Greece and Turkey Likely to Settle Their Differences Peaceably.

ALL READY TO MEET ON COMMON GROUND

If Left Alone They Can Agree in a Few Days.

ACCOUNT OF THE AFFAIR AT BALTIMO

Greeks Leave Two Thousand Dead or Dying on the Field.

TURKISH MINISTERS TAKING COUNSEL

Considering What Action to Take with Reference to the Recent Greek Incursion into Macedonia Territory.

LONDON, April 13.—The Athens correspondent of the Daily Chronicle says that a compromise is evidently in the air.

CONSTANTINOPLE, April 13.—Another council of ministers is now in progress at the Yıldız Kiosk, and it is expected that it will result in an important decision with respect to the recent incursion upon Turkish territory.

CANEA, April 13.—While fifty Turkish soldiers were landed to reinforce the forts at Kalamo the Greeks fired on the boats. Several boats struck the Austrian boat, which was assisting, whereupon two Greeks, it is said that the Cretons recently impaled outside the fort a Turkish commissioned officer whom they had captured.

CONSTANTINOPLE, April 13.—Another council of ministers is now in progress at the Yıldız Kiosk, and it is expected that it will result in an important decision with respect to the recent incursion upon Turkish territory.

ATHENS, April 13.—The frontier situation is developing slowly, for two reasons. In the first place bad weather—snows, rain and bitterly cold winds—have made campaigning in the mountainous districts anything but a picnic and have retarded all movements.

MISSOURI DRIVES OUT

Reaches the Highest Point in Many Months.

FLOODS NORTH OMAHA

River is Out of Its Banks and Threatens Great Danger to Property.

OLD MISSOURI BREAKS DOWN ALL BARRIERS

Leaves Its Channel and Sweeps Over North Omaha Bottoms.

RETURNS ITS WATERS INTO FLORENCE LAKE

Country North of Cut-Off Lake Completely Inundated.

DRIVES MANY SETTLERS FROM THEIR HOMES

Stream of Water Thousands of Feet Wide Sweeping In Toward East Omaha, Carrying All Before It.

A flood, second only to the terrible visitation of water in 1881, although it has so far been far less disastrous, swept over the lowlands of northern Omaha and the northern portion of East Omaha on Monday night, yesterday and last night, leaving behind it a scene of desolation, devastation and waste.

YESTERDAY'S GLOOMY DAWN was a fitting setting for the watery waste upon which it lowered in all that portion of East Omaha that lies to the north of Cut Off Lake.

THE REACTION appeared to be one vast sea with laces dotting its surface. This impression was speedily dispelled, however, by the evidences of flood that the scene afforded.

HOUSES and barns stood in water that ranged in depth from one to five feet. Tops of fence posts extended along the watery surface like strings of beads.

SUBMERGED TREES showed but their branches and tops above the water. The scene was fashioned in what could be termed a twinkling of an eye.

AT 5 O'CLOCK the people in many of the houses on the island were fleeing from their homes.

YESTERDAY MORNING almost the entire northern portion of the island was from one to five feet under water.

THE BEGINNING of the flood occurred several days ago. For weeks past the river has been rising gradually and rapidly.

IT WAS THOUGHT that there was no danger. It was believed that the levees would hold. They did hold until the night of Tuesday.

THE WATER WAS RUSHING from this point upon the lowlands through a channel which was estimated to be 2,000 feet in width.

THE CHANNEL is not being enlarged, because the river is not rising at present to any extent.

THE WATER IS SWEEPING along the channel almost directly toward a point that would intersect Twentieth street.

THAT THOROUGHFARE were extended, then switches toward the southeast and back to Sherman avenue.

THIS IS ABOUT A MILE south of where the river broke through. Here the flood has divided.

ONE BRANCH IS SWEEPING into Florence lake to the east. The other is rushing southward almost parallel with Sherman avenue and is pouring into Cut Off Lake.

THE LATTER STREAM has so far proved to be the most disastrous. It is in length about a mile and in width several hundred feet.

IT SWEEPED over plowed and planted fields. It drove residents along the eastern skirt of North Omaha from their homes.

IT IS TEARING UP fences and is threatening to sweep a considerable number of houses from their foundations.

FORCES FAMILIES TO FLEE

The stream began to drop southward about 4 o'clock in the morning and in a short time presented alarming proportions.

IN A HOURLY YESTERDAY forty or fifty families fled from their homes to seek safety.

IT WAS FROM THAT drove out of their homes and from their premises three milkmen, Erikson, Larson and Milhouse.

IT SWEEPED a quarter of a mile further south and there took within its bosom a dozen cottages.

THE RILEYS, the Petersons, the Johnsons, the Schaefers, the Knappes, the Clarks and several other families decamped about 5 o'clock.

ALL THESE ARE RESIDENTS of the eastern part of North Omaha.

THE STREAMS THAT WENT on further south a distance of half a mile and struck another little settlement.

THE RESIDENTS here at 6 o'clock began to move. Among those who had to vacate were the families of Thomas Plummer, Milton Bilby, George Skinner, Frank Burwell, Charles Frazer, Erick Peterson, Charles Butcher, Enquest and Murphy.

ALL THESE PEOPLE lived north of the road which leads over Cut Off lake to Courtland street.

THE LAST FAMILIES were those who were unable to do more than save themselves. They left all their furniture and possessions behind them in their houses in the hope that they would be able to recover them in the morning.
