Bromberg claimed to be unable to make his living and altogether unable to pay the heavy license required. Western Senators Dec do to Insist on Certain Amendments.

NOT SATISFIED WITH THE DINGLEY BILL

Mantle, Carter, Shoup, Warren and Burrows These Most Prominently Connected with the Proposed Movement.

WASHINGTON, ASSIL 16 .- Western sensors, after several conferences, have reached an agreement to stand together for important changes in the wool schedule of the Dingley The senators most prominently identified with the movement are Messrs. Mantle, Carter, Shoup, Warren and Burrows. They have not only agreed upon a line of amendments, but have decided to insist on their inclusion in the bill. The proposed amendments are directed mainly to closing he many loopholes for evacions and fraud which wool men agree abound in the Dingley bill, and were also found in the McKinley

An amendment was agreed upon providing that an additional duty of 4 cents per pound should be levied upon skirted wools as imported in 1890 and prior to that The principal change, however, proposed, is upon wool and camels' hair of the The Dingley bill proposes an respectively, upon wools of this class, valued under and over 13 cents per pound. It is proposed now to strike out of the Dingley bill not consent to modify the clause providing clauses relating to third class wools and to for biennial city elections. There is, he insert instead the following:

On wools of the third class and camels' hair of the third class, the value of which shall be 8 cents or less per pound in the wool markets of the United States, the duty shall be 5 cents per pound; and on all the wools and hair of this class, the value of which shall exceed 8 cents per pound in the general markets of the United States, there shall be an additional duty of one-half of 1 cent per pound for each increase of 1 cent per pound in the value thereof. It is claimed for this latter amendment which is the most important of all the amendments proposed, that it will largely prevent the frauds which it is alleged were perpetrated on the ad valorem duties the McKinley law, by reason of which, it is asserted, hundreds of millions of pounds wool used in the manufacture of clothing which properly belonged in the first class, were imported at third-class rates on

the representation that they were to be used in making carpets. The clause in the proposed amendment relating to third-class ools, designating the general markets o the United States as fixing the value o aported wools, is regarded as very impor tant, as if the same amendment is adopted is will destroy the opportunity for under valuation which now exist. Other precautions will also be urged to this end, such as defining the meaning of classifications so as to prevent restrictions such as have heretofore been used. For instance, the words Angora, Adrianople, Bag dad, etc., will be defined as indicating a class of wool regardless of the special dis

rict in which it is krown. Senator Mantle, who introduced the memorial of the National Wool Growers' association in the senate, says the amendment does not nearly demand made by the association but in his opinion will be a vast improve The old question of exacting payment of ment over the bill as it passed the house the high license put upon hucksters and It will remain with the western senators he says, to say whether the proposed amendments shall become a part of the new tariff law, or whether the demands of the wool manufacturers as applied to wool shall outweigh those of the wool growers themselves.

PLAN FOR SENATE COMMITTEES

Committee Votes to Accept Proposi tion of Democrats. WASHINGTON, April 16 .- The committee powered to do so, the proposition made by he democrats for the organization of the senate committees. Accordingly a caucus will be held at 10 o'clock Monday morning. The proposition which the committee has agreed accept provides that the republicans fill all the committee places which were filled by republican senators during the last con-gress, including the chairmanships vacated by republicans, and they shall be given one additional place on the appropriations committee, vacated by a democrat, and that the membership of the committee on post-offices and post roads shall be increased from nine to ten, in order to give the democrats an additional place on that committee. This arrangement will result in leaving the reublican senators at the head of all the im portant committees, but a majority of the mberships of many of them will be anti-re ublican. There are indications that the comnittee recommendation will not be received with favor by all the republican senators.

Vill Soon Move Against Weyler with Fifteen Thousand Men. WASHINGTON, April 16 .- (Special Tele ram.)—General Colby of Bestrice is agitating n behalf of the Cuban cause in this city. He roposes to raise an army to free Cuba in sixty days. General Colby, it is learned. has been quietly organizing troops throughout the United States, and has now sent out nstructions for rendezvous in Mexico, under that flag, with a view to moving on to Havana under a strong convoy organized in the south seas. It is said that Mexico is ready to go to war against Spain, and takes this method to provoke hostilities. It is es-timated by Colby that 15,000 men will be needed to free Cuba, which will be accomplished in sixty days, if he has the dis position of troops. A million and a hall in money is to be raised for this purpose, and it is proposed by Cuban sympathizers to coin silver into half dollars and sell them as curiosities in order to furnish the sinews of
