Wheat Opens with a Bound, but the Strength Simmers Out.

SHORTS ACT LIKE MANIACS AT THE START

War News Gives Them a Decided Scare and They Make a Mad Rush to Cover_Provisions More Quiet.

CHICAGO, April 19.-After a very exciting opening today at an exceptionally great advance in its price wheat simmered down to about its usual subdued nervousness. The final outcome was that May closed worth 75c and July 1475675c, as compared with 785c and 7815c, respectively, Saturday afternoon. The other markets had a somewhat similar experience, except that in the ease of provisions no advance was established for the day. The outbreak of hostilities between Turkey and Greece overshadowed all else in its influence on the

As was expected wheat was wild and excited at the opening; the news that war had actually begun produced consternation among the shorts and the utter disregard of caution displayed by a majority of them was clearly indicated by the prices they paid at the first onrush. May wheat, which Saturday closed at 73%, started this morn-like the started this morn-like displayed by the prices. HROOMCORN-Extremely slow sale; new crossing the prices. among the shorts and the utter disregard ing in one mighty bound from 3%c to 4%c higher. There was a difference of ic per higher. There was a difference of 1c perbushel in price between the first transactions made simultaneously in different parts of the pit. Both May and July were bought at from Tic to Tilge, with a few sales as high as 78c. So utter was the confusion and haste to do business during the first few exciting moments that men standing alongside of each other in the pit were doing business at 1gc per bushel difference. Most of the usual statistical news was wanting, owing to the closing of the foreign markets during the Easter holidays. Private cables, however, showed a curb advance at Liverpool equal to 6c per bushel. Although reports from the growing crop were enough in themselves to produce a strong market. It is probable that after Saturlay's excited bulge a reaction would have been recorded today had it not been for the outbreak of hostilities in Europe. As it was, after the first wild scramble, the excitement began to die down. The market heaved and sank and heaved again, however, in great irregular billows for an hour before its motion got calmed down for a while to the comparative ripple of its ordinary fluctuations. Realizing during this time was enormous. Line after line of long wheat was thrown on the market and acted like oil on stormy waters. Indeed this fact probably prevented what many looked for today, namely 80-cent wheat. Cudahy, Linn and Barrett were the most conspicuous sellers during the first hour, the two former supposed to be taking profits on long stuff, while the latter sold for the short account. Cudahy and Linn were credited with clearing something like \$100,000 each as a result of the day's transactions. John W. Gates of the Illinois Steel company and W. T. Baker also won heavily. Before the price settled down in the manner Indicated it had touched 74 sc on its downward course and reacted around 75c. It rose again to 76 sc, once more got down to 75c and closed at that. Chicago received six carlonds of wheat and 63,000 bashels were taken out of store. Minucapolis and Duluth receipts were se bushel in price between the first transaction tions made simultaneously in different parts

packers had more for sale than there were buyers, the consequence of which was that early buyers had cause to regret their im-pulsiveness. The prices made in the first fiteen minutes were the highest of the day, and at the close of the day they were at the bottom of the range. May pork closed a shade lower at \$8.47½; May lard 2½ lower at \$4.20 bid and May ribs a shade lower at \$4.75. Estimated receipts Tuesday: Wheat, 7 cars; corn, 125 cars; oats, 185 cars; hogs, 20,000 head.

The market opened irregular, 5 to 14 points lower, following the sensational war reports. Trading, however, was light, considering the decline, with local operators almost entirely in control. There was little foreign trading, owing to the Easter holidays. Following the opening the market steadied 3 to 4 points on local buying, but at 10:30 eased off to the first point of the morner ing on active selling for New Orleans account. Bears were aided in their effort to depress the market by heavy receipts at the ports. At 11 o'clock the market was nervous at a net loss of 13 to 14 points, with sales of 55,000 bales. The reports of disastrous floods on the southern Mississippi were lost sight of, attention being given entirely to reports of further complications in the European troubles.

HUNTER TO GET OUT OF THE RACE.

Will Be Able to Dictate the New Nominee of the Republican Caucus. FRANKFORT, Ky., April 19.-It was given out at the Hunter headquarters this morning, apparently by authority, though not by Dr. Hunter himself, that he would withdraw after the ballot tomorrow, and that Senator Jones, chairman of the republican caucus, would call a new caucus for either tomorrow night or Wednes-day morning. When asked if he would day morning. When asked if he would withdraw, Dr. Hunter replied evasively, and those republicans who have had lightning rods up all session are doing some tall

hustling. The nominee of the new caucus will of course be dictated by Hunter. This lets out all thought of Colonel St. John Boyle, for whom the bolting republicans have been voting. It was rumored this morning that the Hunter people had not decided upon whom they would combine, but that it would likely be Judge W. H. Holt or Senator Deboe

There was little interest in the joint session of the general assembly at noon to-day. According to agreement entered into by the steering committees of the parties but one vote was cast for each candidate, after which the joint session adjourned.

MORE RUMORS OF RATE CUTTING. Missouri Pacific and Union Pacific

Pay Commissions to Brokers. CHICAGO, April 19.-Rumors of coming demoralization of passenger rates were revived today by a report that the Missouri Pacific and Union Pacific were paying the same commissions to ticket brokers as are now being paid regularly appointed ticket, agents. As the present rate of commissions is four times that of the normal, its payment to the brokers would furnish them with a big margin on which to cut rates. There is much talk of reductions in regular oneway rates to the same extent as the cuts made by the brokers.
