is that held in Greifswald, which was patronized last year by seventy-three foreign students, besides some 200 who came for single lectures.

"It has been generally understood," says the Baltimore Sun, "that Prof. Newcomb would return to the Johns Hopkins faculty upon the termination of his naval career, His relations with the university have always been most cordial. At the recent commen ration day exercises he was asked to sit for a portrait by his friends and associates in the university, to be painted and hung in McCoy hall. President Gliman said last night that there would be no changes at present in the university faculty, which suggests that no fixed arrangements have been yet between Prof. Newcomb and the university authorities."

The report of the financial committee ar pointed by the French chambers to make the required estimates of appropriations for 1897, presents some interesting comparisons between the German and French universities The total income of the German universities is, in round numbers, \$4.740,000, derived as follows: From endowments and property, \$600,000; from fees, \$540,000; from state appropriations, \$3,690,000. The total income the French universities in 1895 was \$2,607,016. Of this amount fees realized \$1,259,912, so \$1,347,104. It follows that the expenditure for a university student in Germany is 20 cents per capita of the population, and for a French university student only 3.6 cents. The number of students on the roll of the French faculties, January 15, 1897, was 27,035, as igainst 6,250 in 1891.

The careful mother always keeps Salvation Oil handy, for cuts and bruises.

Sunday School Conference.

The second March conference of the Omaha Sunday School association will be Omaha Sunday School association will be held in the parlor of the Young Men's Christian association Tuesday evening at so clock. The papers to be read and discussed are: "The Kindergarten Idea in the Sunday School" by Miss Avice Drake of the Walnut Hill school; "How to Secure Best Results in a Bible Class." by Rev. W. W. Everts of the Beth Eden Baptist church; "Some Experiences of a Sunday School Missionary in Nebraska." by W. H. Kimberly of Lincola, general missionary for the American Sunday School union.

Start for the Old Country. Mrs. Adolph Burmester, mother of Coun-cilman Burmester, left Saturday for New York, from where she will sall for the old country April 3. This is the first time Mrs. Burmester has visited the Fatherland since she left it in 1858. She is accompanied by her sister, Mrs. Hoppen of Junction City, Kan.

OUTLOOK FOR THE MIDWAY

Along the summit of the bluffs overlocking the broad valley of the Missouri, occupying out upon it. The riders were not bunched that portion of the Transmississippi Expothat portion of the Transmississippi Exposition grounds lying east of Sherman avenue, the imagination already beholds the dim outlines of the fantastic architecture which will characterize the section devoted to furnishing amusements for the throng of visitors who will attend the exposition. All the manifold forms of entertainments designed to furnish amusement combined with instruction which come under the all-inclusive head of "concessions" will probably be relegated delightful location for such a purpose would

be difficult to imagine. This piece of ground embraces about sixty in length and is from 600 to 800 feet in width for nearly two-thirds of its length, running off to a point at the upper end. The ground is almost as level as a toor, with a ew trees of mature growth scattered here and there. It ends abruptly on the east side bluff, the descent being about may be had and the wisdom of the expesi tion management in selecting this particular ground becomes more apparent as the plan

surrounding country, with the muddy water of the treacherous Missouri winding its sinuous way in full view for fully ten miles with Cut off lake directly to the east, Florence lake a short distance to the north and the crystal sheen of Lake Manawa plainly visible to the south over the beautiful city of Council Bluffs—this ground is to be trans-formed into a beautiful park, with a broad plaza along the edge of the bluff and en pellishments in the highest line of the land scape architect's art.

In this park will probably be grouped the multitudinous devices designed to amuse the public in every conceivable way. Here will be the foreign villages, showing in realistic manner the general character and style of the architecture of foreigen coun-Willard Lampe were accidentally omitted tries, the daily life and occupations of the residents of those countries and the articles of various kinds manufactured by them.

Prominent among these amusements will be the theaters of those foreign nations whose customs and amusements are of such a radically different nature from those to which the residents of this country are ac customed that they form a never-ending source of amusement and instruction. Among these will be Chinese and Japanese theaters, and exhibitions of the national and characteristic dances of other nations, There will also be exhibitions of mehani-cal novelties on a more extensive scale than

has been seen at former expositions. A large number of applications for space for exhibit ing devices of this nature have been received Alfred Greenebaum of San Francisco has by the management and there is every indicated given a Semitic library of 1,000 volumes cation that the display along this line will IMITATION CHINESE WALL.

Among the applications for concessions ne from a well known Chinaman who propeacs to erect a most realistic representation oration, has sent out notices to the alumni of the famous walled cities of his native to vote for a member of the corporation to land. He submits a series of sketches, showing the general character of the "village term expires in June. A strong effort is being made to insure the re-election of Mr. the manner of the walls surrounding many Mason.

