All the Markets Are Weak Following Weak Liverpool Cables.

OATS ALONE CLOSES WITHOUT CHANGE

May Wheat Drops a Cent and a Fourth and July a Large Fraction-Corn and Provisions Are Both Lower.

CHICAGO, April 5, - Wheat closed squarely under the 70c mark today, the May option suffering a decline of 14c per bushel and July %c, the greater weakness in May being caused by changing over from that month to the more deferred delivery. A big drop in Liverpool caused a weak opening and liquidation continued almost without interruption all day. Other markets were sympathetically weak, corn declining 1,37% and provisions 250 and 150. Onts closed practically without change. Wheat got a blow on the heart from Liverpool when that market cabled an opening decline of 5d per cental. The start here under stress of such a stag-gerer was at declines, compared with turday's closing price of %c to le per Baturday's closing price of %c to 1c perbushel for May and from %c to %c for July. First quotations for the former were from 69% to 60% c, and for the latter 69% c and 69%. The lowest of those quotations formed the bottom of the range of the subsequent fluctuations up to 12 o'clock. In addition to the decline at Liverpool the quantity on ocean passage was increased 480,000 bushels since a week ago, and world's shipments show a marked increase over those of the week previous, the total crobied to the Board of Trade aggregating over 4,200,690 bushels, against 3,735,000 bushels last week. This also helped the bears, in that it was far in excess of the recent average, although 2,500,000 below the estimated weekly requirements. According to a cablegram from Beerbohm's European stocks of wheat and flour in first hands and the quantity on ocean passage were together 10,000,000 bushels less April 1 than they were March 1 of this year. The reduction in visible supplies in this country for March was about 6,000,000 bushels, so that the world's visible supply lost 16,000,000 bushels in that month. Minneapolis and Duluth received only 219 cars of wheat, compared with 840 a week ago and 376 the corresponding day of last year. Chicago got 13 carloads. The visible supply which waich was expected to show, perhaps, a snat! increase was found to have decreased 411,000 bushels, it helped to prevent prices declining. May, about fifteen minutes from the close, sold down to 534,665% c and July to 685,66%. The export clearances from Atlantle ports of equal to 510,000 bushels in wheat and flour since Saturday's report did not do much to help sustain prices, in view of the claim that it was old business and there are no prepent bids within two or three cents of our prices. The closing price for May wheat was 694,665% c and for July 68%c.

Corn was quiet and weak, influenced by the weakness in wheat and the more liboral receipts. The conditions were such that holders were disposed to sell out, but prices were fairly steady until near th bushel for May and from %c to %c for July. First quotations for the former were

was lost later as wheat grew weaker. The visible supply decreased 180,000 bushels and seaboard clearances were 114,000 bushels. May opened unchanged at 17%c, sold between 17%017%c and 17017%c, closing at 17%c.

17%c.
Provisions opened weak and continued to decline, notwithstanding a much smaller run of hogs than expected. There was very general liquidation, packers especially being ilberal sellers, and little support was given the market, which closed at the bottom. May pork, 15c lower at \$2.26 May lard, 7½c lower at \$4.522.674.55.
Les timated receipts for Tuesday. Wheat, 14 cars; corn, 196; oats, 25c; hogs, 17,000 head.

STOCKS AND BONDS.

New Jersey Central Affords Scope for All Kinds of Trading.