A marble bust of Dr. Arnold of heroic size This wall is to be sixteen feet in height Temple, himself a former head master of in the fartastic garb made familiar by pic Temple, himself a former head master of in the fartastic gard made tanding by the school, making the address. The bust tures in the public prints during recent years was originally intended for Westminster patrol this wall and guard against the approach of an imaginary enemy. Within the for the space assigned to it. According to the latest report of United seen in every Chinese city. The most inter-states Commissioner of Education Harris esting of these, probably, is the joss house or place of worship. Here will be shown a number of Chinese gods and the attendant priests, together with the characteristic em bellishments of both interior and exterior There will also be a restaurant where the curious may feast on Chinese edibles of all kinds, while dwelling houses, stores, bazaars. and other places where the products of th handiwork of the native artisans and artists may be purchased, abound on every side architecture of the entire "village" is dis-tinctively Chinese in character and every hing about it will be conducted in such manner as to give it a thoroughly national

Another feature of the colony of villages will be the Japanese village. This also will be enclosed by a high wall. Entrance will be gained by means of a towering archway whose architecture betokens the handiwork of the artists of the land of the mikado. The center of attraction on the inside will the joss house and theater. The main build-ing will be finished with a tower reaching a height of about sixty feet, and all around will be Japanese dwelling houses of various

styles of architecture.

A German village to be designated as "Old Vienna." is among the concessions for which application has been made. Entrance to this will be through a lofty archway of mediaeval architecture opening into a spacious court around which will be arranged fac similes o the striking styles of architecture to be seen in Vienna. Passing between these a spacious garden will be reached in which spacious garden will be reached in which will be an open stage on which will be presented a ceaseless round of entertainment.

A "Palace of Illusions" will be one of the attractions provided for the amusement of the curious. In this all kinds of curious effects will be produced by means of mirrors and an endiess source of amusement will be afforded. The synlicant for this concess.

be afforded. The applicant for this concession proposes to erect an attractive building in the Greelan style of architecture, with many rooms in which different illusions will be produced and where the visitor may se-lect his particular form of nightmare and enjoy his horror to his heart's content. Of course there will be a "Temple of Beauty," in which the most beautiful women

from all parts of the known and unknown

world will be congregated. FLIRT WITH THE MERMAIDS. A novel feature which has been suggested a submarine theater. It is proposed by the promoters of this novel idea to construct a lake representing the palm-bordered do-main of a wealthy Turk with an historically correct representation of a Turkish harem or a floating island in the center of the lake Visitors to the narem are ushered into a diving car which plunges beneath the sur-face of the water, descending to a depth of thirty feet. During the descent the occu-pants of the car are given a beautiful sub-marine view of fish and plant life through the glass sides of the car. When the bot-tom of the lake is reached the visitors find themselves transported to the most exclusive portions of the harem. The bottom of the lake is a glittering grotto in which are seen the most beautiful of the sultan's favorite witch strong ground in artistic pictures, the ite wives grouped in artistic pictures, the whole being brilliantly lighted by a subma-

system of electric lights. A large number of applications have been made for space for the exhibition of mechanical novelties. Some of these applicants have sent in sketches of their machines and thers have given notice that sketches will

Taken altogether, the indications are that the amusement feature of the exposition will be an extensive one. Manager Reed, who is in charge of this department, is at a loss for a name for the collection of amuse-ments. It has been suggested that it be called "The Plaisance," but Mr. Reed is ready to receive suggestions in this line, no name having been decided upon.

Grant W. Kenney, manager of the Omaha
Grain and Stock exchange, said: "There is
not a great deal of call for stock business
in this territory except among a class called
scalpers. If the exchange does not give out
its quotations what little of that business
there is done here will cease entirely, and
those who have been investing in stocks will
turn their attention to grain. The Western
Union company may attempt to secure the cil Bluffs, Military avenue and Fort Crock were other short trips that were well pat-None of the wheel clubs of the city were prepared for the day. They have not or-ganized for runs yet. As a consequence none of the bodies turned out, although bands of turn their attention to grain. The Western Union company may attempt to secure the quotations by other means, and the excellent standing of the company, with its disinterestedness in the market, will have a tendency to give a confidence to their reports although they may not be official."

W. W. Umsted, local manager for the Western Union Telegraph company, when asked the position of his company in the dispute, replied by passing over a list of the Western Union directors, embracing a score or more of the leading financial men in this country. "Those men." he said, "doubtless nembers gathered together at the rooms and joined for short spins along the pavements and short distances out along the country The majority of the reads were in very cool condition. There were rough spots and some muddy places; but none of these were bad enough to do anything worse than to jar tempers somewhat. There was a great quantity of dust and this furnished the ROYAL ARCANUM ATTENDS CHURCH. country. "Those men." he said, "doubtless have some influence on the stock exchange aside from their connection with the tele-graph company. But all of these matters Members Go in a Body to Hear Their In response to an invitation extended by are attended to at the main office, and when a decision is reached there all will be noti-fied. While the market quotations form a very important portion of our business, the Rev. T. J. Mackay of All Saints church, the members of Union Pacific council, No. 1069. Royal Arcanum, attended divine services exchange cannot any more afford to get along without the company than the com-pany can afford to lose the business of the there last evening. The members to the number of nearly fifty met in the lodge exchange.

A decision was rendered by a judge of the district court in Chicago, a few days ago, bearing upon the very point involved in this case, and it may be the means of settling the contentions arising from the order of the New York Stock exchange. The Chicago Board of Trade sought to content to the content of the content of the content of the Chicago Board of Trade sought to content of the Chicago last evening and then marched in a body to the church. Rev. Mr. Mackay is chap-lain of the order and the presence of the body of men over whom he exerts the inrd of Trade sought to restrain the tele xxv-28, "Take therefore the talent from him and give it unto him which hath ten graph companies from furnishing outsiders with market quotations. The court decided against the Board of Trade, talents." At the conclusion of the sermen other points in the opinion was the following the order so largely represented in his

These market quotations have clothed with a public interest in behalf of such producers, consumers, shippers merhants and dealers only as are engaged in legitimate business, and such as use or furnish the same for use in the legitimate business transactions of the country. The law never stamps private property with a public interest for the benefit of the law

AMUSEMENTS. CHARLES THE RESERVE THE PROPERTY OF THE PROPER

The Graham Earle company opened a that the order of the Royal Arcanum was so week's engagement at Boyd's yesterday. At near perfect in its plan that it only needed a ouch of the divine spirit to make it the the matinee the sensational comedy, "The Inside Track," was presented, and in the evening "The Evil Genius." The attendance at The Seventh Ward Republican club will both performances was large and their ap-proval was manifestd with frequent and loud applause. The specialties were received with The entertainment afforded easure. price of admission. "The Inside Track" will be repeated tonight. Dur-ing the engagement the change of bill for each performance will be announced in these

Vaudeville reigned at Creighton theater vesterday, amusing large audiences at both performances. Those appearing included the several variety favorites who have pleased during the past week at Creighton Music hall, as well as a number of new specialties, notably, Prof. Hartman's dog. cat and monkey circus, and Ada Melrose, whose catchy songs won her hearty applause. Prof. Hartman and Miss Melrose will head the bill at the Music hall during the present week, others being Beach and Vincent, Sparrow,

Pauline Mayhew, Zyrenyi and others The fact that Primrose & West's minstrels are to be the attraction at the Creighton, Friday night and Saturday matinee, April 2 and 3, will no doubt bring to mind that they celebrated last winter the twenty fifth anniversary of their partnership by giv ing a grand jubilee performance at Madison Square Garden, New York.

Bob Fitzelmmons, champion middle and heavyweight pugilist of the world, heading an athletic and vaudeville company, will be the strong drawing card at the Creighton Sunday night, April 3. Fitzsimmons will be attended by his manager, Martin Julian, his trainers, Dan Hickey, Ernest Roeber and others of his large retinue who attended him at his recent battle for championship honors. A reproduction will be given of the last few rounds of the Carson City fight, Dan Hickey enacting the role of the late champion. Seats will be placed on sale Thursday morning.

"A Run On the Bank," as presented by the well known comedians. Ward and Vokes and their supporting company, will be a Creighton card for four nights, commencing Sunday matiree, April 4. This laughing success is promised to be even funnier than erctofore, and will be interpreted by such well known funmakers as Charles A. Mason, Joseph Kelley, Lizzle Daly, whose recent success with "In Gay New York" will be remembered, Gilbertle Learock, Maggie Daly Vokes and 'Eleanor.' A bargain Wednesday matinee will be given

On Time. And very early, too. That's what any one should be in treating one's self for inaction of the kidneys and bladder. The diuretic which experience indicates as supplying the requisite stimulation to the organs without exciting them is Hostetter's Stomach Bitters. Don't delay; kidney inaction and diseases are on tar apart. For fever and ague, dyspepsia, onstipation, rheumatism and nerve debility, also, use the Bitters.

Baby on Her Doorstep. W. B. Allison, who has been in the city Saturday night about 10:30 Mrs. Charles for a few days, left last night for his home Reynolds, living at 3320 Leavenworth street. was awakened by a knock at her front door. She was alone and asked who was there. In a few minutes the knocking was repeated and upon Mrs. Reynolds going to E. A. Converse, a prominent insurance agent of Chicago, who has been in the city

ORDER Mark Down Sale.

Commencing Monday morning and continuing until all are so'd we offer our entire Spring stock of boys' long pant suits at the lowest marked down pricee you have ever seen. Commencing as low as \$2.00 for a complete suit our entire stock is marked away down. Remember this is our new Spring stock. Every single suit has been specially made for The Nebraska this season and many of them have not been on our counters much longer than 48 hours. They are as good a lot of suits and as handsome a lot of patterns as we have ever seen, and whatever prices you pay, whether \$2.50. \$3.00, \$4.00, \$5.00 or \$5.50, you will get the biggest money's worth you ever got in your life, We mark 'em down right now at the beginning of the season instead of waiting 'till the end of the season as other stores do-not because there is anything the matter with them-but because we want to sell themthat's all. We always mark things down at this time of the year to save the trouble of doing it later on.