NEW YORK, April 5.—The traders in stocks ande a plaything of New Jersey Central stock oday and worked their will with it. So inviting a subject for speculation was it that it ab rbed a large share of attention in a very narrow market, its wide and erratic fluctuations making it specially available for the purpose of the traders. There seemed to be an extraordinary degree of doubt and lack of reliable information as to the exact intentions of the directors at the meeting today regarding the dividend. That the rate was to be reduced was taken for granted, and stories had even found credence of late that it was to be passed. The opening decline in the stock today seemed to be based on a belief that the dividend would be reduced to a 2 per cent basis. The price sold off 25 per cent to 764, on this. When it was announced that a quarterly dividend of 1 per cent to 864 ensued, but this was followed by a reaction of 35 per cent to 775, due in part to disappointment at the absence of a statement of the company's financial condition and to fears as to the carnings having been up to the old dividend rate decided on. Delaware & Hudson was actively in sympathy with New Jersey Central, falling 15 per cent after an initial gain of a fraction, rallying to 1635, the best of the day, and reacting to 1624. Lackswanna was dealt in ex-dividend of 15 per cent and moved in sympathy with the other coalers, but in a narrower range. The absorption of the professional clement in the coalers left the market decidedly dull and the transactions small. There was, however, a large number of odd lots of shares traded in, supposed to be for outside account, and to indicate the attractiveness to the outside public of the present low level of prices. There was some slight stiffening of prices about midday on covering of shorts and in sympathy with the short-lived upward movement in the coalers. Leather preferred showed the extreme gain of 15 per cent, but the Vanderblits pronted to the extent of a sharp fraction. Later the narket succumbed to a number of adverse inducences, or what were interpreted as such by the dealers. The principal of these was the news that the supreme court had refused to advance the appeal of the Joint, Traffic association to a hearing at th ow market, its wide and erratic fluctuations of the traders. There seemed to be an extraor

tom and lower their rate irrespective of the bank. I know that the matter is at least under discussion, Gold is in strong demand at 78 18% for Russia and Japan. The Parls and Ber-lin markets were firm."

A THE THE PARTY OF South Omaha News.

THE REPORT OF THE PROPERTY OF THE PARTY OF T The election booths will open at 9 o'clock this morning and remain open until 7 o'clock this evening. Yesterday City Clerk Carpenarrangements are now complete for the counting of the ballots. Many of the judges and clerks have served before in a like capacity and it is expected that the count will be completed early. Votes for councilmen will, it is understood, be counted first, then the Board of Education tickets, and the votes on the bond proposition last. Candidates were kept on the jump yester-day and last night, a number of meetings being held in different parts of the city during the afternoon and evening.

Major J. W. Cress of this city, yesterday, sent the following letter to The Bee:

I wish to say that the statement printed in the World-Herald of Sunday is a misstatement of the truth. Jack Walters does not carry the old soldiers vote in his vest pocket by a long sight. He with others have been known to say many things about the old soldiers that are not true. Old soldiers know who their friends are. There are over forty old soldier votes in the First ward and A. R. Kelly will get thirty-five or thirty-six of that number at the election Tuesday. The balance will go to J. C. Graham. I know what I am talking about when I say this. As for A. R. Kelly being opposed to me for assessor last fall, that is a mistake. A. R. Kelly has always been one of my warmest friends and I am for Kelly, first, last and all the time. sent the following letter to The Bee:

B. Erion is another old soldier who takes exceptions to statements which appeared in an up-town paper to the effect that Kelly had protested against his ap

pointment to a political office. Mr. asserts that his relations with Mr. Kelly have always been of the pleasantest, and that Kelly will receive his hearty support at the polls.

Barrett, the republican nominee in the Second ward, has made a careful canvass

of the ward and is satisfied that he will be the best man at the finish Tuesday night. Trainor, the Third ward republican, is assured of sufficient support to elect him, as is also Sam Mort in the Fourth ward. For members of the Board of Education the republican candidates, Messrs. Lott Wyman and Turnquist claim to be certain

On account of his youthfulness and be cause he has never before been implicated in a crime. Carl Wilson is to be given another chance to be good. Wilson is the young lad, 16 years of age, who confessed to stealing

several days ago. Since their son's arrest the parents of the boy have been working hard to lessen the seriousness c: his crime. They have appealed to the police authorities to be merciful to the lad and have finally succeeded in enlisting their sympathies. The boy was ar-raigned in police court last Saturday. He pleaded guilty and waived preliminary ex-amination. Yesterday this proceeding was withdrawn and the complaint of grand larceny that had been filed against him was dismissed. He was allowed to plead guilty to the charge of petty larceny and was sen tenced to the county jail for thirty days Under the original complaint on his plea of guilty he would have been sent to the penitentiary.
